## THE NEWS!

BY ASSOCIATED PRESS TO THE CITIZEN TO-DAY.

A VOTE REACHED ON THE WOOL TARIFF.

IT IS NOT TO BE PLACED ON THE FREE LIST.

WASHINGTON, August 30.—In the Senate to-day Senator Morgan presented a resolution of a colored mass meeting in Birmingham, Ala., against the passage of the federal election bill. Senator McMillan asked to have the house joint resolution taken up and passed granting fifteen days leave of absence annually to clerks and employees in the first and second class postoffices, but Mr. Edmunds objected on the ground that his consideration would occupy too much time. The bill, he said, involved a good deal of money as the leave of absence provided for would probably necessitate the employment of extra hands. The tariff bill was then taken up, the pending question being on Senator Carlisle's motion to strike out the wool paragraphs so as to place wool on the free list.

Senator Daniel addressed the senate in support of the amendment. The facts demonstrated, he said, that the high tariff on wool and wools had been a complete failure. It had high tariff had been designed to stimulate the American manufacture of wools it had failed. If the designs had been to increase the American sheep cultivation of flocks and wool cheap, it had failed. If the design had been to decrease the price of wool it had succeeded. The high duty had not checked the importation of foreign wools, because these were necessary for the utilization of American wool.

A vote was then taken and Senator Carlisle's motion to strike out all the wool paragraphs was rejected, yeas 17; nays 27—strict party vote, although Senator Payne, it present would have voted in the negative, Senator Sherman said.

**BLAINE ON RECIPROcity.**

He Says It Does Not Tend Toward Free Trade.

WATERVILLE, Me., August 30.—Secretary Blaine spoke here last night at a republican mass meeting. In regard to national questions he said: "I wish to declare my opinion that the United States has reached a point where one of its highest duties is to enlarge the area of its foreign trade. Our great demand is expansion. I mean expansion of trade with countries where we can find profitable exchanges. What I mean to speak of is a system of reciprocity not in conflict with the protective tariff but supplementary thereof and presenting a field of enterprise that will richly repay the efforts and energy of the American people."

In 1889 our whole exports to all countries in three continents of Europe, Asia and Africa and to Australia, Canada and Hawaii amounted to \$658,000,000, and on imports from all these countries to \$529,000,000, showing that from that date trade we had a balance of \$129,000,000 in our favor. But when all accounts were closed, instead of having \$129,000,000 in our favor we had a balance of \$13,000,000 against us from our foreign trade. We must therefore have lost \$142,000,000 in our commerce with the countries outside of those to which I have referred.

How can this state of affairs be remedied? We encounter opposition to the policy of reciprocity from those who declare that if we enter into reciprocity of trade with one country we must do so with all countries, and thus indirectly bring about complete free trade. I don't see the logic of this. I am sure the facts will not prove what is predicted. We may enter into reciprocity with one nation because we find advantages in it, and we may decline to enter into reciprocity with another because we see no advantage in it. Reciprocity is simply a policy of circumstance, to be determined favorably or adversely according as its operation may make or lose for us.

**No Pinkertons Wanted.**

JACKSON, Miss., August 30.—In the constitutional convention Mr. Henderson, of Clay county, submitted a resolution providing that transportation companies engaged in interstate traffic shall be prohibited in cases of strikes to employ armed bodies of men or non-residents calling themselves detectives, under a penalty of forfeiture of the charter privileges.

**The Eight Hour Law.**

WASHINGTON, August 30.—The house met at 11 o'clock to-day, the understanding being that the first hour of the session should be for debate only on the bill for the adjustment of the accounts of laborers, workmen and mechanics arising under the eight hour law. The measure was earnestly debated by Messrs. Caruth, Dingley, Covert, Morrill, Flower, Wade, Reilly, Osborne and Farquhar.

**The Cotton in Sight.**

NEW YORK, August 30.—The total visible supply of cotton for the world is 1,071,790 bales, of which 525,290 bales are American, against 834,735 bales, and 469,835 bales respectively last year. Receipts at all interior towns, 20,213 bales; receipts at plantations, 45,825 bales.

