

## We Think We Could Please You

This is the way we figure it: Most everybody prefers high-class eatables. We handle only that kind—hence our deduction is natural enough, isn't it? Suppose you let us do you up an order some of these days just for a trial. Get some of our Coffee. And some of that Tea that we are all the time talking about. Include some of our Canned Vegetables—they are extra quality—at 9c per can. And all the great number of every day needs we take pains to have JUST RIGHT.

### POINTS OF OUR PROGRESS.

We are at full sail again on a sea of progress and prosperity. Building is going on at a rapid pace in town and county. Land values are steadily increasing and those who care to invest in Southern real estate will never find it any cheaper than at this time. In our town preparations are being made to take care of the heavy travel that is expected this summer. New boarding houses are being built and old ones overhauled and enlarged. Bonds have been voted and sold for the improvement of our water system. Water and sewer lines are being extended. The streets are being improved and cleaned. The means for keeping our town clean and sanitary are well organized and all efforts are being directed toward making our town clean and attractive. The court house grounds have been improved and beautified. A fountain with gold fish and mountain trout adorns the court square.

New interest has been infused into the farming element of our county. We have a recently organized Agricultural Association. The farmers are zealously entering the corn contest and more money has been paid by our merchants and business men for corn prizes this year than Buncombe county has paid, and there are signs on every side of a general agricultural awakening, and when our farmers become aroused and realize what opportunities they have the county and town must grow, for they are the basis of all industries.

New telephone lines are being built and extended—in fact our county is almost a net work of telephone lines, and local telephone system is being daily improved, and long distance phones are installed in town.

We have a modern postoffice with an increasing business; one of the best banks in the state with every branch of its business growing day by day. The post office and bank are the best index to the progress of any town and county. Unlimited water-powers are being harnessed and made to do their part toward developing and building up the country. Power plants have been and are being built to furnish power to light our towns and run our factories.

We have an active and rapidly growing Building and Loan As-

sociation that is doing more to build up the town than any other enterprise in which our people have ever been interested. We have good railroad and telegraph facilities, churches, schools, and in fact everything that goes to make a clean, attractive and prosperous town and county.

With these many advantages we confidently ask strangers to come and look at Brevard, believing that a personal investigation is all that is needed to interest the capitalist and the home-seeker. There are larger towns than Brevard but there are none that can offer a better field for investments.

The News has ever been in favor of wider streets. No matter whether the town grows as a business center or not, it is bound to grow as a residence town. The location of Brevard is too ideal for it to long remain the village it now is, and as a residence town it should have wide streets—no street less than 60 feet. All of the older cities of this country made the same mistake that Brevard has made—their streets were too narrow. In all modern suburbs this error has been eliminated. No town is now "laid out" with streets less than 100 feet wide. This doesn't mean that the town must pave and keep in repair 100 feet of roadway, but there must be on each side room for sidewalk, a row of shade trees and parkage to be kept in trim by the property owner whose lot it fronts. A 60-foot street can be made attractive with 30 feet of driveway and 15 feet on each side for walks and parkage, but no street in Brevard should be less than 60 feet wide.

Feed and protect the wild birds. All about us this spring weather are thousands of bird babies. Every apple and pear tree, every shade tree is a nursery; the vine on our porch, the barn eaves, the grass in the meadow, each has its hidden nestful. Their mission is one not only of joy and music but of economic value. Blessings on the bird babies! The farmer who doesn't protect and defend the native wild birds is failing in his duty to one of his most efficient friends and helpers.

### GOOD ADVERTISING.

A Georgia newspaper threatened to publish the name of the young man seen with his sweetheart's head on his shoulder if he didn't come across with a dollar on subscription. Twenty-seven fellows slipped in and paid the dollar. Fourteen telephoned the subscription man to come around and get it, and the editor received three letters from nearby country districts saying they would call in and settle the next time they were in town.

## Announcements

### For Sheriff.

The many friends of F. E. Shuford take pleasure in announcing that he is a candidate for Sheriff of Transylvania county, subject to the action of the Democratic Primaries and county convention.

