POLITICAL GOSSIP.

CHAMLESTON, S. C .- George W. Mur ray, colored, was nominated for Congress in the seventh district by the Republican nominating convention Thursday.

The Third party congressional con vention of the 's venth Georgia district, met at Cartersville. Seaborn Wright was nominated by acclamation, and the na tional and State tickets of the Third

Ex-Senator Bruce, in an interview, indeated that the Republicans of Mississippi intend to give whatever aid they can to the Third party ticket.

The Republicans of South Carolina are talking of nominating for Governor, Judge Melton, one of the leading National Republicans of the State. H. J. Snively, a former resident of

Graf on, W. Va., is the Democratic commee for Governor in Washington. Thus J. Cobb was nominated for Congiess by the Third party convention

which met at Lynchburg Va. Congressman Henry Cabot Lodge has announced himself as a candidate for the Un ted States Senatorship in Massachusetts, to succeed Senator Dawes, who will

Ittire at the end of the present term. It is said that when Don M. Dickinsom was at Gray Gables a few days ago, he urged upon Mr. Cleveland the expediency of inviting Senator Hill to visit ther, and that Senator Hill has said that

he would go should he be invited. MILWAUGER, Wis .- At the Democratic State Convention here, Governor Peck and the entire State ticket were renomitated by acclamation.

THEY KILLED THE DOCTOR.

Deputy Sheriffs Went to Arrest Dr.

Lyon and He Shot at Them. WINNEMISSETT, FLA. - Dr. D. S. Lyon, leading physician of the State, was shot and moreally wounded by Deputy Sher its Perkins and Austin at 5 o'clock in the afternoon. He was resisting arrest 1). Lyon, presumably in a fit of tempo 1 ry insanity, shot at his wife and his fi teen year-old daughter. A warrant was sworn out against him, and the deputies went out to make the arrest. When Perkins presented the warran Lyon fired at him, but missed. Ther Perkins and Austin returned the fire, shooting seven times. Only two shots took effect, one above Lyon's left eye and lodging in the skull, the other be

tween the eyes and penetrating the brain. Dr. Mellette, who was immediately called to attend the wounded man, says there is no hope of his recovery. Dr. Lyon is 53 years old, a graduate of the University of Virginia the University of the City of New York, one of the uni versities of Berlin, and of Yale College, class of '56. He is also a prominent

Democratic politician.

DANVILLE, VA. -The People's party neld a convention at Martinsville and has Lever before been in politics.

ANOTHER MONEY CROP. Fig Culture in the South Easy and Profitable.

RALEIGH, N. C.—The New York papers say fresh figs are being shipped to New York from California. If this is so why can not we here in North Carolina send them in much better condition. To-day (July 22d) figs are retailing in Raleigh markets for twenty-five cents per peck and the crop from row until frost will be very large. I am going to make an experimental shipment for the benefit of our growers and believe that they can be day). The Sheriff took all possible preshipped in strawberry boxes and crates | cautions against a threatened resjust as well, or better, than strawberries are. Figs all over Eastern North Caro-

lina can be grown as successfully and of as fine quality as anywhere in California, and if we once get our slow people stirred up to their interest in the matter, they are sure to "git there" in the end. The interest in the fig crop is increasing here. I have distributed in the last three years over 6,000 fig trees from the North Caro lina S ation of our thirty varieties of the choicest figs of Italy and the Levant, and am beginning to see some of the results. We have had recently San Pearo figs, which weighed a quarter of a pound each. These were of the first crop, which is always large in size of fruit. These early figs set in late autumn and remain dormant all winter and swell out in spring when the winter is not so severe as to injure them. Many of them get nipped by frost and the early crop is never so large as the later ones. The second or main crop is now coming on, and is unusually abundant, and will be until frost

