THE DAILY CITIZEN. FACTS AND COMMENTS. A CHICAGO doctor claims to have discovered that there is a certain cure for consumption. Water in whiskey it has long been recognized as one of the most valuable of remedies. They will facilitate business, the reason given by Reed when his obnoxious rules were adopted. They have it true. They have facilitated more bad business than the house has known for years. Since the Progressive Farmer came out with its unwarranted attack on Senator Vance it has evidently been very sorry it spoke. Last week it contained an article in which it tried to explain its position, but that too was torn to pieces by the State press, and this week the editor throws up both hands and only stops long enough to say that Col. Polk was in no way responsible for the first attack. Evidently the Farmer has learned that the Alliance is a pretty big tail for so small a dog to wag.

SIXTEEN years ago a republican in the Illinois house of representatives refused to vote and thereby broke the quorum. L. C. Collins who at the time acted as speaker telegraphed to James G. Blaine to know if he could count the member who would not vote. The reply he received was to the effect that members in their seats not voting cannot be counted in any way whatever. They may be censured by the speaker for failing to perform their duty, but the speaker cannot take cognizance of their presence except as they responded to the roll call. That was Mr. Blaine's view of the situation although it is not Tom Reed's. But still it must be remembered that it was a man of brains who sent the telegram.

"The continuance of the outrages and their increasing frequency and flagrancy show that the situation is growing worse instead of better, and the necessity for vigorous action is more imperative than ever. These outrages have been going on for years without any determined effort on the part of the authorities to suppress them. The state has been disgraced, its laws violated and defied, its citizens whipped, mutilated, and murdered, local and national administration flouted and contemned, and no vigorous and determined effort has been made to put a stop to them. We do not except the attempts at prosecution in one or two counties, as they were neither vigorous nor determined enough to merit respect."

One would naturally think from reading the above that it was from the New York Mail and Express and was aimed at the South. But it isn't. It is from a no less prominent republican organ than the Indianapolis Journal and is aimed directly at the great State of Indiana. But it must be galling to a Northern republican to admit that the article has any foundation in fact. The republican governor has already had his say in the matter and he explains it by saying that the Journal has always been unfriendly to "me."

MR. BLAINE'S second letter to Senator Frye makes still clearer the fact that with respect to the removal of the sugar tariff he is the protectionist and Mr. McKinley is the free trader. That is the free trade principle—tariff for revenue only, and larger or smaller duties according to the amount of revenue needed for the support of the government.

MR. BLAINE proposes to use the tariff on sugar in such a way as to yield the greatest amount of benefit to American industry; and that is the very essence of protectionist doctrine. Those free traders who think they see in Mr. Blaine's proposition a distinct advance on his part toward their own creed, are mistaken. What he advocates is, as he says, the highest form of protection.

"Why not go further," they ask, "and treat the tariff on every article we import just as you propose to treat the sugar duties? Would that not be carrying your new theory of protection into its highest and most logical consequences?" Yes, if the revenue were not needed and the incidental benefit to American industry could be clearly shown to be greater by that arrangement than by any other.

That is just what a protectionist would do without hesitation if it were possible and advantageous; but a free trader could not do it on that ground, if he remained true to the doctrine that the government has the power to levy customs taxes only with a view to revenue, and not to stimulate, encourage, and protect private business enterprises of American citizens.

FOR REAL ENCOURAGEMENT, therefore, the free trader theorists must look to Major McKinley's sugar plan, not to Mr. Blaine's.—N. Y. Sun. LEAH FOREMAN Dismissed. Leah Foreman, who was under arrest for the murder of her mother, Harriet Williams, has been released. There was not sufficient evidence to convict her, and the case was not pressed with leave. The following cases were disposed of by the criminal court yesterday afternoon: State vs. A. M. Penland, for an assault on an officer. The defendant was found not guilty. This morning the first case called was against Isaac Garrison, for an assault with a knife and a rock on John Burgin. He was found guilty. J. M. Ray was fined \$10 for the Mayor's court a short time ago in the Mayors' premises in a poor sanitary condition. He took an appeal and this morning submitted his case. Judgment was suspended on payment of the costs and the fine. The case against C. W. Stikeleather, appealed from the Mayor's court, was taken up before the court adjourned for dinner. Minnie Penston, colored, was fined \$1 and \$2.50 for using profane and vulgar language.

