Use the Pine Needle Cigars for a delightful smoke and speedy relief for influenza, Acute and Chronic Catarrh, Clergyman's Sore Throat, Hay Fever, Asthma and all Bronchial diseases. Combining the full aroma of the Yara tobacco, imparting to the taste and breath a pleasant effect, and by the introduction of pine needles the nicotine or poisonous properties of tobacco are destroyed, not only rendering their use free from injury, but with positive benefit to the consumer.  
BLUE BALL, N. J., May 6, 1889.  
Pine Needle Cigar Company, Freehold, New Jersey.  
Gentlemen— I am desirous of expressing my most sincere thanks, and exalted opinion of your Pine Needle Cigars as a remedy for Nasal Catarrh and Bronchitis, both of which troublesome diseases I have suffered with for nearly two years, and experienced no relief until I had the good fortune of learning of your most valuable remedy. Since their use I have received marked relief and consider myself entirely cured. I also might state that I received no unpleasant effect while inhaling the above named remedy.  
Yours respectfully,  
IDA WAGONER.

## THE NEWS!

BY ASSOCIATED PRESS TO THE CITIZEN TO-DAY.

**SENATOR BLAIR ACCUSED OF BUNCOMBE.**  
TO EXTEND TRADE RELATIONS WITH CANADA.  
**THE TARIFF BILL AGAIN UP IN THE SENATE.**

WASHINGTON, September 1.—In the senate today Senator Blair asked whether a motion to adjourn would be in order. This is "labor day," he said, and should be universally observed. He thought that the senate which worked 16 hours a day instead of 8 ought to do honor to the occasion by an adjournment. Senator Hoar said labor day would be better honored by legislation on the behalf of labor. "Very well," said Mr. Blair, in acquiescence, "there are four labor bills that have been sent over by the house of representatives. I would be very glad to have them acted on by the senate."  
"I desire," said Mr. Hoar, "to spend the day in legislation that will raise the wages of labor."  
"I give notice to the senate in charge of the tariff bill," said Mr. Blair, "that I will ask the unanimous consent of the senate to give precedence to the consideration of labor bills that have been sent to us by the house representatives. This is an emergency and there is an unusual desire to do something for labor."  
Senator Aldrich objected to any further buncombe speeches and asked the presiding officer to enforce the rules. The presiding officer, Senator Ingalls, thereupon requested the senator from New Hampshire to observe the rules and refrain from debate.  
Senator Sherman gave notice of an amendment which he proposed to offer to the tariff bill looking toward reciprocity with the Dominion of Canada in coal and toward extending trade relations between Canada and the United States.  
The tariff bill was then taken up, the question being as to wool and woolen yarns, to which the finance committee had reported an amendment increasing the duty per pound from twice to two and half times the duty imposed on unwashed wool of the first grade. Senator Paddock addressed the senate.

**BRAZIL AND RECIPROCITY.**  
**She is Willing to do Something For Free Sugar.**  
WASHINGTON, September 1.—The reciprocity amendment to the tariff bill, reported from the finance committee last week, was recently the subject of an interview between Senator Aldrich and Mr. Mendonca, the Brazilian envoy on a special mission to the United States. Mendonca said the amendment was satisfactory to Brazil and that she would be the first country to make concessions to the United States in return for the removal of the duty on sugar. He said his government would not only remove the duty on farm products exported from the United States but would admit free duty on agricultural implements and machinery and railroad equipment and supplies, including railroad iron. Brazil would also, he said, make a reduction of at least 25 per cent in the duty on cotton, leather goods and clothing from the United States.

**UNDER OUR FLAG.**  
**A Nice Little Point in International Law.**  
WASHINGTON, September 1.—The State department has taken measures to secure the full particulars of the shooting of Gen. Barandina on board the American gunboat lying in Port San Jose by the officers of the Guatemalan government. A case involving the identical principle with that involved in the shooting of Gen. Barandina occurred in Nicaragua in 1885, and in that case Secretary Hayard informed our minister to Central America that the Nicaraguan government had a right to take a man wanted from on board an American vessel, provided she were in Nicaraguan waters.

**Killed in a Railroad Wreck.**  
PARIS, September 1.—A train was thrown from the track at Arranes, department of Creuse, to-day. Seventeen carriages were wrecked and several persons were killed or injured.

**A Town Burned.**  
IOWA CITY, Ia., September 1.—Fire last night almost totally destroyed the town of Oxford, west of this city. The fire was undoubtedly incendiary. Loss estimated at from \$25,000 to \$50,000.

**POLITICAL NOTES.**  
It is an open secret that the republicans are counting upon democratic indifference and abstention from voting this year. They will work through the negro preachers as much as they can.—Wilmington Messenger.

By the agreement between the Eaves and Mott factions, by reason of which the hatchet is just now buried, Eaves is to recommend J. C. Pritchard for collector, and a committee is to go to Washington and ask the President to nominate Pritchard.

