LOCAL DOTS.

—March is here in full blast.

—The small boy is making kites these days.

—Cotton is selling to-day at 6 1/2 to 6 3/4.

—Examine your chimneys and stove flues and see that they are in good condition.

—Some of our truckers and gardeners have commenced preparing their truck patches and gardens for early vegetables.

Messrs Hood & Grantham are having the inside of their drug-store painted white, which adds much to the attractiveness of it.

—It is stated that there are several cases of small-pox in Goldsboro. The disease is getting uncomfortably close by.

—The ground is still wet and few farmers have been able to plough their lands or haul manure in this section. The winter has been an unusual one.

—We want 5000 Bushels of Good Tar Kiln Char-coal at once.

The John A. McKay M'fg Co.,
Dunn, N. C.

—Some of our people say that all the peach buds are killed and that there will be no blooms this spring. We examined a twig of a peach tree yesterday and the fruit buds were perfectly dead and dry.

—Read the article on the first page of this issue by Dr. R. H. Lewis, Secretary of the State Board of Health. He advises general vaccination to prevent the spread of smallpox.

—FOR SALE.—One thorough bred Stallion, Dark Bay, six years old, strain—Denmark, 1/4 Hambletonian. Now in service. Lane & Galbraith, Dunn, N. C.

—For the past week there have been varied changes in the weather, clear and warm, thunderstorms and heavy rains, hailstones and snow and clear and cold weather have followed in quick succession.

—Mr. Romulus Jones, who works at the Jno A. McKay tool factory, was quite badly burned on the face and hands recently by the explosion of some rabbit metal.

—The Cape Fear got down in its banks for a few days last week, but began to rise again Saturday. The timber men have had plenty of water for carrying rafts this winter and a good deal of timber has been carried down to Wilmington in rafts.

—In another column our townsman and cotton buyer, Mr. S. J. Hooks, gives his ideas for a better price for cotton next fall. He advises the farmers to plant as much as they can. We hope his ideas will come true and that better prices will result.

—There were cyclones, windstorms and hailstorms in many sections of the State Friday and Saturday. At Apex in Wake county the wind was terrific and unroofed houses and blew down buildings. Below Maxton a severe cyclone is reported. At Wilson a severe thunderstorm and a cloud burst frightened the inhabitants Friday night. Our oldest inhabitants do not recall a worse winter than this has been.

We are now giving away free, a Tobacco Farmers Guide Book. It is worth a dollar to any one anticipating the culture of Tobacco. Don't forget to call for one. Yours truly,
McKay Bros. & Skinner

—A bill to incorporate the Merchants' and Farmers' Bank of Dunn passed. We learn that E. F. Young's Banking House will be succeeded by the Merchants' and Farmers' Bank.

—Last week just after we got to press our cylinder press got out of fix and we failed to get it in working order until next morning, consequently our papers on the Lillington route did not go as usual on Thursday.

—The bill to amend the charter of Dunn has been ratified and is now a law. We are not informed as to the amendments contained therein.

—Let our farmers plant some cotton and some tobacco. Two crops is better than one. If one fails, probably the other will be a success. If both prove a success why then the farmer is in luck. Try tobacco on a small scale at first and learn how to handle it successfully before launching out to deep.

—Mr. O. P. Shell, manager of The Dunn Cash Racket Store, has bought the large Culbreth store on Broad street, the present house being too small for their increasing business, they had to get larger quarters. It always pays to advertise. Look for their "ad" in our next issue, they will have special bargains for their customers.

—The Christian Missionary Alliance is holding a convention in Durham this week and will hold one in Fayetteville on March 27 and 28th. Dr. Wilson and probably Dr. A. B. Simpson, and other Christian Alliance workers will be in attendance.

We are overstocked with Garden Seeds, which we bought cheap. We are selling them the same way.
McKay Bros. & Skinner.

—Mr Joseph A. Stewart, of Grove township, was appointed cotton weigher for this place by the county commissioners Monday. He is an efficient man and his appointment will doubtless give satisfaction to all parties concerned. Mr. Stewart is well known in the county and has always been a staunch worker for the party. We congratulate him on his appointment.

