Why is our hour divided into sixty minutes, each minute into sixty seconds, etc. I Simply and solely because in Babylonia there existed, by the side of the decimal system of notation,

side of the decimal system of notation, another system, the sexagesimal, which counted by sixties. Why that number should have been chosen, is clear enough, and it speaks well for the practical seuse of those ancient Babylonian merchanta. There is no number which has so many divisors as sixty. The Babylonian's divided the sun's daily journey into twenty four parasangs, or 720 stadia. Each parasang or hour was subdivided into sixty minutes. A parasang is about

sixty minutes. A parasang is about a German mile, and Babylonian as tronomers compared the progress made by the sun during one hour at

the time of the equinox to the prog-ress made by a good walker during the same time, both accomplishing one parasang. The whole course of the sun during the twenty four equinoc tial house was fixed at twenty four tial hours was fixed at twenty four parasangs, or 720 stadia, or 360 de

This system was handed on to the Greeks, and Hipparchus, the great philosopher, who lived about 150 B.C., stroduced the Babylonian hour into "Yes, sir. There is the door." " Call and sectors and the construction of the sectors of the se

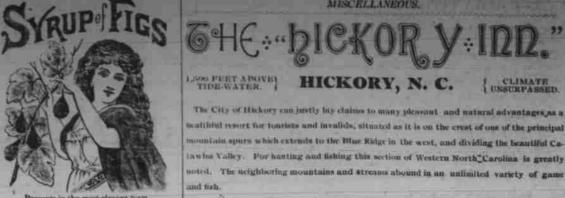

stack of blues." Sick headache, bilionsness, nausen, cos-tiveness, are promptly and agreeably banished by Dr. J. H. Mel.can's Liver and Kidney Pillets (httle pills.) For the French, when revolutionizing Johnson. "Did you decorate the front of your barber shop on Centennial Day. Mr. Donnerwetter?" "I bet my life 1 did." our clocks and watches, and allowed our dials to remain sexagesimal, that is, Babylonian, each hour consisting of sixty minutes. ## Evidently Ber Own Hair.

at . A pretty married woman living near Americus, Ga., owns a cow that she thinks the world of. She milks the where revenue officer B. P. Bouldin was cow herself, as she does not want her spoiled by endless attention. Since the crops have been gathered the cow has been running in the fields, and the brush of her tail got tilled with cockle burrs. One morning last week wants of our genteenen. Quiet the lady went into the pen to milk, colors, easy fitting, all sizes,

and while she was performing the popular prices, at Whitlock's. the neatly done up hair on the lady's head. The burrs caught, and the lady dropped her pan of milk and began to Clothing. Parents and guarngle her hair. The operation disenta turbed the cow, and she began to prance. The lady grabbed the tail with both hands, and said. "So wench iso wench?" but the wench, not liking the grip, started in a trot around the pen. The lady startled the household by her shricks, and a negro woman ran to her rescue, but she Clothing now on sale at Whithad to return to the house for a pair of scissors. The cow was driven into lock's.

a stall, her tail trimmed off and left sticking to the lady's head. She went We claim to have the best stock in the to the house, and it took her husband, the negro woman and the family until 10 o'clock that night to pick the burrs from her head.-Atlanta American.

A Never Ending Labor. You will often meet men who, while supremely indifferent to the pressing problems of the age, are very much concerned about many problems of the remote future. Here, for instance, is a dear old clergyman writing to me in much alarm over the question what the churches will do when all the world is converted to Christ. It gives me great pleasure to reassure him on this point. When the churches have converted the world, they will dis-cover that they will have to begin all over again and convert Christianity, a unns of "The Citizen." Everybody reads task that will require their very best vields advertisers, its rates are the chenp- much harder to convert Christians than heathens.
