Many Glad To Quit Calomel

Thousands Avoid Taking the Drug and Use Dodson's LiverTone in its Place to Their Comfort and Delight.

Dodson's Liver Tone is a harmless, reliable vegetable-liquid. It is made to take the place of dangerous calomel.

Calomel in large doses is a poison. Is a mineral, a form of mercury. What it does unpleasantly and very often with decided danger in case of constipation and sluggish liver, Dodson's Liver Tone does for you safely and pleasantly, with no pain and no gripe. Dodson's does not interfere in any way with your regular business, habits or diet.

Dodson's Liver Tone is backed up by a guarantee of 'satisfaction or your money back,' as J. A. Mitchener the druggist, will tell you.

Of course so successful and so reliable a remedy has its imitators, but these stores have Dodson's and will not deceive you.

Dodson never makes extravagant statements. Dodson's Liver Tone has been made from the first to take the place of calomel. It 'liven's the liver,' overcomes constipation agreeably and makes you feel good and if you are not satisfied completely with it J. A. Mitchener will hand back the purchase price (50c) to you cheerfully, instantly and without question.
