IN MEMORIAM

STUART VanVECHTEN BREESE

(In memory of Van Breese, who died Friday, July 19, 1907.)

Peace be to thy soul, beloved!
Angel hands have soothed thy pain.
God has taken thee to heaven,
And some day we'll meet again.

Bright were thy days, and full of promise
Of a noble, useful life;
But thy soul the Lord hath taken
Far beyond this world of strife.

O God! 'Tis hard—this cup of sorrow
Filled for us with bitterest pain;
But in that glorious land of sunshine
There, dear one, we'll meet again.

RESOLUTIONS OF RESPECT.

Whereas, God, in His providence and love, has taken from us our fellow-worker and friend, Van Breese; and,

Whereas, We, the members of the Christian Endeavor Society, though bowing to the will of God, yet we deeply mourn our loss, and we desire to show our appreciation of his life and the high esteem in which we held and still hold him; be it

Resolved, 1. That in the death of the president of our society we lost one of our most faithful, energetic and beloved members.

2. We wish to pay tribute to one whose faith in God was strong even to the end, and whose life and character were ever for good.

3. That this society extend its heartfelt sympathy to the bereaved members of his family.

4. That a copy of these resolutions be sent to the family of our late president, to the Sylvan Valley News for publication, and that these resolutions be entered on the record books of our society.

CLASSMATES' TRIBUTE.

On Friday, July 19, a sad accident caused the death of one of our most beloved boys, Van Breese. No one could be more missed than Van, by old and young, rich and poor, because he greeted every one with a sweet smile and gentle word.

As a schoolmate he was always expressing his love for friends by some kind word or deed, and was always ready to assist any one in their preparation of a lesson. As a christian his faith was beautiful, always speaking a word for his Savior where an opportunity offered, and always directing some one of his playmates in the paths of right.

Van was a true type of christian manhood, and we all should endeavor to follow his footsteps.

Van was a schoolmate of ours for four years, and during the time not an unkind word was spoken to any one. Never a word unfit for holy lips ever fell from his. When anything went wrong or troubles assailed him he always laughed them off.

On Friday during his great suffering when urged to "brace up" he looked up, and with a sweet smile on his face said: "My God can do more for me than any one." O, what precious words from a child of God!

Dear friends and schoolmates, let us endeavor to follow the example of this dear friend and schoolmate, and love our heavenly Father more than ever before, WILLIE and EUGENE A.

FARMERS INSTITUTE.

Brevard, Thursday, Aug 15.

It is quite certain that a large majority of our farmers are not getting as good results from their farming operations as is possible without increasing either labor or expense.

Take for instance our great crop, corn. Do the 2,750,000 acres planted in corn produce what they should? Can we not increase the yield and net profit by better methods? Are the right kinds and amounts of fertilizers used and applied in the best way? Is our method of cultivation the best and done at the least expense? Is the crop harvested so as to secure the greatest feed value from it and at the least expense?

As long as the average yield for the State remains below fifteen bushels per acre it is certain that the average man still has much to learn about growing corn and it is probable that the best corn grower can also learn something and still improve his methods.

The purpose of the farmers institute is to discuss just such questions relating to corn culture and similar questions about all other crops and farming operations. If the farmers of the county will come out and discuss such questions with a view of increasing their knowledge and improving their farming this institute may be of untold value to the county.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Colonel Watterson thinks that the Constitution covers the ills of the time like a blanket. Nevertheless, it has holes enough in it, for the mosquitoes to get through.

"We never repent of eating too little," was one of the ten rules of life of Thomas Jefferson, president of the United States, and the rule applies to every one without exception during this hot weather, because it is hard for food even in small quantities, to be digested when the blood is at high temperature. At this season we should eat sparingly and properly. We should also help the stomach as much as possible by the use of a little Kodol For Indigestion and Dyspepsia, which will rest the stomach by digesting the food itself. Sold by Brevard Drug Co.
