"I dreaded the change of life which was fast approaching. I noticed Wine of Cardui, and decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax."

Female weakness, disordered menses, falling of the womb and ovarian troubles do not wear off. They follow a woman to the change of life. Do not wait but take Wine of Cardui now and avoid the trouble. Wine of Cardui never fails to benefit a suffering woman of any age. Wine of Cardui relieved Mrs. Webb when she was in danger. When you come to the change of life Mrs. Webb's letter will mean more to you than it does now. But you may now avoid the suffering she endured. Druggists sell 81 bottles of Wine of Cardui.

### Town and County Items.

P. S. King is out again after quite a severe illness.

The infant of J. L. Aiken is getting much better.

Ex-Governor Bloxam and wife, of Florida, are visiting Dr. Wallis.

Mrs. Sophie Younginer is rapidly recovering and hopes to be out shortly.

Walter D. Carstarphen who represents Austin Nichols & Co. is in town for a few days.

D. L. English, Esq., and bride have returned and are staying at Dr. English's for a few weeks.

Mrs. Henry has purchased the lot adjoining the Presbyterian church and intends building a handsome residence thereon.

From the large crowds that attend the practice games of ball it looks as if Brevard is one of the best ball towns in the state.

The drug store must have done a good business in liniments after the ball game between the Invincibles and Invulnerables.

A street car line would do a fine business here on days we have ball games. Some one had better start an intermittent line.

Broad Valley section is going to be supplied by rural free delivery after July 1st. This is another saving to the government of something over \$100 per year.

Brevard is proud of her ball team. Not only are the members all good players, but they are all gentlemen and well worthy of any courtesies that can be extended them.

The town is rapidly filling up with our summer guests, and our streets are full of strangers. The weather is delightful and all are satisfied.

Local fishermen are having good luck in the river at present. Any number of bass are being caught and fine sport is reported by those who indulge.

Ernest Black's baby had a narrow escape from death on last Saturday. It was left in its carriage a few minutes and in twisting around got caught by the strap and nearly choked.

Marshall is to have a cotton mill and utilize some of her fine water power. It is bad judgment for us to allow our power to go to waste when we could also locate similar industries in this vicinity.

Some one is going to fall in one of these open ditches that are cut by the town, get their back injured and then the citizens will have a big law suit and considerable damages to pay. An ounce of prevention is worth two pounds of cure.

The senior editor and T. L. Clarke launched their new boat in the river on last Saturday and the vessel coming up to specifications was accepted and immediately put into commission, and as a natural result the fish market was overstocked for some time thereafter.

The Brevard base ball team is going to play the larger towns of the state and also several cities of other states—Spartanburg and Columbia in South Carolina and Augusta in Georgia. And our team will be able to hold its own, advertise Brevard and will direct much attention to our county.

No town has more capitalists temporarily in it than Brevard, and we cannot hope to attract their attention as we should until our streets and roads are improved. We must show them that we are progressive and up to the times in road improvement. With good roads we could locate many industries here that are now going to those sections where the necessity of good roads has been appreciated and transportation made easy.
