Winter's mud is coming, and the school children who come in on Broad street will have no way to dodge it. They are entitled to consideration even if we who live out that way are not. Can't the Town of Brevard assess two-thirds the cost against adjacent property and give us some kind of a sidewalk?

The public school at Selica opened last Monday, with Miss Georgia Bell as principal, and Miss Julia Deaver assistant. About fifty pupils were enrolled. It has been nearly three years since the children of this district attended public school.

The location of the high school for western Transylvania has been decided by the State Board of Education. Rosman has been selected as the most appropriate site, and the high school will be established there in the near future, probably before the year is out. The public school has already been in session there for over two months under Misses Jordan and Zachary. Selica loses the high school but she will have a regular public school, and the new building will add greatly to the educational advantages of the community.

AGAINST BLIND TIGERS.

Last Monday evening at the court house, R. L. Davis, superintendent of the State Anti-Saloon League, addressed an audience of Brevard people on the subject of good citizenship in its relation to the enforcement of prohibition laws. He had some complimentary remarks for Transylvania as being one of the leading counties in the great prohibition movement in the state. The greater part of his speech was directed toward answering the question, "How can the blind Tigers be suppressed?" He said that they could be driven out by refusing to patronize them, and by upholding the officers of the law in the discharge of their duties. Blind tigers he classed with other violations of the law, and jug dealers as any ordinary law breakers, such as thieves and murderers. He had no softened phrases for these rebels against the authority of the state, but denounced them in unsparring terms. Transylvania, he was glad to learn, had a set of executive officers, who had only to hear of the whereabouts of a still, and they went for it.

At the conclusion of the address Mr. Davis made a call for contributions to the support of the Anti-Saloon League. Cards were distributed on which different persons wrote the sum they would pay to the cause.

Too Much For One. "I am looking for my son," said a sharp featured woman recently entering an office building in Washington, where she found the janitor sitting at the entrance tipped back in a chair. "Have you seen him? He's a tall, slim boy." "Very tall, was he?" asked the janitor. "Very and slender." "I think I saw him here a minute ago." "Where was he?" demanded the woman. "Well, madam," replied the janitor, "as nearly as I could make out, he was on the first and second floors."—Lippincott's.
