NUMBER 290.

NEWS AND COMMENT.

The Weather.

Indications for North Carolina—Rain; warmer; northeasterly winds, high on coast.

A New York correspondent says: "General Roger A. Pryor has conceived the idea of a society whose duty it will be to preserve the legends, traditions and history of Virginia, his native state, for all time. In order to do this he got about him the Virginians in this city and started an association to be called 'The Virginians.' The first meeting was held at his house. Among the charter members, are Francis F. Rives, the uncle of Amelie Rives, Louis Henop, Dr. Harvie Dew and Charles M. Fry. So once more the name made historic by Thackeray will become a household word."

It is stated that Emmons Blaine will very soon resign the position of general freight agent of the Chicago, Santa Fe & California road. Mr. Blaine will, if the statements of his friends can be relied on, retire from the railroad service. Wonder what has become of the younger Blaine who a short time ago donned the blue overalls and with cigarette aplomb began the life of a mechanic's apprentice?

Quite fishy. The Paradise Club of Anglers, of New York city, of which Judge Gilderfield is president, have just concluded the purchase of seventy thousand acres of forest and fifty trout lakes in different parts of the country. This makes the largest fish and game preserve in the world.

The condition of the striking weavers at Fall River remains unchanged. Everything is quiet and peaceful. The State Board of Arbitration is in secret conference with the board of trade, and with a committee representing the weavers. It is thought that something definite will be agreed to soon.

Thos. B. Kerr, of New York, who was on trial for complicity in bribing the Aldermen in 1884, was yesterday acquitted. When the announcement was made, a wild scene ensued, and two men were placed under arrest at the command of Judge Daniels.

John W. Watson, the only genuine author of "Beautiful Snow," at the age of sixty-six has become a brakeman on the elevated railway in New York. Twenty years ago he sold his famous poem for five dollars, but he has never produced anything of equal merit since.

Mrs. Humphrey Ward has forwarded to President Harrison a copy of "Robert Elsmere" bearing her signature. What the President needs just at present for the good of the country is a copy of the work entitled "George W. Childs on Civil Service Reform."

Near Austin, Nevada, yesterday, Sam Rundle, a ranchman, shot and killed his father, his father-in-law and his mother. To-day, and then shot himself. A family quarrel over a division of property was the cause.

When President Harrison gets Mr. Fred Grant, the son of his father into a fat office, perhaps he will turn his attention to General Adam Badeau. Surely Adam was a friend of the Grant family once if he isn't now.

A man named Scott got into a fight with some negroes at Greenville, Miss., and had his throat cut from ear to ear. A boy named George was also badly wounded. The murderers are in jail.

When Uncle Jerry Rusk, secretary of agriculture, gets his gloves off and down to business, he ought to appoint Gen. Rutherford B. Hayes superintendent of the national henery.

Ex-President Hayes says he is now receiving fifty letters a day from applicants for office, asking for his influence. Queer how some people do get fooled on the "influence" question.

One out of every four persons in the state of New York has money in bank. The report of the state banking department shows that the number of depositors is 1,362,852.

Democrats of the Tennessee Legislature, following in the path of their Indiana fathers, have agreed on an election bill embracing the salient features of the Australian system.

Jamnia ginger now figures as an intoxicant in Kansas, where a man was yesterday convicted under the prohibitory law of selling that article.

The stock markets in New York yesterday were considerably shaky, and tended toward a decline. No great runs were made in any one line.

Three negroes were hanged at Arkadelphia yesterday, for the murder of Arthur Horton, a negro preacher, which occurred on May 21st, last.

E. H. Hamilton, of Atlanta, Ga., cut his wife's throat with a razor yesterday. He claims that his wife had been unfaithful to him.

R. G. Dun & Co.'s market shows a fair condition of trade for the past week, with encouraging prospects for the future.

Thos. C. C. Matson, the new attorney of the Monon railroad line, will receive a salary of \$10,000 a year.

