THE DAILY CITIZEN.

FACTS AND COMMENTS.

DURING the mad dog scare it might be as well to warn the readers of THE CITIZEN against bologna sausage.

The warm weather average at Asheville is 71 degrees; at Venice, Italy, it is 73; at Bordeaux, France, 71 degrees.

The Asheville Advertiser is the name of the youngest Asheville paper. It is the property of R. L. Goodman and is devoted strictly to advertising.

CONGRESSMAN EWART paired with Congressman W. E. Simonds in the vote on the election bill. The Congressional Record says Simonds was for and Ewart against the measure.

It's just about a draw between Kansas whiskey and Kansas lemonade. A party of prohibition picnicers in the sunflower State indulged in the latter a few days ago and because of the chemicals that were used in its composition, eighty of the crowd are in a very serious condition.

Six hundred sleeping car porters threaten the Pullman and Wagner companies to go on a strike unless their wages are raised. As the reason they allege that the tips are a great deal less than in former years. This is gratifying news. It is to be hoped that they will force the companies to concede the point. It is surely time that the companies should pay their employees and not depend on a generous public, and the fact that the public is fast learning this is also pleasant.

The Northwestern Christian Advocate for June 18 contains an article from the pen of James Clement Ambrose on North Carolina. At the beginning he states a truth which every young man with an idea of taking Greeley's advice should consider. He says: "As I roll my subject over for a point to start the ravelings from, this thought comes uppermost: If the exact duplicate of North Carolina—climate, coast, forest, lowland, upland, mountains and minerals—stood on the line of migration westward, and could displace 50,000 square miles among the Dakotas, every go-wester would cling to it as the prize land in beauty, comfort, utility, till it should be crowded like the outboard Madison street car at 6 p. m."

Yesterday's Chronicle we stated that Reed had probably bulldozed Cheatnam into voting for the Federal Election law. When the editor was in Washington a few days ago he heard that Reed & Co. had promised Cheatnam and a few other Southern Republicans that if they would vote for the Federal Election Law he would secure the passage of the Blair Bill, or one like it, and he promised the North Carolina members that he would give it the name of "The Cheatnam Educational Bill." That was the bribe offered the colored Congressman, so we heard.

Yesterday the house committee reported the Blair bill—or one about like it, introduced by Cheatnam—favorably.

It had been allowed to slumber six months, and was thought to be dead.

Now, if to-day Cheatnam votes for the Federal Election Law, we will be able to "fix" the trade—State Chronicle, July 3. And Cheatnam voted for it.

With the issue for June 26th the New York "Nation" closed the twenty-fifth year of its existence. It was a pioneer in this country as an independent weekly review of politics and literature, and has long been a recognized authority at home and abroad. It has remained under one management from the first number to the present day, and its list of contributors during the twenty-five years of its publication has included most of the leading names in literature, science, art, philosophy and law in this country, and many of corresponding eminence in Europe. A bound volume of the "Nation" presents one of the most complete and accurate condensed records procurable of the world's current history, with impartial comment on questions which should occupy the attention of thoughtful men.

His Final Report.

John W. Starnes, the retiring superintendent of public instruction for Humboldt county made his report to-day. It shows that there are 99 school districts in the county for the white children and 21 for the colored; 88 white schools and 14 colored were held last year, 7,266 white and 1,057 colored children were enrolled. The value of the property owned by the school board in the county is \$51,419 for whites and \$9,325 for colored—a total of \$60,744.

N. C. PRESS ASSOCIATION.

A Card from President McDonald to the Members of the Press.

TO THE STATE PRESS:

The Press Association of North Carolina is an organization which challenges the support and should inspire the confidence of every editor who loves his profession and desires to see journalism elevated to the high plane which the nobility of all the professions should occupy. Within the last few years rapid strides have been made, and we heartily invite every newspaper man in the State to encourage the Association by his presence at the approaching meeting at Durham. The citizens of that progressive city will entertain us royally, while the program is one of unusual interest. The Boston meeting was of an unusually business-like character, and we ought to profit by it by acting upon suggestions there made. All who are members will please enclose the annual dues (\$2) to the secretary, and those who are not members can be enrolled upon the payment of \$5. For transportation, apply to the secretary, J. B. Sherrill, Concord, N. C.

