

## YOU CAN DO IT WITH YOUR EYES CLOSED

Something new for every home. This is a wonderful thing—a new scientific invention; a marvelous instrument that will shave off a corn in a minute and keep them off.

**"Anticorn" \$1**

So simple a child can use it. Gives you the luxury of new feet; lasts a lifetime.

Cannot cut you. We guarantee it. Don't suffer from corns another minute. Take one on your vacation. If not delighted your money back for the asking.

The young men of the baseball association have endeavored this summer to furnish inhabitants and visitors games that were worth seeing. The rental of the lot cost them about \$40, and other expenses had to be added; so that as the season comes to a close, they find themselves in debt. A few more games remain to be played. In justice to the association, these games should be well attended and tickets should be purchased. The games this season have been first class, and have added no little to the diversions of the summer.

## TRAINS TO THE EXPOSITION.

To handle the great crowds which are expected to be drawn to Knoxville by the Appalachian Exposition, September 12 to October 12, the Southern Railway has completed arrangements for a regular passenger train service of 24 trains in and a like number out of Knoxville every day during the exposition, giving one train in and out of Knoxville every hour of the day.

Night trains in each direction between Chattanooga and Knoxville and between Bristol and Knoxville will be a feature of the through service while the local service will be extensive and ample. In each direction there will be, 5 trains per day from the South and Southwest, 3 from the South and Southeast, 6 from the North and East, 6 from the North, and 2 from the Northwest. For the various special occasions which have been arranged the Southern will operate extensive special train service. Shuttle trains to the exposition grounds will also be operated.

Fifty-two officials and representatives of the passenger department of the Southern recently met in Knoxville and after a full inspection of the exposition which resulted in the greatest enthusiasm concerning the prospects of the exposition, completed all arrangements for running this extensive train service. The Appalachian will set a splendid mark in preparedness. All buildings are now complete, many exhibits are being put in place, and the exposition will be at its best on opening day.