**LATE STATE NEWS.**

—A negro who owns thirty acres of land adjoining the Phoenix oil well in Greensboro has refused an offer of \$15,000 for it.

—There are numerous rumors about concerning the North Carolina Steel and Iron Company's plant at Greensboro. Important action will be taken by the directors in a few days.

—Some excitement is manifested over the postoffice at Cabarrus for \$50,000 against the Daily Standard, of Concord, for libel.

John Kennedy was employed in the postoffice at Wilmington as registry clerk. About four weeks ago he suddenly disappeared, and a shortage of \$300 was found in his accounts. The detectives have just returned him to Wilmington from New Orleans where he was captured.

## A NICK JANGLE.

Between these Brotherhoods the Public Waits.

SAN ANTONIO, Texas, August 30.—The contest between the Southern Pacific Railway and those of its engineers who are members of the Brotherhood has assumed a new phase.

It is now strictly a dispute between the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen. It came about in this way: M. Ritchie, who was appointed engineer of a passenger train and to whose appointment the Brotherhood of Engineers so strenuously objected, was a fireman and member of that organization. The engineers demanded of the firemen that a member of their Brotherhood be put in his place. This the road refused to do.

The engineers have sent on a committee to San Francisco to confer with the Brotherhood of the coast, and if their stand is endorsed and the road refuses to come to terms they say they will strike and stop every train between New Orleans and San Francisco. Now the Brotherhood of Locomotive Firemen has taken a hand and proposes to stand by Mr. Ritchie. It too will send on a committee to San Francisco to confer with the western members of the order. If their endorsement of Ritchie is sustained they will defy the engineers to tie up the road.

**LUSK FAVORS BAYONETS.**

A WILD HARANGUE AT BALTIMORE.

A Citizen of Asheville in Favor of The Force Bill and Its Enforcement by the Army and Navy—An Astonishing Speech.

V. S. Lusk was called out and spoke at the Raleigh republican convention Friday. The Chronicle reports him as follows:

"He made a number of harrowing, bugaboo statements about the election law. He dressed that measure in the most impossible garb and totally misrepresented it. He said the sun of God had never set upon a fair election in North Carolina since the inauguration of the present system of county government."

The National Congress had heard our cry of distress, and were trying to come to our relief by the Federal election law. Yes, and when that law was introduced, a great hue and cry was raised and it was called the "force bill." Now they say, that law passes, there will be fighting and bloodshed. It is so, bring out your army and we'll meet you half way. I AM TOOTH AND TONGUE IN FAVOR OF THAT LAW, and I want a Presidential elector who will see that law enforced."

"Yes, I am in favor of a President who will put a MAN OF WAR IN EACH PORT OF THE STATE, to Florida to see that the law is enforced; and I am further in favor of a President who will put a man with a BAYONET AT EVERY BALLOT BOX, to see the provisions of that law enforced."

**OPENING OF CITY SCHOOLS.**

Supt. Claxton Urges That Children Enter at Once.

EDITOR THE CITIZEN:—I wish to announce the opening of the public schools of the city next Monday, September 1, and to urge that parents see to it that their children enter on the first day of school or as soon thereafter as possible. Lists of books will be given on Monday, and on Tuesday a full day's work will be done. All children will enter promptly before the beginning. But if a large number of children remain out for two or three weeks or more, such children will be behind more or less during the entire year, and the classes which they enter will be kept back, losing many of the advantages gained by prompt entrance. The first day is the time for children to enter. No child should remain out longer than the first week unless absolutely necessary.

P. CLAXTON,  
Superintendent.

**Helpful to S. S. Teachers.**

The Young Men's Christian Association have recently purchased some valuable books for use of Bible students, which will be particularly helpful to Sunday school teachers, and the places where helps on the Sunday school lessons may be found, in the books which are in the library, are posted in the rooms weekly.

The following books will give light on to-morrow's lesson: Entering the Kingdom. Time, place, illustrations, etc. Peloulet's notes pages 239, 246.

