# The Earth's Southernmost Settlement

There is something pathetic about the description of the town of Punta Arenas Terra del Fuego, located on the strait about midway between the two oceans that town which is the southernmost settlement upon the face of the earth. Fifteen hundred people find life worth living in this place, notwithstanding that fact that one of the characteristics of the neighorhood is the frequent prevalence of a mighty wind which sweeps down from the mountains back of the tows with such force and suddenness as to overwhelm a ship lying broadside on be fore she can swing her head around and ride out the gale. The town itself is a miserable collection of huts and hovels, but is a point of great strategic value to this country as a coaling station in case of war with a South American power.

Professor Lee presented several view of the inhabitants of Terra del Fuego, charming creatures, with their thin, at tentuated limbs and portly stomachs These beauties allow their hair to grow long and hang down straight. Then they plaster it with seal oil and red clay. which hardens and makes a complete waterproof covering for their heads. The natives possess the faculty of imitating a sound and Professor Lee undertuok to teach them a song. He succeeded so well that when he departed from their midst a group stood upon the shore and serenaded him with "Father, Dear Father, Come Home With Me Now."-Washington Star.

# She Didn't Mean to Propose.

A good story is told of a very reverend and very dignified master of an English college. Although "the doctor" was a serious man, he was also a kindly one and when a young man of his college fel ill, did all in his power to procure hin good care and the best medical advice. Finally the invalid's sister arrived, and as she was young and inexperienced, the worthy doctor endeavored, by constant attention, to lighten her load of anxiety She was most grateful, and confided to her betrothed, who was at a distance, her desire that only "the dear doctor," the master of the college, should perform their wedding ceremony. The student recovered, and was now to accompany his sister home, there to be nursed into vigor again. The doctor was present to say good-bye, and the young lady was full of gratitude. "Doctor," said she, grasping both his hands, "you have beer so good to me!" "I have found great pleasure in your acquaintance," said the gentleman, in his most dignified and courteous manner. "You have done so much for me, but I am going to ask one me?" The doctor, amiable as he was, a window. dropped her hands and started back it horror. # A DARING ACT.

# How Two Prisoners Escaped From the Greenville Jail.

GREENVILLE, S. C. -- George Head and John Ritchie, two prisoners confined in the county jail, escaped between 12 and 1 o'clock Sunday morning, and have not been captured.

Ritchie was a United States prisoner, and was awaiting trial. Head was jailed for larceny, but there was grave suspicion against him for complicity in the death of a white man found in a horribly mangled condition on the railroad track in December last.

The escape was daring, and was planned with a cunning forethought that shows the men to be adepts in jail delivery. The exit was made by removing part of the sanitary arrangement of the cell and lowering themselves into the cess pool and air chamber underneath the jail was cut through and the prisoners made their escape over the heating pipes of the furnace room ; thence they ascendmore favor! TO SLEEP AND EAT IN TENTS.

Minneapolis Visitors Will Be Loaded Up With Enthusiastic Beans.

MINNEAPOLIS. MINN. -- What are the great crowds that will attend the Re publican National Convention going to eat, and where will they sleep, are questions that are agitating the people here just now to no small degree. Just how many will be here on that occasion no one

can tell, but estimates place the crowd at 50,000. There are but two restaurants in the city that can be considered first-class and but few others that can furnish anything but ordinary meals. To overcome this, it is proposed to erect near the building a large number of tents where any person may sleep, and in the day time

they will be used as restaurants, where baked beaus, pork and brown bread may be obtained just as they are cooked in the lumber camps. Cooks from the camps will do the work, and the beans will be cooked in the ground and seasoned after the manner of the wood-chopper.

Trouble in Berkeley.

We therefore feel it our duty, as vants of the people we represent, ing upon the outposts and water-of this the greatest political revolution

ever known to the nation, to say to you that we have entered a crucial period in the history of our great reform move ment, in which the greatest caution. earnest deliberation and strict adherence to our principles are necessary to preserve intact that organization which stands to day as the sheet-anchor and hope o millions of wealth producers in the great battle for the God given rights of humanity.

"You are congratulated upon the great harmony and unity of sentiment in ie gard to Alliance principles which prevails within your borders, and upon the fact that a careful canvass of the subject at this meeting has shown that practi cally the members of the order in these S.atcs stand squarely upon the demands with the avowed determination of hold ing devotion to them above that to any method of action. and that today the number of those who so endorse the prin ciples of the Alliance is much greater than ever before.

