SHOT IN AN AFFRAY.

A difficulty occurred a day or so ago between the negro hands on the farm of Mr. E. V. Denton, near the city, in which a negro man named George Williams shot a negro woman. He fired a shot gun and she received several shot, but was not fatally wounded. Williams claimed that the gun was discharged aceidentally, but there was thought to be sufficient evidence that he did the shooting intentionally and that he was enraged at the women at the time, so an

COUNTY COMMISSIONERS.

The county commissioners were in session all day Wednesday testimony in the Raleigh and Gaston railroad ease? Col. Jno. W. Hinsdale is representing the railroad, and county attorney Armistead Jones represents the county. It will perhaps take several days to close up this matter, and then, no doubt, it will go into the courts.

The Skeleton of Little Annie Freder ricks Found in the Mountains.

EATEN BY WILD BEASTS.

WILKESBARRE, Pa., August 4.—The skeleton of Annie Fredericks, the little girl who disappeared from her home in Laurel Run nearly two mouths ago, has been found on the mountain side fully seven miles from the village. Wild animals had eaten all the flesh from the child's bones.

When the little girl first disappeared searching parties scoured the mountains on every side, a band of gypsies was chased for three days and their camp thoroughly searched, but without suc-

The father had mortgaged his little period in the same length of time much home to raise funds to carry on the search. On Saturday a neighbor brought word that the child had heen found, but when the father heard that it was dead he swooned away. Aaron Porter had found the little skeleton while huckle-

> North Carolina's Forty-Mile Electric Railroad.

A special dispatch from Rutherfordton, N. C., to the News and Courier makes the following statements regarding the 40-mile electric railgoad to Asheville:

"For sometime the newspapers have had a great deal to say concerning an officer wis sent for him and he was ar- electric road that is to run from Rutherfordton, N. C., to Asheville across the mountains by way of Hickory Nut Gap. Mr. Frank Reynolds, president of the read, was in town yesterday, and from him we learn the facts in the case concerning this wonderful undertaking.

The Terminal Belt Electric Railroad is a certainty. Mr. Thomas Turner, of New York, has secured the required amount of capital and has given Mr. Reynolds orders to let out the contract for the work on the road. This was done last week. The contract for the cross ties was let to a company of three gentlemen of Asheville. The surveying was given to E. T. Reveley, resident engineer of the Three Cs Railroad, and the contract for grading was awarded to Mr. Cal Parrish, of Yorkville, who is now at work on the lower division of the Geor-The bondsmen of Ex-Sheriff Rogers gia, Carolina and Northern Railroad. have paid over to County Treasurer Every arrangement is being completed,

A GEORGIA EVANGELIST.

DUNN, HARNETT CO., N. C., THURSDAY, AUGUST 13, 1891.

His Way Was Rather Abrupt, But It Was Effective.

The death of Miller Willis, the Georgia evangelist, revives many interesting stories concerning his life and methods. He was certainly the queerest character that ever preached the Gospel at a camp-meeting-at which places he was generally found. His pure and holy life, however, was a model for all. But about his methods; He frequently stopped strangers in the streets, and, planting himself in front of them. would announce some startling text and then disappear, leaving the man or woman to preach the sermon to his or her own liking.

For instance, he on one occasion stopped a stranger and shouted in his ears: "This night thy soul shall be required of thee!" Willis vanished. But a year afterward he met the man in an other city. Willis had forgotten him, but the stranger knew his man. Approaching him, he extended his hand and said: "That text you shouted out so strangely to me on the streets of the Treasury department is on the direct One Dollar a Day for Her Support by Milledgeville set me to thinking. It was the means of my conversion!"

On another occasion, a dark and rainy night in winter, he passed a crowded were lounging and smoking in the lobby. Willis opened the door, but the little port of herself and two children. Liv- figure, in dripping garments, attracted and his cruelty has made it impossible night!" And he slammed the door and went out into the night.

Some time afterward he was approached by a young man on a street car, who introduced 1 mself, saving: "I have long desired to meet you and to thank you for saying what you did in the hotel lobby one winter's night. Your words have been ringing in my ears ever since, and I am now a Christian man."

7 "The above are facts within the writer's knowledge. Some people called him "Crazy Willis," but he was far removed from that. He went about doing good, and his life was a blessing to man. -Atlanta Constitution.

North Carolina's First Coke Furnace. The first coke furnace ever built in North Carolina is under contract. The Cranberry furnace now makes coke iron, which it sells at a high price in Pittsburg for Bessemer steel purposes, but this furnace was not originally for using coke. It is a small furnace intended for charcoal iron. The new coke furnace, for the building of which a contract has just been let, will be located at Greensboro, and will be owned by the North Carolina Steel and Iron Co., of that

The Manufacturers' Record has often referred to this company and stated its intention to build a furnace to make Bessemer iron, but it had so long delayed the matter that many had forgotten the organization of the company.

The building of this furnace opens the era of iron making in North Carolina on a large scale, for the iron ore wealth of that State is so great that it must become a great iron producting section. -Manufacturers' Record.

SAVED IN THE NICK OF TIME.

A Brave Switchman Rescues a Bewildered Woman.

CHICAGO, Ill., August 2.-Miss Hattie Lawraine, of Englewood, nearly lost her life by being run down by a Grand Trunk switch engine at the Sixteenth street crossing last night. Switchman George Casack saved her from being ground to pieces by an act of extraordinary bravery. Miss Lawraine stood on the track awaiting the arrival of a southbound train and did not see an approching engine untill several bystanders called to her.

The engine was so near that in her frightened state of mind she did not have time to turn. Cusack ran toward the imperiled woman, grasped her in his arms, and, just in time, jumped on to the pilot of the engine. The engine was stopped, and as both Cusack and Miss Lawraine stepped from the footboard unharmed the crowd cheered the switchman's brave act.

OUT OF JAIL.

Dillon and O'Brien Meet With Great Receptions.

Dublin, August 6.-John Dillon and William O'Brien have left their prison and were greeted by an excited and enthusiastic throng, in which both factions of the Irish party were represented. They were entertained at breakfast by Bishop McCormick and later in the morning addressed a great crowd of admirers. They started for this city on the forenoon train.

CHOKED TO DEATH.

The Body of a Pretty Young Woman Found in a Swamp.

GLENDALE, N. Y., August 4. - Another mysterious murder was discovered here to-day. A man picking blackberries in the swamps found the body of a pretty young woman, about 20 years old, with dark hair and eyes and petite figure. The marks on the body showed that the girl had been choked to death. There was no evidences of a struggle.

No Avocation.

Here is a portion of the examination to which an old lawyer told me he was subjected when he applied for a license The oldest member of the examining

committee interrogated him: "Are you familiar with any game of chance?" "No, sir."

"Don't you know how to play any rame of cards?" "No, sir.'

"Surely you understand euchre?" "Never heard of it before." "It can't be possible you never in-

dulged in a game of draw poker?" the church and don't know one card

from another." "Well (after a long pause of atonish ment), young man, we'll give you a license, but how in the world your're going to make a living for the first two or three years after you start practising rapidly. law is a mystery to us."