Thomas Ewing Sherman, son of General Sherman, is to be ordained a priest in New York.

Gen. Cassius M. Clay is said to be an applicant for his old post as minister to St. Petersburg.

THE WORLD OF BUSINESS.

R. G. DUN & CO.'S WEEKLY TRADE REVIEW.

News Mostly Negative—The War With Germany Not Begun—The New Administration Has Not Disturbed Finance.

New York, March 15.—R. G. Dun & Co.'s weekly review of trade says: The past week has been free from exciting events and news has been mostly negative. The war with Germany has not begun at Apia. The copper syndicate has not been suddenly reconstructed. The March report of the agricultural department does not foreshadow a famine in wheat. The new administration has not suddenly disturbed finance and the consent of commissioner Walker to serve as executive of the Inter-State Association has not lifted the price of stocks. Business is still quiet but slowly improving. The great strike at Fall River is not expected to last long enough to disturb trade. The great fall in the price of copper from about \$80 to \$50 per ton at London appears to have come to stay. Liquidation is a confessed necessity at Paris, and capitalists in the country are looking for much lower prices when contracts run out in June. While Boston stocks have declined severely there are no signs of a disturbance there and rates for money are comparatively easy. Prices are nearly nominal with scarcely any trading.

The monthly report of the iron furnaces in blast, contrary to the general expectation, shows a slight increase in the February output, reaching 497,500 tons week of March 1, against about 108,500 last year. The persistent over-production has not affected prices during the past week and they remain unchanged, but there are fewer signs of a disposition to buy beyond immediate needs, while holders hope that prices are at bed-rock. Consumers urge that the demand for finished products is scanty. The market for bar iron is pronounced the poorest for many years. The demand for car building and sleep iron has fallen off to almost nothing, while there is more demand for plate iron, and the movement of pipe is fair for the season. Structural iron is gloomy. Nails show no improvement and are demoralized, and steel rails are \$27.50. Sales to March 1 have been 590,850 tons and deliveries 142,787 tons, and makers have decided not to increase the allotment. Pig producers at least are hoping for relief through the lower rail rates and cheaper coal and ore, and some further reductions of wages are announced.

Wheat has fallen four cents for the week, with sales of 35,000,000 bushels here. Corn is one cent lower and oats a quarter. Pork products are unchanged, but cotton has again advanced a shade, though receipts continue up to last year. No change appears in coffee and but a fraction in oil, though in the latter there was a break and partial recovery. Except in wheat speculation markets for products have been comparatively quiet.

The stock market has been weak and prices declined an average of \$1 per share, with considerable selling by foreigners perhaps occasioned in part by the fears of a disturbance at Paris. There was increased disabatement as to railroad prospects. The consent of commissioner Walker to manage the Inter-State Association does not outweigh the fact that rates are again being cut and part of the roads deemed essential to the success of the plan have not yet assented. Traffic continued fairly ahead of last year however, and the root of the difficulty is still the dissatisfaction of investors with the manner in which corporations have been managed, while foreign exchange is a shade higher.

No large demand for money yet comes from abroad, and official statements show that the exports of cotton, breadstuffs, provisions, cattle and oil exceeded in February those of last year by 7 per cent, amounting to \$42,871,047 for the first half of March. Exports from New York show an increase of 22.7 per cent, while imports for the first week gained only 8 per cent. Reports from the interior this week almost uniformly indicate some improvement in the business though the complaint of slow collections is about as general as before. On the whole while the improvement in trade is slow and narrow it is clearly helped by the failure of the wheat and copper speculations and by the movement of prices toward a lower level.

For the week the decline in the average prices of commodities has been nearly a half of one per cent., and since March 1 about three-fourths of one per cent. Business failures during last week numbered 261, against 281 last week, and 232 the week previous.

Thomas B. Kerr Acquitted.