A sentiment also prevails, strong and uniform, that this great order, as an or ganization, is the greatest of all modern forces for the spread of reform education, and that its work must be perpetu ated and encouraged in this high sphere. entirely free from any partisan entangle ments.

The only dangers which seem in an way to threaten a lack of the fullest de velopment and prosperity of the order are those which attend the disposition of a few m.n and papers to publicly criti-cise and condemn others for their methods. This is not of sufficient extent to damage the order, but it mars that per fect unity that should prevail, and al ways injures all concerned, and it is contrary to the spirit of brotherly love and forbearance that should prevail. Another evil, which fortunately pre vails only in a very few localities, is the disposition of members to seek political office at the hands of their brethlen, forgetting that principle of Alliance doctrine which declares that the office should

seek the man and not the man the office. In consideration of these views as to the situation, the following rules of action are suggested, as well calculated to enable the order to go through the coming ordeal of a fierce political contest and come out strengthened and purified : 1. Let a spirit of harmony prevail and let unity of action be the rule. Let none condemn a buther who stands squarely by the principles of the order or speak in

propriations carried by the bill. Rejected Mr. Holman then demanded the yeas and nays on the fimal passage of the bill, and the bill was passed : Yeas 186, nays 66. After three hours consumed in debating two District bills to amend laws relating to land lines and for the erection of a reformatory and house of detention for women and girls charged with and con victed of crimes and misdemeanors, and

without action thereon, the House adjourned.

METHODISTS WANT TO DANCE.

A Memorial to This End Presented to the General Conference at Omaha.

OMAHA, NEB. - The old school Methodist will no doubt be horrified when he learns that a scheme is on foot to allow the religious to mix a little gavety with their piety. Among the many memorials presented to the Methodist Conference is one from the Troy Conference, which pe titions the General Conference to expunge from the discipline section 242 relating to amusements, or at least that it be modified so that dancing may be permis sible. The memorial is signed by the Rev. William W. Foster, Joel W. Eaton. William H. Hughes, John W. Thompson. E. P. Stevens, F. E. Sawyer and several others, all of New York. Bishop Foster, of Boston, approves the movement and has given it his official sanction and will without doubt advocate its adoption. The memorial is now in the hands of the committee on discipline, to whom it was referred.

REFINEMENT OF TORTURE.

Barbarous Punishment of Chinese Rebel Hirelings.

SAN FRANCISCO, CAL - Shanghai newspapers contain accounts of horrible tortures inflicted upon the Chinese accomplices of Mason in his foolish rebellion against the government. The representatives of all the foreign governments have protested against these atrocities.

The victims were only hired by Mason and and not realize their crime or punishment.

The legs and arms of three of them were broken with bamboo sticks. Paper was burned in their faces till the skin fell off to make them confess. They were hung up by the thumbs and whipped and allowed to hang until unconscious. Arms and legs have been destroyed forever.

Other cruel punishments were visited on them and death resulted in many cases.

# Will be Suspended from the Order NEW QRLEANS, LA.- "he members of

the white posts of the Grand Army of the Republic have determined to stick by Department Commander Frederick Speed who has been suspended by the National Commander for his refusal to recognize the posts in the district composed of negroes. Commander Speed has sent a ircular to all the white veterans and members of the order protesting against the recognition of the negro posts, ou the ground that they were hastily organized by their commanders, and in a spirit of spite, because the order · refused to turn out at Jefferson Davis's funerai. The negro posts, he complains, are comprised mainly of teamsters, cooks, officers' servants and camp followers, some of whom served in the Confederate camps, and no effort was made when the posts were or ganized to determine whether they had been honorably discharged from the Federal armv.

Senior Department Commander Durkee will be called on to recognize the negro posts. He will refuse and will be suspended. Each member of the white posts will be similarly suspended, one by one. They propose to keep up the order and claim to be regular posts.

### A Young "Four Hundred" Wins Southern Bride.

NEW YORK .- A marriage notice print ed in the morning's papers announces that Heyward Hall McAllisrer and Mis Janie Champion Garmany, of Savannah, were married in this city on August 22. 1887. Heyward Hall McAllister is the younger son of Ward McAllister, and Mrs McAllister is the daughter of the late George W Garmany, a prominent lawyer of Savanuah, who died in the spring of 1888, having no suspicion that his daughter Jane was married.

# Does the Morning Glory Entrap Bees!

A city correspondent, G. A., writes to the agricultural editor to inquire if I "have ever noticed that the honey bee is sometimes caught a prisoner in the lovely morning glory and held there until released by some hand pulling the closed flower from the stem?" G. A. proceeds: "I have observed it when in the country, but the statement has been met with so much doubt by a botanist that I now refer to you to settle the matter, and hope that you will favor me with a reply."

