Church services last Sunday night had a return to the good old times before electricity was known. Fortunately it was known beforehand that the electric plant was observing the Sabbath and lamps were carried by hand to the different places of worship. In the Presbyterian church a row of candles on each side lent their assistance to the lamps that cast a "dim religious light" through the gloom. The congregations worshipped in semi-darkness, but with no diminution of edification.

Of this amount \$81.40 was spent for buying and laying the tiling in the ditch, \$2.50 was spent for damage done to a table and losing two chairs, and \$8.20 was spent for window curtains for the school building.