Anent the article in the Charlotte News about Vance's silk sash, Col. Rankin says that Vance did not die the duke garb early in the season. One day he saw Tom Reed coming into the capital with a sash around his waist. Vance at once took off his sash, but once on his "gallopes" and has never since had any use for the sash.

Pitt county had an enthusiastic democratic convention at Greenville. The following nominations were made: Senate, W. R. Williams; house, Col. Harry Skinner and J. C. Cox; clerk, E. A. Moye; sheriff, J. A. K. Turner; register, D. H. Jones; treasurer, John Flannagan. Senator Williams on accepting the nomination said: "I am a Vance man; he will put such amendments to the sub-tary bill as will make it constitutional; then we will be all for him; we are for him and how." A resolution endorsing Vance was unanimously adopted.

**THE SCHOOLS ARE OPENED.**  
**Full Attendance—The Ninth Grade—Second Hand School Books.**  
The public schools opened to-day with a full attendance. The following organizations have been made:  
Orange street school—E. P. Mangum principal; teachers in the hall, Mr. C. A. Webb, Mrs. T. W. Branch, and Mrs. L. A. Farinholt.  
Miss M. Lanier has the third grade and Miss M. Halyburton the second.  
Miss Katie Millard has charge of the first division of the first grade and Miss M. Sinclair, the second division of the first grade.  
Mr. A. Moore is drawing teacher and Miss Flora Whitlock music teacher. Their work includes both schools.  
At the Academy street schools E. B. Lewis is principal, Miss Louise Welch teacher of the fourth grade, Miss S. Hatch the third, Miss S. Yeatman the second.  
Miss M. Duke has charge of the first grade and included in this grade are Mrs. Ella Brown, first division of first grade, and Miss M. Mills, second division of first grade.  
About twenty pupils are ready to enter the sixth grade which is being organized.  
Second hand school books will be changed at the schools, and prices given.

**Durham Is Alive.**  
The Durham Consolidated Land and Improvement company has been organized with one million dollars capital. The officers are: President, J. S. Carr, president of Blackwell Tobacco company vice-president, A. B. Andrews, second vice-president of the Richmond and Danville railroad; secretary and treasurer, R. H. Wright, a wealthy and prosperous man; general manager, John Vance, jr., an experienced and successful operator in real estate.  
The Consolidated company has bought the lands of the Durham Land and Security company, 300 acres; the West Durham Land company, 286 acres; the Enterprise Land and Trust company, 215 acres, in all, 815 acres, one half being partly within and partly without the city limits.  
The company will erect extensive manufacturing establishments. Among the enterprises projected are one or two cotton mills, a knitting mill, a plug tobacco factory, a roller flour mill and storage warehouse.  
At convenient and conspicuous points in the city, the company will erect a hotel at a cost of \$50,000 and a Y. M. C. A. building at a cost of \$25,000. These and other improvements will require an outlay of \$100,000, which will be completed within eight or ten months from this date.—Durham Globe.

**THE RECORD BROKEN.**  
**This Appears to be a Pretty Good Year for it.**  
INDEPENDENCE, Iowa, September 1.—Alabaster and Roy Wilkes each lowered the record Saturday. Alabaster broke the 4-year-old stallion record, making a mile in 2:10. Roy Wilkes was sent to beat his record of 2:09, and broke another world's record, making a mile in 2:08 1/2, New York, September 1.—The value of the greaturity stakes, won by August Belmont's colt Potomac was very nearly \$70,000.

**THIS MEANS BUSINESS.**  
Shipments of sumac from Littleton so far this season amount to about 400,000 pounds.  
A furniture factory, with a capital stock of \$10,000, has begun operation at Greensboro.  
The Carolina Veneer works has just shipped two more car loads of butter dishes.—Clinton Caucasian.

**Ready to Jump.**  
BERLIN, September 1.—The imperial yacht Hohenzollern had a very stormy passage on returning from Russia. The vessel narrowly escaped collision with a light ship and her deck houses and stanchions were damaged. The emperor remained on deck during the worst of the storm.

**Boston and St. Louis.**  
WASHINGTON, August 31.—The census office to-day announced the result of the count of population in the following cities: St. Louis, 169,257, an increase during the census period of 109,839, or 31.34 per cent; Boston, 446,507, increase 83,668, or 23.60 per cent.

**Southern Iron.**  
ST. LOUIS, September 1.—Most of the Southern furnaces report heavy inquiries for iron, mill grades especially, and large sales at full prices.

