FEDERAL JUDICIARY TO LEND ITS AID.

Washington, July 2.—Special -Chairman Simmons of the Democratic State Committee authorizes the following statement:

For some time past prominent North Carolina Republicans in Washington have been intimating that their party would control the next North Carolina legislature and that Senator Pritchard would be reurned to the Senate. Demorats have been unable to understand the grounds of this hope in the face of the fact that that party lost the State in the August election in 1900 by about sixty thousand majority, and since that time has lost, by the educational provision of the amendment, between seventy and eighty thousand of its former voters.

The persistency with which this claim was made aroused a suspicion in my mind that it was based upon some secret scheme and led me to an investigation with the view of ascertaining what it meant. As a Is the Democratic Party Dead? result of this investigation, I have discovered a shrewdly de-When the lion eats grass like vised and well developed conspiracy.
