Hafnett county by Gov. Holt.

The Times has made several efforts to interest the people about a bridge at Averasboro, but it seems no one cares to make any start for it.

It is reported that a certain young man in town last week bought him some new pants and went calling that night especially for the young enough for two, too much for three, them in our nilst fady to see him with them on before they looked old.

We received a communication last week from Benson with no name signed, so we consigned it to the waste basket as we cannot publish any communication or article without knowing the writer,

Harnett county can boast of the most industrious woman so far on record. Some four years ago Mrs. Lucy McLeod, of Neills Creek township, went to work and hewed out the sills and posts and did most of the work on building herself a comfortable little house. This winter she has done all the necessary ditching on her farm which was some 800 or 1000 yards, besides she has split a number of rails and repaired the old fences. She is one who believes in bringing about the necessary reforms without joining the Alliance or any other party, and if lots of our people would profit by her example it will be useless for a Third party.

On the 30th of this month we hold our primaries throughout the county, and on May the 2nd our County Conthe principles of a party that you the hope all along that he would have ed leaders who are trying rather to disappointed in making certain fit.
