BEN BUTTERWORTH ON JUN-OUR PUBLIC ROADS. KETING.

Hon. Ben Butterworth, of Ohio, is a Congressman of national reputation His brain is brainy, fertile and always imaginative. He is a royal good tellow among his brother Congressmen, a par tizan among partizans, and a toady among toadies. Every now and then Ben bobs serenely up with a brand new | rection scheme of some sort, for something; for

f Ben isn't original he isn't anything. In so far as scheming is concerned Artemus Ward's appellation of an "original cuss" can be aptly applied to Ben. In short his friends say he is a jovial goost fellow and as smart as steel, while his enemies call him a bold, bad man. The latest of Ben's achievements is the following : He

has introduced a resolution into Congress requesting the President to invite the members of the Parliament of Canada and the Premiers and Cabinets of the several provinces of the Dominion to visit the United States' about the first of May, and be the guests of the people of the United States. The resolution asks or an appropriation of \$150,000 and provides for a committee of seventy-five members of the House and a number of Senators to entertain the guests. The purpose of the resolution is further stated to be, to promote a more friendly feeling and encourage closer business relations setween the two countries Now loubt not but that nearly every Congressman's heels and hat went into the air when the fertile Ben read his resoluion before the House. Even the thought. say nothing about the promise, of going