I have suggested to our growers and wish to repeat it here, to take the figs when ripe, but not too soft, wrap each in tissue paper and pack snugly in strawberry boxes, and then pack in crates not longer than thirty-two in a crate, and I am sure they will reach the northern

cities in good order. A number of farmers have written to me for directions for drying figs. I have found the following the best plan: Take well-ripened, figs, make a strong lye of hardwood ashes, dip the figs in the lye, rinse and wipe dry with a soft cloth, and dry in any of the cheap, portable evaporators. When dry pack in boxes just as figs are packed abroad. A lye made of washing soda will answer, but is not so good as wood ashes lye. The object is to remove the acidity of the skins. The figs can also be treated in this way and then instead of drying, preserve them in the old-fashioned way, in syrup: Put them up in glass jars with neat lithograph labels and they will "sell like hot cakes." Many a southern lady could make money in this way. A little ginger root with them is an improvement. Here is an industry which our Southern

people ought surely to develope. I met one of our leading farmers to day, a member of our Board of Agriculture. He said that our work here has brought about a wonderful enthusiasm for the culture of cow pease in the State, and that in this section more are being sown than he ever knew. Formerly from his station a number of car loads were shipped annually to New Orleans for seed, but this year they were hard to get at any price, as the farmers were using the seed on their own land. I had great difficulty in getting seed pease wanted for parties North who are taking an interest in the crop. Here is another open ing for our Southern folks, Hundreds of farmers are trying these pease in localities too far North to ripen them well. They are finding them valuable, and the demand will annually increase. Our farmers should grow them not only for the benefit of their soil, but for the sale of seed. You cin not go wrong in this matter. There will be a greater demand every year for this valuable crop and our growers should be prepared to meet it. At present the balance of the trade is against the South and many goes away from us northward, but it is in our power, with the wonderful variety of crops we can grow to change all this, get the balance on our side and thus make the money stay here. Grow pease for sale of seed, grow pease to feed hogs and stop sending money North for bacon; and, finally, grow pease to prepare your land to grow more of everything else. All through the upper Piedmont country of North Carolina, there is the finest wheat soil, naturally, in this country, and the people are attempting to grew cotton when wheat on pease fallow would bring them more money, and would enable them to keep stock and make manure and all the products of the dairy. I ate to day cheese made at our experiment station by Prof. Emery, finer than can be bought to-day in Raleigh at twenty cents per pound. All of Piedmont N. C., can make good cheese even if they can not make a market for butter. It will be a happy day for the hill country when they quit cotton on most of their lands and go into wheat, grass, pease and cows.

Personal.

W. F. MASSEY.

Joseph L. Vandiver, an ex-Confederate soldier, died in Clarke county, Va., last week. He was one of the party that entered Cumberland, Md, during the late war and captured Gens. Crook and

He Seems to Have Reveled In Murdering His Fellowmen.

But Meets His Death By Law at Wise Court House.

special deputies in preserving order.

Talton Hall's criminal record has pro bably never been paralleled in the United States. He is credited with ninety-one murders, and while this is probably an exaggeration there is no doubt that he is responsible for the death of at least twoscore men. He was born in Luther county, Kentucky, 46 years ago, and grew up with such desperadoes as John Wright, who is credited with twenty-seven murders, and the "Doc" Taylor against whom he is now so bitter.

These men joined Guerilla Morgan's band when the war broke out, and made themselves conspicuous for their deeds of reckless daring. When the war end-ed they returned to Kentucky and inaugurated a reign of terror in the mountains. Murders were the daily amusements of the gang, and although they were fiequently arrested, the terror which they inspired insured their acquittal when brought to trial. It was well known that any juror who voted to convict any of the desperadoes would be marked by their friends, and as a consequence they always escaped.

In this way Hall was acquitted of the cold blooded murder of Henry Maggard, in 1866. He killed Dan Pridemore in 1875, and was acquitted; a cowardly jury acquitted him of Nat Baker's murder in 1881; and he went free when he murdered his brother-in-law, Henry Triplett, in 1882 He killed Henry Houk in 1883, and was indicted, but no officer dared arrest him, and in 1885 he killed his cousin, Mack Hall, and laughed at the Sheriff who tried to arrest him. Finally on July 14, 1891, he deliberately murdered Chief of Police Hylton, of Norton,

By this time public sentiment was too strong for him and he fled the country. He was captured at Memphis. Tenn . however, and brought back for trial. He was duly tried and convicted. An appeal to the Supreme Court resulted in an affirmation of the sentence, and the Governor refused to commute it.

The South at the Buffalo Exposition.