THOUSANDS HOMELESS A TERRIBLE FIRE AT SENECA FALLS, NEW YORK. A SPANISH BARK GOES DOWN AT SEA. The Majestic S. S. Company breaks the record—The President of the Argentine Republic Resigns.

ATBURN, N. Y., July 30.—Seneca Falls, a small city twenty miles west of this place, was completely destroyed by fire this morning. Particulars are meagre although thousands are said to be homeless and aid has been sent from Rochester. The origin of the fire is unknown. It started at 8.15 o'clock this morning. The fire raged five hours and ten of the most handsome business blocks in the city are in ruins.

The Link Supplied. Editor Citizen:—Having seen only the briefest mention in THE CITIZEN of the Sunday afternoon services held in the Central Methodist Church by the W. C. T. U., and nothing at all having been said of the public exhibition given by Miss Anna Gordon's L. T. L., I would be glad to supply these missing links in the daily chain of reports Asheville's bright and new papers have so faithfully given.

On Sunday afternoon at 4 p. m. the congregation began to assemble, but rain coming on, was not so large as it otherwise might have been. Mrs. Wells, of Tennessee, opened the meeting, and simply saying "North Carolina's president, Mrs. W. Wood, needed no introduction," that winsome little lady came to the front and gave an earnest evangelistic talk. Mrs. Hobbs, of Guilford College, then made a forcible address, based on a saying of St. Augustine. Mrs. Hobbs has an excellent voice for public speaking, and with her zeal for the temperance cause and power of logical expression cannot fail to become distinguished among W. C. T. U. women. She has charge of the department of heraldry and is well up on her work. Mrs. Kelly, of Mississippi, the brilliant editor of the first rank of W. C. T. U. literature, read a few verses, commenting upon them in her soft, deliberate voice. In the absence of Mrs. Chapin, kept in Charleston by the mandate of her doctor, I represented South Carolina, and being new to the work, was allowed to give my thoughts from a paper, Mrs. Webb, of Savannah, Ga., an English lady of great consecration in those pithy shapes our work takes as prison reform and work for sailors in port, gave some pathetic incidents, which drew a sympathetic Florida, made everybody laugh with the story of the old lady who "wanted the W. C. T. U. to send to her part of the country, a circus rider, or a locust preacher, or an exhauster, she didn't care which." Monday afternoon, Mrs. Gordon's L. T. L. exercises, was unfortunately so rainy as to prevent many of the children getting to the chapel, as well as a good attendance of grown up people. The attractive program was carried out, however, with undiminished spirit, the details showing the most of Miss Withall, systematic work. It was delightful to see the clarity and precision with which the little officers took their places and went at their work. Master Philip Cooke, as L. T. L. president, called the meeting to order, Miss Eva Branch read the minutes in a clear, distinct voice, and Master Norris Myers reported the condition of the treasury. To replenish this a collection was taken up with reassuring results. There was a pretty motion song—a song with bells, several bright recitations by the boys and girls, and then a cantata, in late and sat at the back of the audience. In the lovely tale the world's W. C. T. U. president gave these children, might be found the key to her greatness—a simplicity and truth which heaven crowns only Godlike souls. In a manner of simplest good fellowship she explained how she came to be too late because of waiting for a friend who failed to keep her engagement; so she started out to walk to the college alone, as the whole family of her hostess had already gone on to the entertainment, expecting her to be conveyed thither by this friend. She hardly knew the way and couldn't take a street car because Miss Gordon had the same purpose; and as it soon came on to rain smartly she got into a grocer's wagon and rode on credit to the college, and so got her dress soiled. You should have heard the children applaud our "greatest of living women," as she thus came down from the heights on which our love would place her into the close affinities of every day life.
