Brother of the Dead Cadet Refutes Showed Cowardice in His Fight With Keller-Also Denies the State-Sufficient Mental Capacity to Pass

West Point, N. Y., December 27 .-There was an unusually large attendance of spectators at both the mornng and afternoon sessions of the military court of inquiry at the Military Academy to-day. The fact that two witnesses from distant points would be called upon to testify was the cause of Horace C. Booz, a civil engineer of Buffalo, and P. O. Phillips, of Cleveland.

The testimony given by the former was principally a, refutation of the statement made about his brother, former Cadet Oscar L. Booz, of Bristol, Pa., who died recently. Several of the eadet witnesses during the progress of the investigation accused Booz of havng shown cowardice in his fight with Cadet Keller in August, 1838, and they also accused him of untruthfulness.

Lieutenant Coe, instructor of mathematics, in his testimony last week stated that Booz wan not possessed of sufficient mental capacity to pass the necessary examination at this academy. His brother stated to-day that this was ot so, as the manner in which the for-ner cadet had passed his examinations it the preparatory school at Bustleton, Pa., was sufficient to prove that Oscar was possessed of sufficient intellect. On the other hand he said Oscar was not antruthful and he was anything but a

He said that in highinon Booz was not of the kind of material out of which good army officers could be made.

Cadet Willis G. Peace, of North Care Cadet Willis G. Peace, of North Carolina, said he knew former Cadet Breth
and saw him hazed in the tent of exCadet Beder, in camp in 1897. The witness, after being frequently asked to
describe the forms of hazing to which
Breth was subjected, replied:

"I cannot exactly describe them in
letail, but I think they were the usual
forms, such as holding out Indian clubs

The witness, in reply to General
Clous, said that he knew of about
tight fights having occurred during the ight fights having occurred during the arst two years he was in the Academy and about wine during the next two years.

In reply to General Bates, Cadet
Peace said that whenever a fourthclass man was in trouble or wanted advice he would come to an upper class

man for information, and he would in man for information, and he would invariably get it.

"Is there any hatred or feeling in existence between first-class men and fourth-class men?" asked the General.

I don't believe there is any feeling on the part of the first-class men against fourth lass men, but there may be on the part of fourth-class men against the upper class. This may be accounted for by the treatment of the lower class. for by the treatment of the lower class, but this feeling passes away when the adets are advanced to the third-class."

Peace went on to say that he did not onsider exercising brutal. "I was exercised myself, sir, and I did not think it was brutal. It was incomfortable, but I never knew it to esult in permanent injury."

The witness said there were some parameters and the said there were some nen who used to haze more than others and that some of them seemed to be without the faculty of judging when a

After being closely questioned as to what he would consider brutality in pazing, the witness replied: "I should say that if a cadet were hazed to such a degree that he would be injured or nad to be helped by his fellows, the nazing would be brutal."

This answer was given after General Bates had intimated to the witness that in case a cadet died from the effects of such hazing the law would hold all of hose who took part in it responsible for the man's death.

Cadet Clarence H. Knight, of Florida, in reply to General Clous, said he had taken part in a fight when he was a third-class man. His opponent was a fourth-class man named Wory, who was since dismissed. The fight took place in 1898 and Knight won. Neither was a scientific boxer.
