Woodford, Minister, Madrid: You have been furnished with the text of a joint resolution passed by the Congress of the United States on the 19th inst, approved today, in relation to the pacification of the island of Cuba. In obedience to that act the President directs you to immediately communicate to the government of Spain said resolutions, with the formal demand of the government of the United States that the government of Spain at once relinquish its authority and government in the island of Cuba, and withdraw its land and naval forces from Cuba and Cuban waters. In taking this step, the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island except for the pacification thereof, and asserts its determination that when this is accomplished to leave the control of the island lished to leave the control of the island to its people under such free and independent government as they may establish If by the hour of noon on Saturday next, the 23d day of April, there be not communicated to this government by that of Spain a full and satisfactory response to this demand and resolution, whereby the ends of peace in Cuba shall be assured, the president will proceed without further notice to use the power and authority enjoined and conferred upon him by the said joint resolution to such extent as may be

#### Spanish Cortes Opened.

The Spanish Cortes opened at Ma-drid, Spain, on the 20th. The Queen regent, in her speech, stated that the menaces and insults which Spain has previously borne, are not the true American sentiments. She appealed to Spain to defend the rights of her son until he is old enough to defend him-self. Gratitude to the Pope was expressed. The scenes were very impos-ing. The wealth and beauty of Madrid

took the vessel back to Key West, where the prize will be adjudicated in in the federal district court. Patrick Mullin, a gunner on the Nashville, fired the first shot of the war. Before the blockade began the Amer-ican steamer Saratoga left. The Span-ish merchant ship Mexico left for Mex-ico. The American steamer Orizaba sailed for Vera Cruz with 203 passen-gers, among them many persons of rank and prestige in Havana, and with a full cargo. full cargo,

### SOLDIERS TO WEAR TAGS,

To Identify Those Who Fall in Battle. When the men of the regular and volunteer armies go into action they will wear around their necks little tags of aluminum, by which they may be identified if found later on the field of battle. In the last war it was often impossible to properly identify the dead soldiers, and thousands were buried in graves mark-ed "unidentified." The war department has prepared this system of identification, and it has been decided that on each tag shall be the numeral battery, or troop, and his regiment. On yesterday, April 20, 1898, about These tags will be sent to the troops in the South when it is evident that a fight is on hand. In the civil war offi-

cers of some of ths regiments had little silver shields inscribed with the wearer's name, rank and regiment.