Buffalo Courier The feature of the fair unquestionably has been the Southern exhibit. To see cotton growing in the fields, picked, ginned, spun, and woven into cloth as it is now done by the most modern machinery, by the side of the old looms, "winding blades," hand-picking, and old way of making "homespun" practiced by our grand mothers 50 years ago, was truly an object lesson in progress to the thousands who daily witnessed this work going in

the Exposition building. Another department of this Southern exhibit interesting to many has been the turpentine industry as shown in the excavations in the forest tree, "chipping," collecting the product and its distillation into oil and the manufacture of rosi 1. A large collection of growing plants was in potato, peanut, Indian corn, r'ce and hill's friends are most hopeful. other staple products of the South, while in the contribution from Florida were to be seen 1 incapples, bananas, oranges, lemons, figs, and other tropical fruits in the growing state. The Florida contribution was also accompanied by a pond o' live altigators, while the wild beasts and game from all States in the South were shown, including the bear from his native jungles, the graveyard rabbit, the soaring eigle, and the melodious mock-

In a picture gallery 100 by 110 feet space in another part of the building were to be seen pho ographs of Southern farms, factories, schools, churches, private residences, banks and public buildings, scenes at Winter Park, Jacksonville, and St. Augustine, Florida; Marion, Columbia, Aiken, South Carolina; Winston, Charlotte, and Tokay, and Southern Pines, in North Carolina; Annie:on, Florence and Birmingham, and many other places in the Southern States, readily recognizable. In this callery also could be seen the photographs of Governors Buckeer, of Kentucky; Buchanan, of Tennessee; Fowle, of North Carolina;

But by far the most interesting feature percent ge of increase in manufacturing, | policeman." mining, railroad building, and passenger traffic in the last decade as shown by statistics is truly gratifying

GOVERNMENT'S DECIDED ACTION.

A Circular With Regard to Immigrant Vessels.

WASHINGTON, D. C .- President Harrison arrived in Washington and shortly after reaching the Executive Mansion, called a conference of government officers, for consultation as to the cholera Wise C. H., VA.-Governor McKin. situation. Those present were: The ney having refused to interfere, Talton President, Attorney General Miller, Sec-Hall paid the penalty of his innumerable murders on the scaffo'd here to-day (Friday). The Sheriff took all possible present the scaffo'd here to-day (Friday). vice, and Postmaster-General Wanamaker. As a result of the conference, a cue, and a company of State troops ker. As a result of the conference, a were present to aid the large force of circular was issued by the Treasury Department as follows:

TREASURY DEPARTMENT, Office of the Supervising Surgeon General United States Marine Hospital Ser-

WASHINGTON, D. C., Sept. 1.—To collectors of customs, medical officers of the Marine Hospital service, foreign steam-ship companies, State and local board of

It having been officially declared that cholera is prevailing in various portions of Russia, Germany and France and at certain parts of Great Britain, as well as Italy, and it having been made to ap pear that immigrants in large numbers are coming iuto the United States from the infected districts aforesaid, and that they and their personal effects are liable to introduce cholera into the United States, and that vessels conveying them are thereby a direct menace to the public health; and it having been further shown that the laws of the several States quarantine detentions may be imposed upon these vessels a sufficient length of time to insure against the introduction of contagious diseases, it is hereby ordered that no vessel from any foreign port car-rying immigrants shall be admitted to enter at any port of the United States until said ve sels shall have undergone a quarantine detention of twenty days (unless such detention is forbidden by the laws State or the regulations made thereunder) and of such greater number of days as may be fixed in each special case by the State authorities.

This circular is to take immediate effect except in cases of vessels afloat at this date, which will be made the subject of special consideration upon due application to the Department.

(Signed) WALTER WYMAN, Supervising Surgeon General, U. S. Marine Hospital Service. CHARLES FOSTER, Secretary of the Treasury. Approved: BENJAMIN HARRISON.

TILLMAN ELECTED.

South Carolinas's Present Governor Carries the Primaries.

COLUMBIA, S. C .- Returns are coming in slowly. The towns are largely in the majority for the Sheppard or Conservative ticket; whereas Tillman and his ticket have their chief strength in the country districts. Reports coming in from the towns put Sheppard in the lead. At the Democratic primaries in this Chester county Hempbill, for Congress, carried the county by 400. Till-

man, for Governor, 500 majority. Returns indicate that Tillman has carried Greenville county by from 300 to 500

The indications are that Tillman will carry York county by not less than 700 majority. The race between Hemphill and Strait is so close that it is impossible exh bits showing the sugar cane, sweet to say who will get the majority. Hemp-

A feature of the balleting in Columbia was the refusal of the managers of the election to allow Judge A B. Haskell to vote. Col Haskell is the man who led the independent Democratic movement against Tillman two years ago. When asked if he was entitled to vote he replied that he had been a Democrat all his life and had been a member of a club for ten years. Being asked if he would pledge himself to abide the result and support the nominee he replied "I decline to pledge myself to abide the result of the primary and to support the nominees of the party, such pledging at the primary elections being against the fundamental principles of a republican form of government, against the rights of free men and in violation of sound Democracy."

