Might it not be a wise move for the school trustees of Brevard to locate a hydrant near the school house? Surely the children are entitled to all the water they can drink, and in a 4-months term a hydrant of pure water would more than pay its cost.

Geo. F. Glazener, of Atlanta is going to build a summer home for himself on South Caldwell street. Mr. Glazener is originally from Brevard and is now one of Atlanta's most prominent and prosperous citizens. He will build a modern pebble dash house with all improvements.

One of the best means we know of to build up a town is the organization of a local Building and Loan Association, and Brevard is no exception to this rule. If money to build with could be secured at reasonable rates and paid in monthly instalments, many mechanics would soon own lots and become permanent residents of our town. Building and Loan associations have built many a city by making it easy for the wage-earner to pay for a home, and there is no valid reason why the methods which have proven successful elsewhere should not be inaugurated here. Let's have a Brevard Building and Loan society.