### Clerk Superior Court.

In response to the urgent solicitation of his many friends in all sections of Transylvania county, we are authorized to announce that Cos. Paxton will be a candidate for the office of Clerk of Transylvania Superior Court, subject to the action of the Township Democratic Primaries and county convention. Respectfully submitted by  
MANY CITIZENS.

### For Register of Deeds.

Thanking my many friends for their confidence and support in the past, I take this means of announcing that I will be a candidate for renomination at the democratic primaries and county convention for the office of Register of Deeds. If elected I shall strive to serve the people faithfully. Very truly your servant,  
B. GILLESPIE.

### For Solicitor.

I hereby announce myself as a candidate for the office of Solicitor of this, the 15th, Judicial District subject to the action of the Democratic convention. If nominated I shall use every honorable effort to redeem the district and place it in the Democratic ranks, and if elected I shall give my best ability to the discharge of the duties of the office. If, however, some other Democratic aspirant is successful in securing the nomination I shall support him loyally and earnestly.  
ROBERT R. REYNOLDS.

Two days more in which to pay poll tax if you would vote next November. On account of May 1st being Sunday, Attorney General Bickett rules that it may be paid Monday, but this ruling is not strictly in compliance with the law, and it is best to be on the safe side. Pay your poll tax today or tomorrow without fail.

That sample of weather which the wild, woolly and windy "Great Northwest" sent us last Monday is not very highly appreciated in the Sunny South. Two feet of snow had fallen in some north-western sections, and a good start was made here to duplicate the record. For two hours, beginning about half-past seven, the snow fell "in torrents." If this was due in any way to the tail of Halley's comet, its nucleus must be an iceberg.

It is rumored here, as an outgrowth of the several record searchings which have taken place in Brevard this winter, that the Toxaway Company property is about to change ownership—the Dukes being the purchasers. There are a great many suppositions as to what improvements are contemplated, but until the promoters are ready for publicity and will take the public into their confidence, all reports are nothing but surmises.

Beef from Australia pays freight and tariff and sells from three to six cents cheaper than American beef in the New York market, and it is said that it is a better quality of beef than that furnished by the beef barons of Chicago.

## SANITARY

In the Bulletin State Board of Health to ministers of a North Carolina Sunday, April 24, educating the people subjects, the following were especially pointed out:

1. That the forces of under control of man, deaths are not dispensable.
2. That, this being so, one's self, to humanity, learn the few, simple prevention for those of the home town or community.
3. That this information without cost by the State Board of Health literature on this subject of such information of a more sympathetic, sanitary, needed; that this need, by sending men to those who will be as careful provision for the protection of life as they are to protection of property.

In response to the following delivered from Episcopal pulpit D. Chapman:

### WHAT IS YOUR

For what is your vapor that appeareth if then vanisheth away?

What is your personal question? your earnest attention, my hearers. only concerns you concerns others. You ing. You necessarily. Your preconception your belief and unsettles the faith even the bodily health is a solemn thing and move and live every movement of society physically or spiritually. these few words I

What is your life of the vital principle is this? I know manifestations. A ordinary man is all the philosopher.

I am walking under wires and pick up What killed it? spark? I know not is dead. It has with that loss the power to use the any organ of the swallow is a lifeless

I look above and companions flying outspread wings. swallows and have all the organs. What a contrast is swallow in my swallow winging its graceful flight. Life makes all the what is life?

I have read of their onward course as all rivers some inland lake. rivers that sweep plunging in their ing in cataracts some dark, barrier disapper. So they pears in the dead

Now some this spiritual as well whole life of the action, our life of joy, flows on and the grave. wise. We believe mysterious as it the plunge of deep underground in while the bodily taper, the spirit flows on forever

I ask again: What Ask it yourself. physical life—the of the animal soul

It is wonderful terious magician stincts, feelings breath, the blood organ. It works fully, and is imp in the form of You know it in it