With regard to the morning glory I regret that I am not able to definitely confirm the observation. It is probable that during very warm sunny mornings the flowers might crumple up with sufficient rapidity to entrap bees that had pushed themselves very far down into the tube in the attempt to reach the nectarinaccessible, I should think, to an insect with so short a tongue as the houey bee. The latter, as well as various other insects, are, however, occasionally taken prisoners in such flowers as close up at night or upon the approach of a storm. The crocus, for instance, frequently folds its perianth over its winged visitors, and in early spring the captured insect often perishes over night with cold or from the exhalations of the flower.

The capture of insects by plants, either by apparent design or inadvertence, affords a most interesting subject for observation .- St. Louis Republic.

## Two Nore Negro Bishops.

PITT-BURG, PA. - The African Methodist Episcopal General Church Conference elec'ed two Bishops after an exciting contest. They are the Rev. Dr. J. C. linton, of Lancaster, S. C., and the Rev. Dr. Albert Walters, of New York city. Up to the sixty third ballot the Rev. Dr. J. M. Alstock, of Alabama, and the Rev. Dr. Walters tied Other leading candidates were the Rev. Dr E. H. Curry, of New York, the Rev. Dr. George W. Offlett, the Rev. Dr. P. H. Dyson, and the Rev. Dr. John Halliday. When the wife of Bishop S. T. Lionesses and Tigresses Have "Nerves"

A correspondent of the Vossiche Zeisung, writing of the menagerie connected with the Paris National History Museum, says the lionesses and tigresses and female leopards, are subject to "uerves," and frequently have to be treated with large doses of brom-kalium to calm them. The elephant suffers from toothache, and one of its teeth had to be stuffed. The sagacious creature endured the operation of filling and boring with great patience, only rapidly waving its trank when the pain was violent. When all was over it showed its gratitude by caressing M. Sauverre with the finger-like extremity of its proboscis .- New York Tribune.

# Three Minutes Under Water.

The most skillful pearl divers in the world are those of the Tuamotu Archipelago, says the Pittsburg Dispatch. They think nothing of staying under water three minutes on occasions, and they carry no weights to drag them down to the depths, as do the fisherman of Ceylon. Unlike the latter, they do not stop their ears and nostrils with cotton soaked with oil, but descend with no other preparation than a few inflations of their lungs.

However, they do wear a sort of headdress with spectacles of glass, by the aid of which they are able to look down many fathoms into the clear water and mark the oysters which they propose to gather. Forty years ago it was possible to buy with a few handfuls of flour in those Sonth Sea Islands most beautiful molluscan jewels, but since then the fisheries have been so overworked that they are seriously threatened with exbaustion.

# Angry Waters of the West.

BRUNSWICK, Mo -The waters of the Missouri and Grand rivers have flooded the low land south of this place. At 7 o'clock a ferry boat was broken from its cable by driftwood while loaded with people and horses, and went floating down the river and has not been heard from. One woman fell into the river while jumping from the boat into a skiff. Ene was saved from drowning by Capt. city. Strutman, who had gone to the rescue of the frightened passengers. Dozens of horses are destroyed and hundreds of acres

of farm land covered by the floods There is danger of the Missouri current changing to its old channel, which will entirely destroy the bar which was formed about twenty years ago by the channel changing.

Reports from South Kansas indicate that all the streams have overflowed their banks, and much damage has been done to crops along the Kausas State line. Farmers report that the wheat in many places on the low lands is rotting in the ground and that they will be compelled to plow it up for a late corn crop, which dition.

Twenty-Seven Dwellings in the Best Portion of the City Burned.

SATANNAH, GA. - Twenty-seven dwellings on Huntingdon, Habersham and Price streets, the best residence portion of the city, were burned Thursday night. The loss is about \$100,000, only partially covered by insurance. The fire started io an elegant three-story frame house in course of erection, and in ten minutes the entire block was ablaze. High winds prevailed, and the fire department had an up-hill fight. The fire is under control at midnight. The houses destroyed include several of the finest residences in the

#### A Tragedy on the Mountain Side.

BRISTOL, TENN .- The dead body of T. C Bradlev, mayor of Paint Rock, N. C., was found lying on the mountain-side near that city. A bullet hole in the right temple and a revolver clasped in his right hand told the story of suicide. The deceased had been rejected by a young woman to whom he had been paying attentions for some time, and this is believed to have been the caused of self-destruction.