A Judge Caught in the Act of Theft.

A special from Brunswick, Ga., says: Judge William R. Blaine, the Ordinary of Glynn county, and one of the most popular men in the State, was caught stealing money from the safe of Grocer Michaelsoa. The merchant was absent Fleming, of West Virginia; and their from the store at the time. He has lost State officers, together with officers from | nearly \$2,000 during the past six months, and he set a trap for the thief. A policeman was hid in the store. The merof this exhibit which attracted most at- chant went out, leaving the outer door tention from our business men was the open. Judge Blaine walked in soon collection of hardwoods, ores, minerals, after. He went to the safe and took a and phosphate rock The South surely handful of silver from the cash drawer. possesses wonderful resources, and the He was at once taken into custody by the

RICHMOND, VA .- In the Chancery Court

Wm. P. McRae, of Petersburg, and S. 8. Patterson, of Richmond, were appointed receivers for all the assets of the Supreme Sitting of the Order of the Iron Hall and its local branches in this State. The assets of the order consist of funds on deposit in banks and moneys in the hands of the officers of the local branches in the cities of Richmond, Norfolk and Petersburg and at other points in the State.

Morley Visits Carnegie.

LONDON, [Cablegram.] - John Morley, Chief Secretary for Ireland has gone on a visit to Andrew Carnegie, at the lodge at Loch Rannoch, Perthshire, Scotland.

ALLIANCE ANCHORS. Some Good Reading For the Wide spread Order.

Emphatic Demands Made by the North Carolina Alliance Convention.

Mrs. Mary M. Clardy, Assistant State Lecturer for the Texas Alliance is now speaking to good audiences in Jackson county, Missouri.

The following resolutions were passed Aug. 10th, 1892, at Greensboro, N. C.: Lesolved That we endorse the action of those members of Congress who use their influence to pass the "Anti-option bill."

2. That we hold up the hands of the Railroad Commission.

3. To secure by legislative enactment the establishment of a house of correction for young criminals.

4. That the law for collection of agricultural statistics for North Carolina be STATE DEMANDS.

WHEREAS, The last General Assembly of North Carolina failed to pass a bill reducing the legal rate of interest to 6 per cent.; and whereas we endorse the position of those who used their efforts and votes to pass such a measure, there-

We demand of our General Assembly at its next session to pass a bill reducing the legal rate of interest to 6 per cent. We demand of our General Assembly at its next session the passage of a secret ballot law, with a provision in said law that wil secure to voters who cannot

read an opportunity to vote. Whereas, there are large railroad properties and interests in this State now escaping taxation in whole or in part; and whereas, further, it is in the province of the General Assembly of North Carolina making all property in the State bear its equal burden of taxation; ne therefore, be it

Resolved. That we demand of the General Assembly of North Carolina to force, as far as in its power, all railroad property and interests that are now escaping taxation, in whole or in part, to pay its full and equal share of taxes for the support of the government of North Carolina as the property of farmers, laborers and other citizens are now taxed. 2. That we demand that ro further franchises or privileges in the way of amended or extended charters or otherwise be granted any corporation claiming exemption of taxation, until such corpora tion or corporations make a complete and unqualified surrender of any claim exemption from taxation.

Whereas, it is believed by many that there will be an effort to repeal the Railroad Comission bill or cripple it by amendments: therefore

We demand of the next General As-

sembly of North Carolina that it shall sustain the present Railroad Commission bill, that no amendments lessening or hampering the power of the Commissioners shall be passed, and that only amendments (if any at all) such as may or will increase the efficiency of the Comission and perfect the machinery and details of the same, shall be enacted into law.