I. Jesus and little children—Peloulet's notes pages 240, 241; Eidersheim Vol. 2, pages 336, 337; Sunday School Times, page 522.

II. Seeking eternal life—Peloulet's notes, pages 241, 242; Eidersheim Vol. 2, page 339, 340.

III. What the young ruler lacked—Peloulet's notes, pages 242, 244; Eidersheim Vol. 2, page 341.

IV. The reward of service—Eidersheim Vol. 2, pages 343, 344; Peloulet's notes, page 245.

"How to enter the kingdom"—Sunday School Times, page 520.

"Eternal Life"—Natural law in the Spiritual world, pages 203, 250.

"They rebuked them" and "Easier for a camel to go through needles eye"—Sunday School Times page 522.

**Great Land Sale.**

On Wednesday next it commences. On Monday and Tuesday a number of carriages will be at the command of the citizens and strangers free to show the property. Make your order to Natt Atkinson & Son. From them you will obtain a "Blue Print" of the lots.

**Turned on Again.**

From the Wilson Looking Glass.

A sweet and lovely and bewitching little maiden near the fair grounds at Tarboro has sent us a sweet remembrance; yes it was almost as sweet and as lovely as her own pure self, and its exquisite perfume, like the sweet and delicious odors of her own pure charms and wickereries, flooded our senses with waves of ravishing sweetness, and made us dream in rapture of heaven's own fadless flowers. Flowers and maidens!

And the sweet assurance that we are not forgotten, but still remembered by her so pure, so sweet, so lovely and so angel-like as this precious little maiden, for she looks as if she was just sent down from heaven above, to show us witchery and teach us love—yea when we are remembered by such a one, it fills our existence with a radiance as pure and as bright as the diamond like gleamings of the crystal water's stainless flow when breaking in silv'riest ripples upon the shining shore.

## THE WRECK ON THE W. N. C.

A FRENZY OF EXCITEMENT AT WAYNEVILLE.

Narrow Escape of the Passenger Train, as Reported by the Waynesville "Courier"—A Most Distressing Sight—A List of the Wounded.

One of the bloodiest wrecks that has occurred on the Murphy division of the W. N. C. railroad since the explosion of Mr. Will James' engine on Valley river took place Monday at 10.30 a. m. The scene of the wreck was three miles above town. There were seven cars which were loaded with logs. Five cars were wrecked. Another one broke loose and came by Waynesville at the rate of about seventy-five miles an hour. It would have run into the passenger train somewhere below town had the passenger train not been four minutes late, and had not a gentleman who was near the head of the passenger train coming. He made cover one, pleading and begging for help. It was not long until rumor announced an awful wreck about three miles above town. Doctors were summoned and the train at last came and stood at the depot thirty minutes before leaving. During all of this time men were offering their service, but the men in charge would not let them go and rescue the wounded. At last they concentrated and summoned on courage enough to take three or four men to help remove the logs.

The people at the depot were excited almost into a frenzy. There were several friends who were expected on the morning train. The train had left Clyde and nothing could be done but to wait patiently for the development of things.

It was not long until rumor announced an awful wreck about three miles above town. Doctors were summoned and the train at last came and stood at the depot thirty minutes before leaving. During all of this time men were offering their service, but the men in charge would not let them go and rescue the wounded. At last they concentrated and summoned on courage enough to take three or four men to help remove the logs.

It was a shameful disgrace to see Bob Conley, colored, lying under a car with one leg cut almost off and caught by the cover one, pleading and begging for help. It was a frightful sight. He was a colored man, but his life was as dear as any man's. Then there lay Mr. Joe Arrington over an embankment with one large leg lacerated upon his foot. Another leg had rolled over him and mangled him almost to death. He could hardly plead for mercy, but was doing the best he could.

The accident was caused by the train running into a cow. The men who had helped load the logs were all on the train. They jumped off as best they could. Conley was buried under the west end of the train. The others who were injured were Messrs. Tom Harrison, John Jones, who is perhaps fatally injured internally, the train was so long reaching the scene that Mr. Jones had to be brought to town. Joseph E. H. Humes cut, but in the engine; Jim Thomas, had his wrist thrown out of place; J. W. Malby, had his thumb mangled; Robert Malby, had his shoulder knocked out of place.—Condensed from the Waynesville Courier.