W. W. McDIARMID,

A successful worker in the field of journalism is Miss Virginia C. Clay, editor of a democratic daily at Huntsville, Ala. She supports a paralyzed father and five brothers and sisters.

A GOOD IDEA.

Rutherford College Ready to do Its Part.

RUTHERFORD COLLEGE, July 5.

It is hereby resolved from July 1, 1890, that in order to assist in the scientific and classical education of the young men and women of our state, the superintendent of public instruction for each county in North Carolina may and hereby is requested to nominate one suitable person (male or female) as a student at Rutherford College, whose tuition shall be free and who shall be permitted to enjoy the rights of regular students in competing for honors, and with the approval of the faculty may compete for degrees in the college courses, provided that said student shall not be appointed on account of his or her religious belief or personal feelings or relationship to the superintendent. The nomination shall be subject to the approval of the faculty of Rutherford College. It is furthermore urged that each superintendent use his best judgment as to the worthiness of student thus nominated. Each nomination shall hold good for one year and the student thus attending shall in no wise receive an appointment a second year unless the superintendent deem it most advantageous to the popular education. It is earnestly desired that every superintendent shall attend to this matter at once and each year hereafter so long as this paper may be in force. The candidate for the scholarship should be over 16 years and of high moral character. He (or she) should have a good English education and it is preferred that he (or she) shall have studied Latin or advanced English. However the superintendent shall first attend to the worthiness and inability of such candidate to attend college without this help. No one should be a candidate who is able to attend college without aid from other sources. Application should be made in writing to the county superintendent not later than July 15th of each year. The superintendent shall first attend to the president of the college, together with stamp for returning scholarship. As we have no endorsement but are doing this on our own expense, we solicit the aid of the trustees of the state and county to help us in extending these scholarships and also request the county and state papers to keep this conspicuously before the public. Superintendents should attend to this at once.

Contributions to aid in establishing permanent scholarships and nominations of the superintendent should be addressed to:

REV. R. L. ABERNETHY, A. M., D. D.,
 President Rutherford College,
 Burke County, N. C.

Death of an Old Resident.

Mr. A. J. Blair died at his home on Penland street yesterday afternoon at 6:45 o'clock. He was about 64 years old, and died of paralysis. Mr. Blair was born in Jonesboro, Tenn., but has made Asheville his home for a number of years.

The funeral services will be conducted by Rev. G. C. Rankin, at the first Presbyterian church at 5 p. m. to-morrow. At the grave the services will be conducted by Cyrene Commandery K. of T.

The Fourth in Henderson.

The fourth was celebrated at "Blue House" on the ridge seven miles east of Hendersonville by over 1,000 people, in an old time royal manner. The addresses were by Rev. J. F. Woodlin, Col. Williams and Rev. J. B. Naught. The dinner was a grand county spread, and the patriotic music was furnished in good style by the Skyland Cornet band.

Pisgah Lodge, K. of P., will have an installation of officers at their Castle Hall to-night and will serve refreshments to invited guests. All members of the United Rank are requested and expected to appear in full uniform. All visiting K. of P. in the city are cordially invited.

ANTIMIGRAINE.

—THE—

NEVER FAILING CURE FOR HEADACHE.

TRADE MARK REGISTERED.

ABSOLUTELY SAFE, PERFECTLY SURE AND ALWAYS SPEEDY.

Cures Every Variety of Headache AND NOTHING ELSE.

ANTIMIGRAINE Has earned for itself the enviable reputation of being the finest, most effective and reliable article in the market for the speedy relief and cure of every variety of that common trouble, HEADACHE. The immense favor which has greeted it from all quarters, proves its true merits and acceptability to the public. It is something which almost everyone needs, and those who have once tried it, will never be without.

For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTIPIKINE, MORPHINE, CHLORAL AND COCAINE. Since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.

The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

DIRECTIONS FOR USE.

The dose for an adult is two teaspoonfuls in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of headache, if taken when first feeling the preliminary symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.
