## THE DAILY CITIZEN.

**FACTS AND COMMENTS.**

If the democratic administration managed to save \$100,000,000 a year and the republicans manage to spend all the income of the government and \$100,000,000 more, which is the best administration for the people?—Manchester Union.

When Abraham Lincoln became President of the United States the entire revenues of the government were less than \$50,000,000. Now the people are taxed to raise nine times that amount; and yet this vast revenue is insufficient to quiet the appetite of the robbers who pretend that their hunger is patriotism.—Macon Telegraph.

Poor Kansas is again a heavy loser by the hot winds of the section and all of the corn crop is destroyed. There is a grim philosophy in the man who sent a report to the above effect from the State and closed it with, "the farmers are very despondent, but much of last year's crop has not been sold, and they will not be without fuel."

Times of the tribes of Sioux Indians who went to Europe with Buffalo Bill have returned to New York very much disgusted with Wild West Shows in general and Cody's in particular. They are decidedly anxious to get back to their homes in Dakota. Among the pleasant pastimes Mr. Cody insisted on their enjoying was to ride even in the coldest weather with bare breast. Their food was of the mearest order and they were treated like dogs. The returned braves announce that the remainder are quite anxious to come home but lack the wherewithal.

The Progressive Farmer did not like the meeting of the State press on the 22nd editorial. Its last issue says: "The papers in the State that have any alliance with the farmers are few in number. Many of them have opposed the organization of the farmers openly and secretly, and not a few have basely deceived the men and women who compose the Alliance, and have not hesitated to throw obstacles in the way of the organization by any amount of misrepresentation and falsehood. No, the men and women who belong to the Alliance are of their own thinking and the results will be seen hereafter. The loyal of the Alliance press are no more to thinking men and women in the Alliance than the croaking of frogs."

The "substituted press" is good. It sounds very well, but will not the writer and explain what he means.

The administration has again demonstrated its love for the negro. President Harrison has displaced Albert Hawkins for twenty-five years the white house coachman and now he drives about Washington behind as well as 427,000 coachman as ever broke the contract for him. He is said to be a direct importation from Old England. Mrs. Harrison is at the bottom of the affair. She never did like "niggers" and has always wanted a swell English coachman.

Hawkins has been coachman for every president from Johnson to Harrison. He is efficient in every way, the only objection found to him being that his skin was black. He is big, fat and jolly and is known to more people of the capital city than the little man whom he has been driving about. The Harrisons have nearly reached the end of the beginning. Last year they discharged all of the colored servants and substituted French maids and waiters. Now they again show their hatred of the colored man by discharging one of the most faithful of servants and one who satisfactorily filled his position for twenty-five years.

Still in the next campaign Harrison and his party will pose as the friend of the negro and the latter will, as before, cast their vote for the hypocrite who occupies the presidential chair.

The New York Press informs the World that President Harrison has purchased the cottage at Cape May, paying \$10,000 for it, and then goes on to explain how the criticisms of the democratic press are thus made baseless by the purchase. He accepted at the first, says the paper, just to see how he liked it. Further it says that it can be readily understood that even in the face of the clamorous criticism of the opposition the President would make no explanation about a matter which was subjected to some conditions, and was withal his own private affair. He doubtless thought, too, that the facts would all become known sooner or later, and that the American people would be quick to see the unfortunate position of his detractors, who without knowing the facts, were so willing to believe evil of the Chief Magistrate of the country, and by uttering that belief cast shame on the nation.

It reads very nicely but how about those conscientious scruples Mrs. Harrison talked so pathetically about less than two weeks ago? In an interview in the same paper we are informed by that lady that the President has decided scruples about buying property while holding the office of the chief magistrate, because his possession would raise it to a fictitious value and he would be making money out of his office just like his horrid predecessor. He would never think of doing that, Oh, no! Yet in less than a fortnight he puts \$10,000 dollars into the property of a boom improvement company. A screw is surely loose somewhere.

Mrs. Harrison should show the President a copy of the newspaper when she gets her name in print and there would probably be less blunders made.

Joaquin Miller is said to write the best hand in the United States, which serves well to veil certain eccentricities of spelling.

**Death of Miss Taggart.**

Miss Taggart, of East Liverpool, Ohio, died at W. E. Hallyburton's on College street, yesterday afternoon at 4.30 o'clock. Consumption was the cause of her death. The remains were taken this afternoon to East Liverpool, where the burial will take place.

**To Fool the Farmers.**

ST. PAUL, Minn., July 24.—The republican convention was called to order at 10 o'clock this morning and a preliminary organization was perfected. It is believed that Governor Merriam will be nominated for Governor. The Farmers' Alliance, which already has a ticket in the field, will probably be conciliated by the selection of some of the candidates for minor offices.

Andrew Young, a negro living near Paris, Texas, was called to his door at night and was greeted with a volley of shot and ball from rifles and pistols. He was almost killed with ball but may be recovered. His tongue was cut in two, and he cannot tell who shot him. The only reason attributed for the deed is that he had a row with some white boys.

Miss Belle Bates, a young lady from one of the best families of Cleveland, Tenn., answered an advertisement of a California gentleman, asking for correspondence with a Southern young lady. The couple corresponded and became engaged. The young lady recently took a trip to California and they met for the first time. The marriage occurred shortly afterwards.

The court house at Jackson, Tenn., is being modernized and when G. W. King was digging into the wall of the circuit court room he uncovered a glass jar which contained three \$50 Confederate bills. For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTIPIRYNE, MORPHINE, CHLORAL AND COCAINE, since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.

The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

**DIRECTIONS FOR USE.**  
The dose for an adult is two teaspoonfuls in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of Headache, if taken when first feeling the premonitory symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.