By Telegraph to the Citizen.
NEW YORK, March 15.—Thos. B. Kerr, on trial for complicity in the bribery of the aldermen in connection with the Broadway railroad franchise, was today acquitted. When the jurors had answered to their names and the foreman announced that they found Kerr not guilty there was a wild scene, hats flew in the air and there were cheers in the courtroom. Judge Daniels was much angered. He directed the court officers to arrest any one participating in riotous proceedings. Kerr's brother, Chauncy, and a friend, named Hugh J. Connell, were seized upon. The judge told them to come around at 10 o'clock to-morrow morning to receive their punishment. Kerr's counsel pleaded for them but it was to no avail.

Had His Throat Cut by a Negro.

By Telegraph to the Citizen.
MEMPHIS, March 15.—Will E. Scott and a boy named George, had a row with a negro named Isaac Woods, and two colored women yesterday, near Greenville, Miss. The negroes were armed with razors and knives, and Scott had a shot gun. He shot Woods in the leg, but the latter closed with him and cut his throat from ear to ear. Scott died in a few minutes. The boy George was also frightfully cut, but will live. Woods and the women are in jail.

The Chicago Boys Win.

By Telegraph to the Citizen.
BRISTOL, March 15.—The Chicago and All-America baseball teams played here today. The game resulted in favor of the Chicago side by a score of 10 to 5.

A Terrible Tragedy.

By Telegraph to the Citizen.
AUSTIN, Nev., March 15.—At Italian Canyon, twelve miles from here yesterday afternoon Sam Rundle killed his father-in-law, George Hosking, and his brother-in-law, aged fifteen, by shooting them with a shotgun, the charge of shot entering the neck and severing the jugular vein of the former and tearing away the face of the latter. A boy named John King bearing the shot came toward the house. He was met by Rundle holding a gun. The latter asked the boy to shoot him. The boy refused and Rundle then took the boy's horse and rode three miles to his father-in-law's ranch and with a pistol shot Mrs. Hosking in the head and then shot himself in about the same spot. The shooting was the result of a family quarrel over a division of the property. The four bodies were brought here last night and an inquest held. A quadruple burial will take place to-morrow.

In the House of Commons.

By Telegraph to the Citizen.
LONDON, March 15.—In the House of Commons this afternoon, home secretary Matthews was questioned with reference to the action of Anderson, the home department official, who permitted Le Cor, the informer, to look over the whole of the letters past correspondence with the home office. The authorities prior to his appearing as a witness before the Parnell Commission, selected such letters as he thought would be of service to the Times. Mr. Matthews said that at the time he knew nothing of the course taken by Anderson, and consequently, has not given it his sanction, but now considered that Anderson had acted properly.

French Press on the Patriotic League.

By Telegraph to the Citizen.
PARIS, March 15.—Republican journals approve the action of parliament in authorizing the prosecution of senator Naquet and deputies Laguerre, Laisant and Turquet for their connection with the Patriotic League. The Paris and the XIX E. Seicle, regret the prosecution as an anti-liberal step. The conservative papers reproach the Republicans for breaking away from Republican principles.

The Presse says that yesterday was a marvellous day for Boulangism. It declares that the electoral platform of the Boulangists is now complete. The Clarion, organ of the Patriotic League, says, "it is now General Boulanger's turn. He must speak to the country."

Wreck on the Virginia Coast.

By Telegraph to the Citizen.
NORFOLK, Va., March 15.—Capt. Benj. H. Knight, of Baltimore, second mate, James Richards, of Philadelphia; Peter Floyd, John Smith, Ned Forbes, and Chas. Hobbs, sailors of the brig Agnes Barton, which was wrecked near Virginia Beach yesterday afternoon, were drowned last night and this morning. During the night, three of the men were washed overboard and lost. When day broke this morning, the life-saving crew saw the remaining men lashed in the rigging. At eight o'clock, the vessel burst, the mast fell, and the men were lost. No bodies have yet come ashore. The wind is still blowing over fifty miles an hour along the coast.

