We are offering BIG BARGAINS in Staple as well as Fancy Groceries, a large proportion of which we are constantly renewing direct from the manufacturer. This insures you perfectly fresh and wholesome goods at prices that we guarantee to be as low as they can be bought in any market.

Respectfully,
POWELL & SNIDER,
Cor. Patton Avenue and Main Street.

THE NEWS!

BY ASSOCIATED PRESS TO THE CITIZEN TO-DAY.

ANOTHER CHAPTER OF SIBERIAN HORRORS.

MEN AND WOMEN DRIVEN LIKE CATTLE.

SAN FRANCISCO, Sept. 8.—Capt. John Thompson, of the barkentine Catherine Sudden, just arrived at Port Townsend from Siberia, sends to this city a description of the Russian exile system as witnessed by him. On Lagladin island, a famous Russian exile prison, a large party of exiles of all ages, manacled, were being taken to the island. A few old men whose strength gave out, fell from exhaustion. The brutal driver, acting on the orders from his superior, shot the unfortunate men and removed their chains. No mercy or discrimination was shown. Wives saw their husbands killed before their eyes, mothers saw their daughters outraged and insulted. The men and women were driven like cattle, a whip being used to urge them on. The prison cells were filthy and the treatment was barbarous.

Reed's Day of Fate.

BOONEVILLE, Me., Sept. 6.—The election opened very quietly here. A large vote is being polled.

A \$100,000 WRECK.

Why the New York Mills Were Late Yesterday.

The New York mails did not put in an appearance in Asheville yesterday. The reason therefore is probably explained in the following dispatch from Charlotte: "Thirty-six cars and the engine of a north-bound freight train on the Richmond & Danville road, crashed through a bridge into the river, a few miles from Salisbury Saturday afternoon. Conductor Scott uncoupled his caboose when twenty-five yards from the river, and saved it. The fireman and engineer jumped and were bruised but not seriously injured. Engineer Will Anderson stayed with his car in its leap of sixty feet to the bottom of the valley, but rose unhurt and was pulled out. Nobody was badly hurt. The loss is not under \$100,000, and it is said to be the biggest freight wreck in the history of the road. The road ever sustained. The accident was caused, it is said, by the breaking of the king pin on the engine truck."

THE LATEST NEWS FROM NORTH CAROLINA.

—The Sam Jones meetings will begin at Wilmington on the 25th.

—Goldboro yearns for sewers and will not be quiet till it gets 'em.

—Principal Clewell says he has already enrolled the names of nearly 300 pupils for the present session of the old Salem College.

—North Carolina has made more progress with farmers' institutes than any other state except possibly Mississippi, thinks the Winston Daily.

—Raleigh loses many people by removal every year, and this is the chief cause of the slow increase of population.—Wilmington Messenger. What's Raleigh's loss is the gain of the rest of us.

—An old resident of Hanginglog informs us that there are twenty-two pairs of twins in that neighborhood, born within the last few years. Studies of Mars, what a country!—Murphy Bulletin.

—Twenty forges are at once to be put up at the Agricultural and Mechanical college. A new green house has just been finished at the college, and also one at the experiment farm, the latter for use in hybridizing grapes. Experiments are also being made there with seedling strawberries for tests of their merit here.—Raleigh Correspondent.

—In the annual conference of the African Methodist church at Louisville, Ky., a committee reported that the conference would recognize the Star of Zion, printed at Salisbury, N. C., as the official organ as soon as certain abuses in the paper's management were corrected. The report was rejected. So the Star of Zion is no longer recognized by the Kentucky conference.

—Intelligence reaches us of the death of Rev. C. S. Long, an East Tennessee boy who went a few years ago as a missionary to Japan. He was a member of the Holston conference of the Methodist Episcopal church, and esteemed as a consecrated Christian minister. He returned from Japan a short time ago and died in North Carolina. His remains will be interred at Athens, Tenn.—Knoxville Journal.

—Maj. Smith has returned from Oxford. He said one of the most affecting sights he ever beheld, was when the children of the asylum, from the least little "toddlers" to the largest boys and girls, came in with outstretched arms and streaming eyes to bid farewell to their beloved friend and late principal, Dr. Dixon. The cries and sobs of the little ones as they clung frantically to the doctor, begging him not to leave them, was truly heart-rending, and almost made one believe it was a sin to take Dr. Dixon away from the asylum.—Winston Daily.