**FOUR HIT THE GOOD FIGHT.**

Mr. A. M. Marshall, living seven miles east of Durham, was fatally stricken with paralysis. He was 71 years of age.

Mrs. Betsy Butler, of Little Calahie, Sampson county, is dead. She was about sixty-five years of age. She has been suffering with a cancer.

Mr. Frederick Mathis, an esteemed citizen of Dismal township, Sampson county, departed this life August 15. He was about 78 years of age.

Rock Steele, a well known photographer of Statesville, was found dead in his bed. Mr. Steele was supposed to be convalescing from a long spell of typhoid fever.

Mrs. L. D. Underwood (nee Howard) died at her home in the Hedges, Sampson county, on the 23d instant. She was aged about 25 years and has been prostrated for nearly a year with consumption.

Mr. Robert S. Lawrence died at his home in Old township Sunday afternoon, aged 68 years, and was buried Monday at Snow Creek, in the presence of a large assemblage of friends and neighbors.—Statesville Landmark.

Mrs. E. B. D. Sloan, of Caldwell's Station, is dead. She was the widow of the late E. B. D. Sloan, was about 70 years of age, and leaves five children, Mrs. W. S. Caldwell, Mrs. E. Armond, Mrs. D. W. Mayes, Mrs. J. V. Weddington and Edward Sloan.

We are sorry to have to chronicle the death of our two esteemed friends, Col. Chas. Chisard and Mr. Daniel Weavil. Both were buried last week, the former at Abbot's Creek of internal cancer, the latter at Shady Grove of paralysis.—Lexington Dispatch.

**AFFAIRS OF CONSEQUENCE.**

**FOREIGN.**

Dr. Peters, who recently returned from Africa, has arranged to enter the German service.

Twenty persons were injured near Glasgow, Scotland, in a collision between a freight train and passenger train.

**WASHINGTON.**

The rumor of an extra session of congress in November is thought to have no foundation.

Congress passed the resolution prohibiting the erection of the Lafayette statue in Lafayette Park.

Official statements of the San Francisco trial indicate that she is the fastest cruiser in the navy.

**HOME.**

It is probable the Virginia legislature will be convened in extra session early in January.

A statue of Horace Greeley is being erected in front of the Tribune office in New York.

William A. Marks, a Broadway merchant, received a thousand volts of electricity by accident and was not much hurt.

Douglas Ross, aged 12 years, has left New York for the State of Washington after having traveled extensively over the world alone.

The Nebraska State Prohibition Convention adopted the usual resolutions and nominated a full ticket, the candidate for lieutenant-governor being a colored man.

Mrs. Hannah Armstrong Wilcox, who died in Winterset, Ia., and was buried at Petersburg, Ill., recently, was the mother of the man whom Abraham Lincoln cleared of the charge of murder by the introduction of an old almanac to disprove the testimony of the State's witnesses.

## MISCELLANEOUS.

**ANTIMIGRAINE.**

—THE—  
NEVER FAILING CURE FOR HEADACHE.

TRADE MARK REGISTERED.

ABSOLUTELY SAFE, PERFECTLY SURE AND ALWAYS SPEEDY.

Cures Every Variety of Headache AND NOTHING ELSE.

**ANTIMIGRAINE** Has earned for itself the enviable reputation of being the finest, most effective and reliable article in the market for the speedy relief and cure of every variety of that common trouble, HEADACHE. The immense favor which has greeted it from all quarters, proves its true merits and acceptability to the public. It is something which almost everyone needs, and those who have once tried it, will never be without.

For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTIPIRYNE, MORPHINE, CHLORAL AND COCAINE, Since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.

The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

**DIRECTIONS FOR USE.**

The dose for an adult is two teaspoonfuls in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of Headache, if taken when first feeling the preliminary symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.

For sale at **GRANT'S PHARMACY.**

## WHITLOCK'S,

46 & 48 S. MAIN STREET,
