IT DOES not seem possible but it is nev ertheless a fact that up in intellectual Boston several girls organized an antislang society with a fine of one cent a slang expression, and in a very short minute to read and you will time had sufficient money to endow a bed in one of the hospitals. > That must have been an affecting cene at Elko, Nevada, when Josiah Potts and his wife were hanged for killing a man and just before the drop fell they kissed each other good-bye. Hanging itself is bad enough but when it is sup plemented with so affecting a scene as that it is terrible. And even to the last ooth protested their innocence.

> THE report that Harrison would not e a candidate for re-nomination does not keek for backing. Since the first dispatch to that effect was sent out a sec ond one has appeared in many papers and if they are not true it would seem as if they would be denied by some one in authority. It is very probable that they are true. It is to be hoped so at any rate. Harrison has been a mighty poor President. It is a satisfaction ever to know that he will not run again.

ALL the world is interested in the work of the rescuing party at Dunbar, Pa. which is struggling to reach the thirty imprisoned men in the Farm Hill mine. The scene must be a sad one. The mothers, wives and children of the imprisoned miners are constantly near the workers, anxious to learn what is good or bad of their loved ones, The workers too are as anxious, for within that mass of coal are their brothers and fathers and friends. It is thought that the suspense will be over to-day and that the hole will be reached. The reading public will wish that the unfortunate men may be found alive, although it is hardly probable. For nearly a week they have been shut up in the mine, without food or drink and it will be almost a miracle

SPEAKER REED has at last received set back. A few days ago he referred the silver bill to the coinage committee without notifying the house and the democrats proceeded to raise a row about it. Directly after the reading of the journal on the succeeding day the fun began. It ended tional rowing match against O'Connor in the house refusing to leave the silver bill in the hands of the committee of coir age and adjourning without making final disposition of it. The vote was not a test of the relative strength of the friends and opponents of tree coinage, for no democrat who opposed free coinage would to-day. vote to sustain Speaker Reed and on the other hand a number of free coinage republicans did vote to sustain him. It was a victory for neither side of the silver How a Young Southerner Treated question but it was overwhelming defeat

for Speaker Reed. From Chicago comes a story that the election of lake front as a site for the World's Fair is a monumental steal involving millions of dollars. The Illinois Central railroad company have their tracks along the shore and own to the water's edge. The idea is to till in the lake for 1,000 feet and it is said that the railway people are so certain of their ability to prove a title to the newly made land that they have offered to do the filling themselves. Chicago is aroused and cially the women, whom he charged with well may be as the property will be worth between \$40,000,000 and \$50,000,000. There was something in the young land makes the suggestion that they are acting disinterestingly appear rather farcical. The whole scheme looks to be a deep one. Time will tell what, if any, truth there is in it.

We the managers of the Mission Hos-pital wish to call the attention of our friends to the generous offer made by Messrs.
