TEACHER'S ASSOCIATION.

The Teacher's Association met in the court house on Monday, Dec. 14. Formerly the meetings have been held in the Graded School building, and on Saturday. But as the Saturday meetings interfered with the regular work of the Brevard School it was decided to appoint this one for Monday, so that the loss of time might not fall altogether on one school.

Only about a dozen teachers were present. This poor attendance is unfortunate, for the small loss of time is more than compensated by the gain to the teachers, and so to the schools, when they meet for the discussion of important subjects Supt. Henderson expressed regret that so few teachers were present and called attention to the fact that a strict adherence to the law would compel him to refuse to sign the vouchers of these who remained away without sufficient reasons.

"The Teacher's part in the Moral Education of the Children," was the first number on the program. In the absence of Prof. M. D. Hardin, this discussion was led by Prof. Thorne, of Broad Valley High School. The discussion of this subject, certainly one of the highest importance, was entered into freely and to the general profit.

Miss Withers, of the Brevard Graded School, who had been appointed to give some practical suggestions for primary work, made an interesting and helpful talk on this subject.

Next discussion, "The Influence of Pictures," was led by Prof. Es-
