#### Trusts and Trusts.

Springing out of Republican policies, fossered and protected by Republican legislation, there has sprung into existence in the country during the past six years nearly two hundred great tariff protected combinations. They have monopolized for their private benefit nearly all the necessaries of life. They control competition, they regulate protection, they fix prices By controlling the legislation ef the country they control the markets of the people. They absolutely dominate and control the Republican party. That party dares do nothing which they oppose, and it stands ever ready to do their bidding. The dominion of these tariff

protected monopolies over the so plainly shown as in the presrefusal to permit the considerahome.-Hon.F. M. Simmons at Greensboro.

The farmers who have been organizing for many years for the purpose of securing better and cheaper railroad transpor tation for their marketable products, are becoming awake to the fact that a great reform is needed in the people's own roads right at home. An unnecessary and very expensive evil has been permited to exist at their very doors. They have been wasting much valuable time and horseflesh in getting products to market. Farmers are at last learning that it costs more to haul a load to the station a few miles away than it does to have it transported from the station to the far away seaboards.

The Tariff and Trusts Inseper-

In the campaign of this year the tariff and the trusts are ineparably connected.

in selling their goods abroadin Europe, Asia, and in Afr ca for one-third less than they are selling them at home, is an object lesson in tariff of great practold that the foreigner paid the tariff taxes and comsumer. This object lesson tection had nothing to do with trusts, was in no way responsible for trusts, and in proof of this we have pointed to the illegal fact that there are as many trusts in free trade England as in protection America. This third less than we get them .-F. M. Simmons.
