Railway Commission Serves Notice on State Railways.

THE FERTILIZER RATES CUT.

A Reduction of 162-3 Per Cont. Made -- Cotton Rate Reduced on W. N. C. Railway.

The new railroad commissioners will carry out Governor Russell's idea of reducing passenger rates in the State. At a meeting last week resolutions were introduced by Chairman Caldwell of W. H. YOUNG. Toward W. Pou. the commission that notice be served on the Seaboard, Atlantic Coast Line on the Seaboard, Atlantic Coast Line POU & POU & YOUNG, and Southern Railway to show cause why the fares for the transportation of rassengers should not be reduced. The Seaboard Air Line is summoned to (Associated in the trial of civil cases) show cause before the commission Jan. 25th, the Coast Line and its branches Jan 26th, and the Southern and its branches Jan. 27th, why rates should not be reduced.

The divisions of the Seaboard summoned to appear before the Commission and show cause why passenger rates should not be reduced are the Raleigh and Gaston Railroad; the Sea-board and Roanoke; Georgia, Carolina and Northern, from Monroe, N. C., to the South Carolina lines. The divisions of the Atlantic Coast Line that notice will be served on are: Wilmington and Weldon; Petersburg, Norfolk and Carolina; Wilson and Fayetteville; Tarboro Branch. The divisions of the Southern Railway summoned are: Western North Carolina; Atlantic, Tennessee and Ohio; North Carolina; Piedmont; Atlanta and Charlotte An Line; Charlotte, Columbia and Augusta; North Western North Carolina. The commission passed an order reacting the old rate on cotton on the Western North Carolina and the Atlan-

tic, Tennessee and Ohio road. On September 21st the commission issued an order making a uniform rate on cotton on all roads in the State. This, in some instances, lowered the rate very much, and especially on branch roads. But it raised the rate on the Western North Caroline railroad, that road having now a specially low rate for the purpose of developing mills,

The action of the commission gives the shippers on the Western North Corolina road and O. T. & O., an advantage on the shipment of cotton. A howl will likely come from other ship-

pers in the State. Commissioner Pearson said his idea was to make the reduction 15 per cent., but that 16% made the reduction onesixth of the present rate, and such reduction would make the labors of the clerk lighter. Mr. Pearson said: "This is a peculiar class of goods, and the rate should be made as light as possible. It will help the factories in this State, at Raleigh, Wilmington, Charlotte, Durham and clsewhere, and enable them to compete with Richmond." Dr. Abbott said he was always in favor of reducing the fertilizer rates.

The commission issued an order reducing fertilizer rates in the State in car load shipments 163 per cent from the rates now in effect. This is a reduction of one-sixth, and will take effect

THE WORLD OF TRADE.

Manufacturing Activity a Feature in the South--- kush for Aifska Begun.

Bradstreet's Commercial Review for the past week says: "Distributive trade remains rather quiet, mild weather throughout the country tending to check the distribution of winter goods. Prices generally remain steady or tend upward, except for some grades of iron, and orders for spring trade, where re-ceived are encouraging. Industrial ac-tivity is most manifest at the West, where the demand for iron is large. The feature of the week was the plac-ing of an order by one railroad for 100, -000 tons of steel rails, with smaller orders aggregating in the neighborhood of 25,000 tons more. Pig iron production is now at an unprecedented rate, the furnace capacity being estimated at 1,000,000 tons a month. At the South manufacturing activity is a feature, sales of iron being very heavy. A good export demand for cotton and grain at steady prices is also a feature. At the Rowan county settlers' association. East a number of strikes against wage reductions are reported or expected in the cotton industry. Some woolen mills, working on heavy men's wear goods, are refusing orders, their capacity being fully booked. Anthracite coal production, it is hoped in that trade, will be restricted sufficiently to allow of the advance of 20 to 40 cents per ton being maintained. The weather has been disappointing at the Northwest, but an improvement in the demand developed at some centres as the week advanced. The rush to Alaska has already begun on the Pacific coast. Freight charters are reported lower. Export trade continues large, a gain of 8 per cent. on the total export of breadstuffs, cotton and mineral oils, cattle and hogs and provisions being shown both for December and the calendar year.'