—Messrs. R. E. Lee, of this place, and W. A. Allen and W. R. Barbour of Benson, have formed a co-partnership and have bought the stock of furniture of Mr. L. H. Kennedy and will conduct a first class furniture store here. The style of the firm is Lee, Allen & Company. These young men are energetic and enterprising and we wish them much success.

—Our townsman, Mr. E. F. Young, is named as one of the incorporators of the Atlantic & Western Railroad which has been granted a charter by the legislature. The other incorporators named are: Col J. S. Carr, W. J. Edwards, W. J. Adams, J. W. Perry, and E. K. Borden. The charter gives permission to build a railroad from Goldsboro through Wayne, Johnston, Harnett, Moore and Montgomery counties and then westward to the Tennessee line. The capital stock is \$1,000,000.

Senator F. P. Jones and his family returned from Raleigh last Thursday. The Senator came home sick. He had been very feeble for several days and feared a severe attack of the grippe. He has improved much however since he returned, we are pleased to state.

—It is annoying to us to have our papers delayed. Last week the northbound mail did not get off until Friday morning. The carelessness of the boy who takes the mail from the post office to the train. He took the mail bag from the post office but did not put it on the train. We caution the agent here not to let this occur again.

Kicked by a Mule.

Tuesday morning Mr. Thomas Lee who lives near town went to a stable to harness a young mule which he had purchased a few days before, and on entering the stable with the mule turned and kicked him. The mule struck him with both feet on the mouth knocking out several of his teeth and breaking the frontal bone just below the nose.

Dr. Denning was called out to him and dressed his wound. He is hurt bad and seriously.

Adjourns Today.

The work of the legislature of 1899 ends to-day for a recess until Tuesday after the second Monday in June 1900 when it will reconvene. The sixty days, which the members are allowed to draw pay, expired Saturday, but a great deal of important legislation was then to be acted upon and the members had to remain over until to-day. The resolution to adjourn was introduced in the House Monday and passed and is as follows:

"Resolved by the House of Representatives, the Senate concurring, that the General Assembly adjourn on Wednesday, the 8th day of March, 1899, at 12 o'clock m., to meet again in the city of Raleigh, on Tuesday after the second Monday of June, 1900.

"Second. That the Secretary of State deliver to the public printer immediately upon this adjournment the resolutions of the House and Senate, and all resolutions, private and public laws passed at this session and that the same be published and distributed as upon an adjournment sine die."

Job Printing.

What gives our printing pleasing grace, That shows true merit on its face? Our type is modern in design, Our workmen, artists in their line—

Be glad to see you any time; Just walk right in; no stairs to climb; We're "on the level" with the ground; Come and see the wheels go 'round—

When you see printing cleverly done; Somewhat better than the common run; Printing that says on its face "I'm good"; Then we did the work, that's understood

O, hurried, worried business man, We want to help you all we can, However much we have to do We'll stop the press to print for you.

Have you printing on your mind? Don't forget the undersigned, You know the methods we employ, Give us the job; we'll give you joy—

COUNTY UNION JOB OFFICE.

Have You Heard of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

SCOTT & BOWNE, Chemists, New York.

An Uncertain Disease.
There is no disease more uncertain in its nature than dyspepsia. Physicians say that the symptoms of no two cases agree. It is therefore most difficult to make a correct diagnosis. No matter how severe, or under what disguise dyspepsia attacks you, Brown's Iron Bitters will cure it. Invaluable in all diseases of the stomach, blood and nerves. Brown's Iron Bitters is sold by all dealers.

An Old Idea.
Every day strengthens the belief of eminent physicians that impure blood is the cause of the majority of our diseases. Twenty-five years ago this theory was used as a basis for the formula of Brown's Iron Bitters. The many remarkable cures effected by this famous old household remedy are sufficient to prove that the theory is correct. Brown's Iron Bitters is sold by all dealers.
