EDENTON, N. C., FRIDAY, JULY 2, 1915

We welcome the delegates to the !!!!!!!!!! M. E Conference being held here ? this week. We are always glad to have good people come to our town. May they make themselves at home, see all of interest n Edenton and when they go, may they have lingering within a desire to return.

The following elipped from the Hertford County Herald is of interest:

"While making his round one day last week Mr. A. T. Willoughby, rural earrier on Route No. 2, found a sine bird's nest in a mail box. The nest contained four

One or two conclusions seem necessary: Either the owner of the mail box does not get his mail often or he is very kindly disposed towards these birds not to disturb their neat little home. If the latter conclusion is correct, we commend this kindness. Kind ness toward any bird is commendable, but especially ought every kindness to be shown the binebird. Once there were many bluebards in this part of the country, but now they seem almost extinct. They are not objectionable and are useful and beautiful.

The following also taken from the Hertford County Herald reminds us that our county is in advance of Hertford county in at least this particular:

"Mr. B. E. copeiand, rural carrier on route No. 5, is the first earrier in this section to purchase an automobile for the delivery of mail on his route. It's a Ford."

An automobile has been used to carry mail at Tyner for possibly a year or longer, and we now have two routes from Edenton using them, one a Ford and the other a Metz. We mention this for the reason that the patrons of these routes ought to appreciate the quicker service given them by these machines. These routes are covered now in three hours. where it was a long hot drive of six to eight hours for a horse. The outgoing mail not only reaches the patrons earlier but Beach last week. the incoming mail is in Edenton now in time to be dispatched on the noon trains, whereas formerly it was held for the night trains. We should be glad to see all the routes served by automobiles. When this is done the length of the route can be increased, there- information. by paying the carriers more and better enabling them to furnish automobiles.

T. W. BICKETT FOR GOVERNOR.

Attorney-General T. W. Bickett donia. seems to be the preterence of many of the papers of the state for our next Governor. While this paper does not yet commit itself unreservedly to his candidacy, we believe his chances are far better for winning than any George Hassell were the gueste of man yet named.

test his sanity. It might be well were the guests of Mr. and Mrs to try those who have been read- Henry Foxwell Sunday night. ing this case all these years.

Brief Items of General News

By The Editor.

******************* General Victoriano Huerta, former president of Mexico, was arrested Saturday in New Mexico by federal officers, General Poscual Orozco was also arrested. Both were charged with conspiring to incite a revolution against a friendly country. Huerta Was released on a bond of \$15,000 and Orozco on \$7,500. Their Chappell Hill News heating was set for July 1.

3 Ex-Governor Slaton of Georgia has been threateued with mob violence since he commuted the sentence of Leo Frank to life imprisonment. 26 men were airested Saturday morning at his home and held in the county jail. Slaton objected to having the men prosecuted. A military guard was kept. The new Governor, Nat. E. Harris, was inaugurated Saturday. At a funchcon given that evening in his honor, the former governor was hissed and called "traitor." It is believed that the best public sentiment is with Ex-Governor Slaton, only a rough, lawless mob making these demonstrations of evil temper.

An effort is being made to secure from Great Britain a medification of the embargo on all commercial intercourse between Germany and neutral countries.