Director Stone Resigns.

By Telegraph to the Citizen.
NEW YORK, March 15.—It was announced yesterday that a want of harmony prevailed in the Richmond terminal directory and that George F. Stone, who was one of the reorganizers of the company, had tendered his resignation. Mr. Stone said: "It is true that I have tendered my resignation. I am tired of attending to so many railroad affairs and would have resigned long ago but continued to serve simply to oblige some of my friends who are interested in the property."

Greensboro Patriot: Paul B. Means gave the best reason in the world for voting against the railroad commission bill: "Because it was wrong." It was not only wrong, it was ruinous to the State's industrial development.

Waynesville Courier: We challenge the United States to show a county with as small amount of real estate mortgages as Haywood. In two weeks we will show our figures. Now, fair-dealing gentlemen, when you see our rate you will be surprised.

Public Opinion.

Do you wish to know in what esteem you are held in your community? We know you do; then find out by first putting down in figures the year in which you were born; then add 3; then add your age at your birthday in this year, 1889; then multiply this sum by 1,000. From this deduct 677,423, and under the remainder write letters of the alphabet corresponding to each figure—thus, A under 1, B under 2, C under 3, &c., and you learn public opinion about yourself.

The home of William Strothers, at Hollow Creek, Tennessee, was burned yesterday. His wife and two children perished in the flames. It is thought to have been a case of robbery and murder.

NEW YORK STOCK MARKET.

Speculation Yesterday Among the Bulls and Bears of Wall Street.

By Telegraph to the Citizen.
NEW YORK, March 15.—The stock market to-day was weaker than it has been for some time, but the amount of business done will compare favorably with any previous day this year. All influences at work seemed to be of a depressing nature throughout. The engagement of one million dollars for export was probably the most important. There was an uneasy feeling reported at Paris, and this was reflected in the London market and American securities on the other side were all lower with considerable selling to liquidate. Squeeze in St. Paul did not seem to have any further effect upon the general list and although the stock loaned at 1-16 per day for a rise there was plenty of stock for sale, and after opening down nearly to that point, it sagged off and to-night is lower. The pressure to-day reached all portions of the list and outside of the grangers there was more selling than at any previous time this year, and declines on an unusually large business are heavy and uniform and the number of stocks dealt in was remarkable. There was a renewal of the reports of rate cutting in the west, and the alleged accusation of Judge Cobley that the trunk lines were shading on their export rate was used with much effect against the general list. All grangers were weak but Rock Island, and Burlington and Quincy reached lower figures than have heretofore been attained and a raid was made upon Missouri Pacific in the afternoon which made it one of the weakest stocks on the list. Other Gould shares sympathized and Manhattan especially yielded very readily. Pullman led the specialties. Memphis and Charleston was the only one showing any strength and that has not been traded in for a long time. San Francisco preferred became a feature just before the close and dropped rapidly. Lowest prices were generally reached after one o'clock, but a rally from the lowest points was insignificant and the market finally closed active and heavy to weak at or near the lowest figures of the day. Everything without exception is low and Pullman lost 3, Manhattan 3 1/2, Ex Dividend of 1 1/2 per cent scrip. Rock Island 1 1/2, Missouri Pacific and Tennessee Coal 1 1/2, Burlington and Quincy and St. Paul 1 1/2, Atchison 1 1/2, New England 1 1/2, Pacific Mail and some of the specialties large amounts. Sales aggregated 317,000 shares.

The Chicago Exchange.

By Telegraph to the Citizen.
CHICAGO, March 15.—There was quite a good trade in wheat to-day. Outside news was scarce and outside business light. The feeling developed was weaker. The opening was 3/8c. lower than yesterday's closing.

There was but little interest manifested in corn, fluctuations being within narrow limits and trading almost exclusively local. The feeling on the whole was somewhat easier.

