Apply Sloan's Freely For Lumbago

Your attacks of Lumbago are not nearly so hopeless as they seem. You can relieve them almost instantly by a simple application of Sloan's Liniment on the back and loins. Lumbago is a form of rheumatism, and yields perfectly to Sloan's, which penetrates quickly all in through the sore, tender muscles, limbers up the back and makes it feel fine. Get a bottle of Sloan's Liniment for 25 cents at any druggist and have it in the house—against colds, sore and swollen joints, rheumatism, neuralgia, sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief. advt.

"Peruna Cured Me

MR. ROBERT FOWLER, Of Okarche, Oklahoma.
Mr. Robert Fowler Okarche, Oklahoma, writes:
"To any sufferer of catarrh of the stomach. I am glad to tell my friends or sufferers of catarrh that seventeen years ago I was past work of any kind, due to stomach troubles. I tried almost every known remedy without any results.
"Finally I tried Peruna, and am happy to say I was benefited by the first bottle, and after using a full treatment I was entirely cured. I am now seventy years old, and am in good health, due to always having Peruna at my command. I would not think of going away from home for any length of time without taking a bottle of Peruna along for emergency.
"You are at liberty to use my picture and testimony if you think it will help any one who has stomach trouble."

"The Parents' Duty"

At this season of the year when schools are opening the thought should come to every parent "what is my duty to my children this school year, does it end for the day when breakfast is over or does it continue into the school-room?"

It is the duty of every parent to visit the school often, not in the spirit of criticism of the teacher, but in the spirit of sympathy cooperation to observe the children who mingle intimately with their children for 7 hours each day, to notice the sanitary conditions the regard for fresh air and cleanliness. They should consider the course of study, whether the children seem able to grasp every thing regardless of them, whether they are eager to learn or each interest they should study the teacher, to know whether she cares more for the children or the work, whether she has found a key to the children's nature that has been hidden from them, whether she gives individual help or considers her pupils as a class, whether the struggling, backward child receives greater attention than the child who learns quickly. They should not take the child's word for everything that happens at school. It is first as necessary to have sympathy for the parent, and to understand the conditions of her pupils home life, at it is that they understand the conditions under which she works.
