MEXICO has just borrowed \$40,000,000 in Europe. Now's her time to skip to Canada.  
The impromptu speeches to be delivered before the North Carolina editors' convention are already being prepared.  
It is said that the anti-lottery sentiment is growing in Louisiana. Well, there is room in that state for it to become a large and very beautiful flower.  
Many neighboring summer resorts are pressing their claims just now. The more the merrier. Everybody comes to Asheville first or last as the only city that fulfills all reasonable expectations.  
Overwhelming and extraordinary as the industrial movement at the South is and has been, it must in a great measure succumb to social laws that which is aimed at it in the federal fore-bill.—The Atlanta Constitution.  
Nonsense! and besides the force bill will never become an enforced law; probably not any kind of a law.  
The republican party does not favor raising one dollar more money than is absolutely necessary to delay the expenses of running this government.—Rockingham (N. C.) Spirit.  
Esteemed contemporary, you are away behind the lighthouse. The republican party is for protection now only to protect "infant industries," some of them now nearly one hundred years old and owned by men who count their money by millions.  
STEPHENSON ARCHER, late treasurer of the state of Maryland and ex-chairman of the democratic state committee, embezzled one hundred and thirty odd thousand dollars from the funds under his control and has been sentenced to five years in the penitentiary. Pennsylvania's ex-treasurer, Quay, is accused, without denial, of stealing from her funds double the amount, and, instead of being in the penitentiary, is at the head of the republican party of the nation.

**KNOWN BY THEIR WORKS.**  
JOHN H. WILLIAMSON, a colored politician of Franklin county, has issued a call for a colored convention to be held in Raleigh in August, to organize opposition to the Harrison administration for generally ignoring the race and its claims on the republican party.  
Some of these days a colored man who is not a politician will call a convention of his race to antagonize not a republican administration solely, but the republican party. His ground for the call will not be the petty one of a few offices more or less, but the broad and pertinent and effective one that the republican party of the present day is not the party of progress, of reform, of economy, of equal rights and of the least government possible. It has become, in fact, the opposite of all this, and the fact that there are decent men who still vote the republican party ticket—even in the South—does not alter the facts. The party is its leaders, its Reeds, Harrison, Ingalls and Quays—what a stench that name stirs up!—and they are known by their works, by czar-like rulings, by force bills, by pension bills threaten to bankrupt the nation, by tariff bills that rob the pocket of every man, by corruption of voters, by every act that marks the desperation of a set of politicians determined to renew the power that they fear is even now leaving them.  
By the way it occurs to us that a united democracy is the only effective democracy. Let the democrats of North Carolina read the news from South Carolina of a democracy divided for the benefit of a common enemy and take warning.

**THE FARMERS AND FREE SUGAR.**  
Secretary Blaine has written a letter to Senator Frye that contains some sound remarks on the new tariff bill. Pointing out that the bill proposes to open our markets free to the sugar of Cuba and Porto Rico without any compensating return, he says:  
"Here is an opportunity where the farmer may be benefited—primarily, undeniably, richly benefited. Here is an opportunity for a republican congress to open the markets of 10,000,000 of people to the products of American farms. Shall we seize the opportunity or shall we throw it away?  
"I do not doubt that in many respects the tariff bill pending in the senate is a just measure and that most of its provisions are in accordance with the wise policy of protection. But there is not a section or a line in the entire bill that will open a market for another bushel of wheat or another barrel of pork. If sugar is now placed on the free list without exacting important trade concessions in return, we shall close the door for a profitable reciprocity against ourselves.  
Our foreign market for breadstuffs grows narrower. Great Britain is exacting every nerve to secure her bread supplies from India, and the rapid expansion of the wheat area in Russia gives us a powerful competitor in the markets of Europe. It becomes us, therefore, to use every opportunity for the extension of our market on both of the American continents. With nearly \$100,000,000 worth of sugar seeking our market every year, we shall prove ourselves most unskilled legislators if we do not secure a large field for the sale and consumption of our breadstuffs and provisions.  
To secure free sugar means, as it should, cheaper sugar for every consumer in the United States, but if while getting our sugar cheaper we can extend the markets for our own products certainly it ought to be done.  
It remains to be seen whether the republicans in congress can follow where Mr. Blaine has pointed out the way. Probably not. Politics and the offices, not public service, is what the republican party now exists for.

Hundreds viewed the remains, and the obsequies, though not of a public nature, were most imposing. Mrs. Fremont, who is in California, could not arrive in time to attend.

**The Alliance in Minnesota.**  
Special to THE CITIZEN.  
ST. PAUL, July 16.—Ignatius Donnelly and his cohorts comprising the Farmers' Alliance, of Minnesota, have taken possession of the city and will this afternoon nominate a full ticket. The Alliance claims to control 30,000 votes and their aim is to name the republican candidates to-day, so that the republican convention which meets next week will have merely to confirm their work. A resolution condemning the McKinley bill will undoubtedly be passed.