A fair volume of business transpired in oats. The opening was weak and rather unsettled. Offerings were fair, but buying by a large house produced a change in the sentiment. A stronger feeling developed and prices advanced 1/2c. A reaction of 3/4c. followed. The market closed steady at a net gain of 1/2c. over yesterday's last sales.

Hog products attracted very little attention and trading was light. Prices declined slightly on all leading articles. Later market showed more steadiness and rallied again. Market closed quiet at outside figures.

The Strike at Fall River Practically Unchanged.

By Telegraph to the Citizen.
FALL RIVER, March 15.—The condition of the strike this morning remains practically unchanged. The strikers held no meeting to-day but have arranged to hold an outdoor meeting to-morrow. Messrs. Barry, Woolcott and Daval, of the State board of arbitrators, arrived to-day and are in conference with members of the weavers' executive committee endeavoring to bring about a settlement. They have not yet secured a conference with the board of trade. There are no crowds on the streets and the strikers are very quiet. The situation at the mills is without any change of importance. If anything the number of looms running is less than it was yesterday.

Many operatives are taking advantage of the strike to go to Canada or the old country on a vacation. No trouble is reported at any of the mills where the strikers were paid off yesterday and to-day. Messrs. Woolcott and Daval, of the State board of arbitration were in conference with the executive committee of the board of trade to-day, and that committee now has under advisement a proposition submitted by arbitration which it is expected will lead to a settlement. This afternoon Messrs. Woolcott and Daval will confer with the weavers' committee.

Cut His Wife's Throat.

By Telegraph to the Citizen.
ATLANTA, Ga., March 15.—C. E. Hamilton, a railroad man, cut the throat of his wife in the Kimball House this morning. He has proof of his wife's infidelity and he followed her here to get her child. She refused to give up the child and he cut her throat with a razor. There is a bare possibility that she may recover but it is not at all likely.

THE CITY COUNCIL.

An Interesting Meeting of the Guardians of the City Hall Last Night.

Every one of the City Council was present at the meeting held last evening, and business of more than usual interest was disposed of.

Capt. T. W. Patton, secretary of the Asheville Light and Power company, notified the council that that company had assumed the contract for lighting the streets of the city, which had been heretofore concluded with the Electric Light company, and asking for an enlargement of the contract so as to embrace as many gas lamps as the Light committee may at any time wish, at a rate of \$22.50 per annum, for each lamp. Referred to Light committee for immediate action.

Capt. Natt Atkinson notified the Board that he had procured a Legislative charter for his Street Railway company, and asked their approval—saying, that if allowed to do so, he hoped and intended to begin work and carry it rapidly forward to completion. His application was put upon its first reading, and the Aldermen being equally divided, it passed by the vote of the Mayor. Further action was postponed until the next meeting of the Board.

Mr. W. T. Penniman, president of the Asheville Street Railway Company, notified the Board that his company was prepared to push forward the lines on North Main and College streets, and asking advice what should be done, in view of the fact, that sewers would soon be laid on these streets. The Board expressed the opinion, that the track-laying should be suspended until the sewers were completed, and that the company might complete its line on Patton avenue in the mean time.

Mr. Frank O'Donnell, Captain of the Rescue Hook and Ladder Company, asked the Board to provide thirty-five uniform belts, shirts and hats for his men, which was approved.

Mr. H. C. Fagg, Captain of Hose Company No. 1, asked the Board to provide a pair of horses for his company, which were much needed to secure effective service by his company, and on motion of alderman Westall, his application was approved and the purchase of horses ordered.

An interesting question connected with the sewer work, was developed. The chief contractor has an agreement with the city, to pay his laborers in cash; but he sublet a part of the work to an irresponsible party at a very low figure, and paid up the sub-contractor, who left his labor unpaid. This was a hard case on the poor laborer and the Board wisely decided to see them fairly treated, and to prevent any repetition of such injustice.

The City Council is glad to reflect, that it was in a slight measure, instrumental in procuring the cash payment for labor performed on the public works.

