BRADSTREET'S REPORT. Activity in Business and Industrie

Lines Generally Reported. Bradstreet's report, for past week says: A large measure of notivity in business and industrial lines. in some instances, with previous records surpassed, and very general steadiness in prices of staples, is perhaps the most notable feature of the trade situation this week. Quotations of cereals show the most aggressive strength, while those of some makes of pig iron betray rather - ore decided weakness than they did a week ago. Mild weather is frequently mentioned as an influence to check retail distribution of seasonable goods, chiefly because of the effect on country roads. Spring trade orens slowly, as usual at this time of the

year, but confidence is still unimthe treatment of hogs for hog cholera | The industrial situation with the sinone of exceptional strength. As yes the strikes in this branch of trade are largely confined to Mussachusetts. well. At the West, distributive trade accumulation at primary points in This serum was first tested upon spite of the crop movement. Mild

Quite a shrinkage in cereal reports that this percentage can be maintained | amounted to only 3,925,000 bushels against 5,229,000 last week; 2,916,000 Referring to this report Secretary bushels in this week a year ago; 3,849,-Wilson remarked that undoubtedly the | 000 bushels in 1896, and 2.840,000 bushing off, amounting to only 3,485,000