**AFFAIRS OF CONSEQUENCE.**  
HOME.  
Since March 30, 825 Chicago chimneys have been stopped from smoking; 325 of the owners had to be prosecuted, but only sixty-five permitted their stubbornness to result in the infliction of the penalty.  
Alexander Ludwig Philippson, a Dane who was arrested at the New York Barge office on suspicion of being the murderer of Meyer, whose body was found in a barrel of cement, has sued the officials who held him for \$20,000 damages.  
Improvements, especially railroad construction, in Colorado is greatly retarded through the inability of the companies to secure labor. The Denver and Rio Grande officials say they could give employment to from 5,000 to 8,000 men on new works at \$2 per day.  
FOREIGN.  
Mr. Gladstone says that Dr. Dollinger, leader of the old Catholic party, and Cardinal Newman were two of the most remarkable men of the contemporary Christian church.  
A bomb exploded in the doorway of the police headquarters at Trieste, Austria, Thursday night. Another bomb with the fuse burning was found in the railway station in time to prevent what might have been a dreadful catastrophe.

**WASHINGTON.**  
The omnibus southern war claims bill, which carries about \$530,000 has passed.  
The real object of the Edmunds resolution for a recess of congress until November 10, is thought to be the proposed reassembling of congress for the passage of the force bill, but there is little likelihood of the passage of the resolution.  
Mr. H. W. Cobb, the enterprising leaf tobacco dealer, has bought the corner lot just south of St. Barnabas Episcopal church, and will at once commence the construction of a large brick plug tobacco factory. The building will be 50x140 feet, and five stories high.—Greensboro Patriot.

**HE HAD SOME STOCK.**  
**AN OHIO REPUBLICAN EXPOSED IN THE SENATE.**  
**He Ate of the Molen Pig But Thought Himself Well Qualified to Sit in Judgment on the Thief.**  
WASHINGTON, September 1.—In the house to-day Mr. Stockbridge, of Maryland moved to suspend the rules and pass the bill providing for government inspection of mines in the territories. Agreed to.  
Mr. Cooper, of Indiana, rising to a question of privilege, stated that one of the charges made in the resolution offered by him for the investigation of the commissioner of pensions was that the commissioner was selling stock in a refrigerator company to employees at the pension office. He had in vain attempted to obtain the names of the stockholders in the company. To-day he had learned that one of the members of the investigating committee, M. L. Smyser, of Ohio, was one of the stockholders. Mr. Cooper therefore offered a resolution discharging Mr. Smyser from the committee and directing the speaker to appoint his successor.  
Mr. Smyser, of Ohio, said that the question which the committee was appointed to investigate was whether the commissioners had promised employees positions under him for the reason that they became stockholders in the refrigerator company. There was no reason in his (Smyser) being a stockholder that would affect his ability to decide whether Mr. Kaum's official conduct had been wrong or not.  
Mr. Outwater, of Ohio, was surprised that any gentleman of honor and integrity should raise any question as to the propriety of the gentleman from Ohio immediately withdrawing from the committee.  
Mr. Smyser said he did own some of the stock, but that fact in no manner could affect his integrity or honor. Honest men and his friends would never impute to him a want of honor or want of integrity.

**VICIOUS INCENDIARIES.**  
**Another Attempt to Burn Senator Stanford's Stables.**  
SAN FRANCISCO, September 1.—Only the vigilance of the hostler at Senator Stanford's big ranch at Menlo Park last night prevented a fire which would have been a repetition of the big fire of three years ago, in which over \$100,000 worth of valuable stock and horses were killed.  
About 9 o'clock flames were seen in 1,000 miles of straw near the main stable. By the light of the burning straw, two men were seen running, but the driver was so pressing that they could not be followed though the Chinese fired two shots at them.  
When the men got out the fire hose they found a big knot tied in the middle to make it useless. The fire was confined to the stable, but the loss on the building was \$7,000.

**THIS IS LABOR DAY.**  
**With Most of Us Every Day is Labor Day.**  
BOSTON, September 1.—To-day is labor day. The labor organizations in and around Boston are celebrating it in the same general manner as in previous years. The day is a legal holiday and all business is suspended. The parade was the largest that has ever been seen on this day; 10,000 persons participated.  
**Ready to Jump.**  
BERLIN, September 1.—The imperial yacht Hohenzollern had a very stormy passage on returning from Russia. The vessel narrowly escaped collision with a light ship and her deck houses and stanchions were damaged. The emperor remained on deck during the worst of the storm.

## ANTIMIGRAINE.

—THE—  
**NEVER FAILING CURE FOR HEADACHE.**  
TRADE MARK REGISTERED.  
**ABSOLUTELY SAFE, PERFECTLY SURE AND ALWAYS SPEEDY.**  
Cures Every Variety of Headache AND NOTHING ELSE.  
It has earned for itself the enviable reputation of being the finest, most effective and reliable article in the market for the speedy relief and cure of every variety of that common trouble, HEADACHE. The immense favor which has greeted it from all quarters, proves its true merits and acceptability to the public. It is something which almost everyone needs, and those who have once tried it, will never be without.  
For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTIPIRYNE, MORPHINE, CHLORAL AND COCAINE, Since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.  
The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

**DIRECTIONS FOR USE.**  
The dose for an adult is two teaspoonfuls in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of headache, if taken when first feeling the premonitory symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.  
For sale at