COLUMBIA, S. C.—Tillman elected by 20,000 majority. The Tillmanites carry 30 out of 35 counties. The congressional results are: 1st, Brawley beats Stokes, Alliance caudidate; 2d, Tillman and Tal bert lead and will run over; 3rd, Latimer, Allianceman, beats Johnstone; 4th Shell, Allianceman, renominated over Johnson; 5th, Stait, Allianceman, bents Hemphill; 6th, McLaurin beats all competitors; 7th, Moise beats Heyward, Till

Of the 35 counties in the State ex-Gov Shepard, the candidate of the Conserva tives, has carried only 5, with a total thus far of 24,000. Tillman carries the other counties with a total vote of 37,

In an interview Conservative Chairman Dibble said: "I believe we are defeated by 15,000 votes. We are Demo crats and of course expect to abide the result of the Democratic primary."

The biggest surprise of the campaign is the defeat of the brilliant John P Hemphill, of Chester, now representing the Fifth district in Congress. It was thought that he was impregnable in his district.

WHAT GOOD ROADS WOULD MEAN. They would make it possible for the farmer to take advantage promptly of the highest market, no matter at what season

They would save him days and weeks of time which he wastes every year wal lowing through the disgusting mire of They would reduce to a minimum the

wear and tear on wagons and carriages. They would lessen the expense of keeping horses in working order and vastly less horses would be required in the country to perform the farmer's work. They would require less expense to

keep them in repair than do the dirt They would make it easier for a team

to pull several tons over their smooth surface than to drag a wagon through the They would afford ready communication with the outside world at all times

of the year. They would spare the farmer many vexations and pervous s'rains. They would practically shorten the

distance to the local market. They would increase the demand for country and suburban property. They would be free from dirt and dust in summer and mud and ruts in fall.

winter and spring.

They would bring every farming community into closer social relations. They would make an evening drive a

pleasure instead of a vexation, as it is They would do away with the ab: urd poll tax and supervisor system in p'aces

where it is still in use They would be, in short, the best possible investment to the tax payer, if built and cared for by the National Government and paid for by a national tax. All these they would do, unless experience goes for naught. -Rural World

TWO PUGILISTS IN A ROW. Corbett and McCaffrey Nearly Come to Blows --- The "Chip on the

NEW YORK, N. Y .- James J. Corbett, the California pugilist, and Domineck McCaffrey, who is now acting as boxing instructor in the Manhattan Club, nearly came to blows at the Madison

Shoulder."

Square Garden. McCaffrey came to the garden to accept an offer that has appeared in several papers by which Corbett was to stop McCaffrey in 4 rounds on September 12, at the Manhattan Club. Corbett denied that he had made any such offer, where upon McCaffrey exclaimed: "Why, it has been in all the papers," at the same time tapping Corbett on the arm with a folded newspaper he was carrying.

"Don't you touch me!" cried Corbett,
excitedly; "keep that paper off of me!"

"Does it hurt you" asked Domineck
sarcasticically. At that Corbett made a
move as through to draw back his right
hind for a blow, but his better judment
prevailed and he only remarked: "Don't
try to markey with me or I'll chuck you try to monkey with me or I'll chuck you out of that window."

"I guess I can protect myself," replied McCaffrey.

Carbett finally offered to box McCaffrey four rounds before the Club giving the largest purse, the man having the best of it to get the decision and he would bet the amount of the purse that he would knock Domineck out. Mc-Caffrey answered that he only intended to accept Corbett's original proposition and after a lot of talk it fell through.

Assistance for Drowning Persons. Everybody may be called upon to afford assistance to drowning persons Professor Laborde's simple method for almost the only feed that is used for have failed deserves to be universally known. Our Paris correspondent tells us that the other day, at a watering place in Normandy, two bathers, a young man and a boy, who were unable to swim, went out of their depth and disappeared. They were brought on shore inanimate, and were taken to the village. Two doctors were sent for, but the young man gave no sign of life, and they declared he was dead. Mr. Laborde, who was fishing at half an hour's distance, came up as soon as he heard of the accident. He examined the body and found that the extremities were cold and the heart had stopped. Then taking hold of the root of the tongue he drew it violently forward, giving a succession of jerks in order to excite the reflex action of the breathing apparatus, which is always extremely sensitive. At the end of a few minutes a slight hiccough showed that the patient was saved. In addition to the usual restorative means, Professor Laborde, in extreme cases, rubs the chest with towels soaked in hot and nearly boiling water,

THE MARKETS OF HAVANA.

UNIQUE SIGHTS IN THE METROP. OLIS OF CUBA.

Produce Carried to Market on Mule Back-The Hucksters and Their Wares-Milk Dealers.

