A GEORGIA LYNCHING.

Friday night Charles Forsythe and Willis White, negroes, were taken from Twiggs county jail, at Jeffersonville, Ga., and lynched by a masked mob of 100 men. The negroes were swung from a scrubby oak and before death could ensue from strangulation their bodies were filled with bullets and buckshot.

CUBA'S OTHER SCOURGE.

There Are 2,053 Cases of Small-Pox in Havana Alone.

There are now 2,053 cases of small pox in Havana. At Guannajay, in Pinar dei Rio, which has only 10,000 inhabitauts, there are 467 cases. Yellow fever and malaria are also ravaging the country, and it may be safely affirmed that the sanitary condition of Cuba is a far g. eater danger to the United States than the much-feared bubonic plague of India. Cuba is close to our coasts, and there is d.ily communication between the island and the main land.

At the end of March the depressing

warm weather begins here, and then diseases of a contagious nature spread twice as fast as during the winter. Cuba is now a focus of disease, and may become a source of danger, perhaps to the whole world.

The small pox was introduced here by the 200,000 soldiers from Spain. The Spanish common people are not cleanly in their habits, and moreover, they come to Cuba crowded by thousands in the dirty steamers of the Compania Transatlantica, in which no well bred American would travel if he could help

Women for War.

A question of woman's rights has been raised in the war department and is likely to cause discussion. The civil service commission recently advertised to fill a \$1,500 vacancy in the Adjutant-General's office, requiring knowledge of five modern languages, typewriting in these languages, proof reading, li-brary methods and other qualifications. Miss Maud Stalnaker, of Washington, a lady of unexceptionable character and accomplishments, was the only person who passed the examination and she was duly certified for the position, but the appointment has been rejected on the ground that the department does not desire to have women in the place.

The list of claims includes 88, and aggregate nearly ten million dollars, where the amount is stated.

Weyler Still Devastating.

A dispatch from Havana, bearing date of January 22, states that Captain General Weyler has ordered the destruction within three days of all the plantations and buildings in the proplantations and buildings in the province of Havana that would be likely to prove useful to the rebels. The dispatch adds that General Weyler has recalled General Pin, the commander of the troops in the province of Santa Clara for the reason that he had held conferences with land owners in that province respecting General Weyler's order issued to prevent the obtaining of food by the rebels.

An Apt Comparison.

The following is an interesting comparison: "Suppose that a farmer raises 1.000 bushels of wheat in a year, and also sells this to 1,000 persons in all parts of the country, a great portion of them saying, 'I will hand you a dollar in a short time.' The farmer does not want to be small and says 'all right.' Soon the 1,000 bushels are gone and he has nothing to show for it, and he then realizes that he has fooled away his whole crop, and its value is due in a thousand little driblets. Subsequently he is seriously embarrassed in business because his debters, each owing him one dollar, treat it as a small matter, and think it would not help much. Continue this business year in and year out as the publisher of a newspaper does how long would he stand it?"

To one who has visited a telephone exchange and noticed how central works, it is amusing to watch the behavior of the man who cannot get recognition. In nine cases out of ten, if the hour is late and central is sleepy, he goes through this performance: He turns the handle sharply, jabs

the receiver at his ear, and shouts "Hello!" through the transmitter. After waiting a moment or so, he repeats the action. Still no answer. Then, unless he is a church member, he uses language that he would not wish his wife to hear, and twists the bandle of the calling bell until his wrist aches. It does not disturb central. No bells ring in the telephone exchange. When the subscriber rings a lozenge-shaped disk drops, and the number of the calling 'phone is exposed. That is all. It remains exposed until central answers the call and puts the disk back. If central's head is turned the other way, all the ringing in the world won't attract her attention. When she looks around she'll see the exposed number and answer the call. If she never looks around she'll never learn of the call .-New York Times.

From the Commercial, Bangor, Maine, The following communication has just been received from Miss S. Mollie Percy, of Searsport, Maine, where she is well and favorably known:

"I was a sufferer from constant headache all my life, frequently accompanied with nausea and sick stomach, especially before and during severe attacks. I am now thirty years old, and as far back as I can remember I was never free from these depressing and distressing attacks, and did not know what it was to feel well, until last winter, when, having seen so much written and heard so much spoken about Dr. Williams' Pink Pills for Pale People, I made up my mind to see if they would do me any good. I therefore bought some of them and began to take them according to directions.

"I soon began to experience relief, and have improved ever since. I am still taking them, and shall continue so to do until I am free of the slightest symptom of my old ene-I am a firm believer in the efficacy of Pink Pills, and shall never be without them as they have done me so much good.

Put a pill in the pulpit if you want practical preaching for the physical man; then put the pill in the pillory if it does not practise what it preaches. There's a whole gospel in Ayer's Sugar Coated Pills; a "gospel of sweetness and light." People used to value their physic, as they did their religion, by its bitterness. The more bitter the dose the better the doctor. We've got over that. We take "sugar in ours"gospel or physic-now-a-days. It's possible to please and to purge at the same time.