Fire in St. Louis.

By Telegraph to the Citizen.
ST. LOUIS, March 15.—A fire in the McCarty packing and provision company's establishment in East St. Louis, at 2 o'clock this morning, completely destroyed the building. A two story wooden hotel adjoining, was also burned. The loss is estimated at \$40,000; only partially covered by insurance.

Three Negroes Hanged.

By Telegraph to the Citizen.
ST. LOUIS, March 15.—A special from Little Rock Arkansas to-day, to the Post Dispatch says: "Willis Green, Anderson Mitchell and Daniel Jones, all colored, were hanged at Arkadelphia, Arkansas to-day, for the murder of the negro preacher, Arthur Horton, May 21, 1888. The execution was private."

Improvements at Skyland.

From a gentleman resident of Skyland in Asheville, we learn that a side track, four hundred feet in length, is being built at that place by the W. N. C. railroad authorities, and that as soon as completed, Skyland will be the passing point of trains on the W. N. C., and A. & S. railroads. A new depot building will also be erected, it is said.

Pavement Paragraphs.

The elegant accommodations, in the way of passenger depot buildings, eating house and express and baggage offices of the Western North Carolina railroad at this place, will be opened to the public during the first of the week.

W. W. Watkins, a white man, was committed to jail last night by mayor Harkins, in default of a fifty dollar fine, upon conviction of the charge of excessive cruelty to his child, a lad of thirteen years.

Numbers of visitors intending to come to Asheville have gone to Hot Springs, owing to their inability to secure rooms at the leading hotels of the city.

Rev. Mr. Whitman, Unitarian minister, will deliver discourses at Temperance Hall to-morrow at 11 a. m., and 5 p. m.

The Patton avenue half-mile extension of the electric street railway has been completed.

Attention is called to the advertisement headed "election of officers," in another column.

No cases were tried at the regular morning session of the police court yesterday.

"About every nation on earth that carries heavy guns is now engaged in protecting its interests at Zanibar." And still there is a strong anti-protection sentiment at Zanibar.

Mr. Brown's Parolol.

A parolol is a very little thing to write about, and not very attractive at this season when we are all wanting as much sunlight and heat as we can get. Nevertheless, when our worthy friend, Mr. B. L. Brown, raised his parolol, in front of Bostic Bros. & Wright's store, on yesterday; he was in a moment surrounded by a crowd of the most attractive ladies, and the best business men in Asheville. Not claiming to belong to either of these classes ourselves, we hastened to see what was the matter, and soon discovered that the ladies were examining and admiring the beautiful Japanese curios, with which Mr. Brown's parolol was abundantly ornamented, while the male portion of the crowd, being principally other merchants, were wondering what took their wives there.

We could have told the latter what was the matter; Brown's parolol was an artistic gem, and every lady ought to see it. Then, again, Mr. Brown is a tip-top salesman of this most popular store, which does an immense business by advertising only first-class goods, and by advertising them properly in THE CITIZEN. So, gentlemen, if you do not want your wives to spend their money with Bostic Bros. & Wright, we advise you to keep the same quality of goods, and to let the public know where to find them, and to our lady friends we advise that they shall quickly go and see this wonderful parolol, which measures just ten feet across, and don't postpone your visit long enough for your husbands to adopt our plan of preventing it, but go to-day, for you many depend upon it, they will take our advice to-morrow.

New Magistrates.

Hon. M. E. Carter yesterday afternoon furnished the CITIZEN with a list of the new magistrates elected by the Legislature for the county of Buncombe at its session just closed:

Gov. Fowle at Wilmington.

WILMINGTON, N. C., March 15.—Gov. Fowle and staff arrived here last evening on a special car from Raleigh and were given a very hearty reception by the military and citizens. Last evening the Governor held a public reception at the Orton House. This morning in a special train he visited Wrightsville and inspected the site of the permanent encampment of the State Guard. This afternoon an elegant luncheon was served to the
