I am too sick to write easy, but don't wish to be curst about it. This gloomy weather takes away all my hilarity. Lowell says, "Oh, what's so rare as a day in June." It has rained every day and every night since the 1st and we didn't like it at our house, for it was my wife's birthday and we hoped it would be bright and balmy, for the poor woman don't get but two maternal feasts in a year and two paternal kisses. I was sick the night before and she was up with me half the night and slept bute. I had creeped in to breakfast and slipped a five-dollar gold piece under her plate and intended to rise and kiss her unwrinkled brow when she, appeared, but she slipped up behind me and kissed me first. She never did it that way before and the boys hint that she saw the gold shining and it excited her libial views and osculatory glands and she couldn't refrain.