MONG the most interesting sights of a unique and interesting city are the markets of Havana. A visit to them helps the stranger to the better understanding of the methods of life not only of the city people but of the country dwellers as well, and shows strikingly the curious mixture of races that goes to make up the population. There are three large markets, each one occupying a huge low stone building plastered on the outside, the manner in which, most of the buildings of Havana are constructed, and constituting a block by itself. Approaching the market during the busy hours of the morning we find the streets on every side almost blocked by heavilyladened mules, just in from the country. carrying produce of every sort. The roads throughout the island are so bad that almost all heavy loads, except sugar cane and the huge casks of sugar and molasses, are carried in this way. Panniers made of very coarse bagging, or woven from straw, or of palm fiber, are fastened upon either side of the mule, and then filled with merchandise until the mule is almost hidden from sight. In this way almost every sort of ruit and vegetable is carried, also cocoanuts, corn-fodder, live chickens, live pigs, cans ofmilk an d whatever else the country may send to supply the town. Corn-fodder is one of the prinwhile the doctor is being sent for, and | cipal articles of this commerce, as it is restoring breath when all other means | the horses and cows kept in the city. It grows all the year through, rarely attains a height of more than four feet, and is cut when the grain if hardening. Then it is tied in bundles and bound on mules

until nothing but the nose and tail of

the animal can be seen, and so brought in to market. The hucksters and traffickers who come with the mules are as varied and curious as the wares they bring. There are Cubans and Spaniards of the poorer class, Indians, Coolies and Ganjivosthe native men of the mountains. They are a ragged, dirty, uncouth lot, shoeless and hatless, sometimes tramping along beside their loads, and again mounted upon the very apex of the crowded panniers. It may be seen at a glance, not only from their own poverty-stricken look but also from the leanness of their beasts, that they are wretchedly poor. A visit to their homes would still further emphasize this fact, as there are few poorer habitations known to civilize I man than the palm-bark cabins of these Cuban small-farmers. But they are good-natured and apparently happy. On arriving at the market they are noisily busy for an hour unloading their mules and arranging their wares for sale. Oranges are poured from the panniers into large, flat baskets, until one wonders that they could have held so many. The baskets, holding perhaps a bushel and a half, are lifted upon the head-the favorite way here of carrying all burdens -and taken into the market. Then there are pineapples and plantains and bananas, as plentiful as apples or potatoes with us at home; these are all ridiculously cheap, a dozen fine oranges for a dime, a good pineapple for ave cents, or the very best for ten, and as many bananas as you care to carry for a dime. The potatoes here are quite as fine as one would see in any Northern market. There are also those other tropical fruits, sapotas, sapodillas, and some whose names I could not easily ascertain, curious looking, many of them with rough brown coats, all of them sweet and, to a Northern palate, somewhat insipid. In midwinter there is in the vegetable booths everything that we have in midsummer, new corn, celery, lettuce, onions, tomatoes, artichokes, etc., and there are some curious looking messes, ready cooked, of which the odor is enough for us. It goes without saying that there is dirt everywhere, for these people are not at all cleanly, when judged from the American standpoint.

The interior of the market is given up mainly to the sale of things catable. The outer portions, fronting upon the streets,

are filled with booths of various sorts

where one may buy a thousand things of little value, and hardly anything of real worth. One may buy poor candies, flowers made into gaudy bonquets, imitation jewelry, cheap toys, brilliantly colored pictures and books with strikingly illustrated covers, decalcomania supplies-this seems to be a favorite decorative art-cheap little wooden statuettes of the saints, in fact anything and everything that is calculated to catch the eye and the money of the ignorant and unwary. There is much noise and chattering wherever two or more are gathered together, or where even the smallest commercial transaction is being conducted. The people, though most of them are dressed in rags, show some bit of color that helps to enliven the scene. Old crones, perfect witches in form and feature, hobble about selling herbs, charms and lottery tickets. Chinamen sit stolidly behind counters whereon are shown delicately carved bits of ivory and finely worked boxes of scented woods.

The milk dealer is about the only merchant of any sort who cannot be found in the market. But he is just now going along the street outside,

drving his herd before him and stopping at each door to draw, direct from the cow, such a supply as may be wanted. Most of the milk used in the city is procured in this way, and almost at any hour a herdsman may be seen in the street driving a half dozen cows or asses before him from house to house. - American Agriculturist.

Henry W. Grady, only son of the la-mented Henry W. Grady, will enter the University in Virginia in October.