—A peculiar case came up in the last superior court of Halifax county against the magistrates in two or three townships. They were indicted for not reporting the condition of the public roads. They had made out a report from one township, but by some means the clerk of the court could not produce the report, and testified that it had not been made. The court instructed for a verdict, and a number of the magistrates were fined \$7.75 each. The result was that several magistrates in a neighboring township resigned their offices.

THE STAR OF EMPIRE.

IT SEEMS TO BE HEADED TOWARDS MURPHY.

The Latest News from North Carolina, Particularly Andrews and the Home of Mrs. Gould, Who Killed Her Husband and is to be Tried for It.

MURPHY, N. C., Sept. 6.—The extension of the Western North Carolina railroad through this county has given a new impetus to all the industries in the county. The grade of this road has been completed to a point within three and a half miles of Murphy, and a force of over one hundred and thirty convicts will complete the entire line to Murphy at an early day. All along the line of the road, from Jarrets, in Swain county, to Murphy, new enterprises are springing up in the way of marble quarries, tale mines, sawmills, near stores and residences.

Near Valleytown the railroad company have just completed one of the finest freight and passenger depots in the state and named the station Andrews in honor of one of the officers of the Richmond & Danville railroad, who lives at Raleigh. Col. Andrews was the land adjoining the station and the prospect for a live business town to be built up at an early date is good. The distance from Asheville to Andrews is about 120 miles and a mail and passenger train from Asheville runs to Andrews daily, which is the present terminus of the passenger traffic.

The farmers' alliance have a good showing in this county and will go a long way in shaping matters at the next fall. The republican claim to be in the majority in the county; but the democrats are hopeful. Both factions will put out a regular ticket and depend on the alliance men for their "daily bread."

Cherokee is a good farming county, much more so than you would ordinarily suppose; the mineral interest amounted to about half of its value. The farmers refer you to some of their lands that have been in cultivation for 42 years and now have fine crops of corn on them.

A new talc mine was discovered near the railroad track near Mr. Hyvatts and all the necessary machinery for developing the mine is now fully under way, and the owners will reap a rich reward for their effort. It is said other mines of the same class have been found on the line of the road.

It has been rumored more than once that the yellow fever has broken out in three of the gulf ports this year and if such is the case a goodly number of the refugees that will flock to Asheville will be at a premium, and all of the refugees that cannot find room in Asheville may be accommodated in Murphy.

Murphy right now is in the midst of a first class sensation and the next term of the superior court will have on its docket the trial of an ex-Indian princess for the murder of her husband. Your correspondent refers to the trial of Mrs. Lillian Gould who it is claimed, murdered her husband, Mr. Ludgate a wealthy descendant of a distinguished English family from the north of England. The New Herald has its stenographer in Murphy and it is said that the Herald of London will publish the proceedings of the Murphy court. If you are fond of a first class sensation in high life, do not fail to read all of the proceedings of the Ludgate-Gould murder case now on the docket for the next term of court in October next. You know who.

[As a matter of fact, we don't know who. Will our correspondent send us his name—not necessarily as a guarantee of good faith, but for publication if he so desires? And take notice, THE CITIZEN has lots of room for newsy letters like the above.—ED. CITIZEN.]

THIS MEANS BUSINESS.

There is only one mine in the whole state, says the Charlotte Chronicle, where a force of hands is kept constantly at work lifting coal to be put on the market. This mine that is the only one of its old name—Egypt—but in the last two years, it has become a thriving enterprise under the vigorous management of Samuel A. Henzley, who has touched this enterprise with the magical brand of money, brain and enterprise. The mine, in Chatham county, about midway between Greensboro and Fayetteville. It is near the Cape Fear and Yadkin Valley line of railway, and connected by rail with that road.

What an opportunity Cherokee has lost. The Murphy Bulletin says: Ourestimated friend, Prof. E. H. Olmsted, of Post Point, N. C., has just inquired of us to know the possibility of obtaining from 25,000 to 50,000 bushels of apples in a year in this section, saying that could this amount be secured, parties would establish a jelly manufactory in our State. We regret to know that an amount sufficient to justify such an enterprise could not be secured in this locality. If our yield is customary next season, there will be no difficulty in supplying such an industry.

There are about 600 factories and manufactories in North Carolina. Of these, 126 are of cotton and woolen. Alabama county leads as to cotton factories, having nineteen, while Randolph has fourteen, Gaston, eleven, Richmond eight, Cumberland and Mecklenburg six each, Forsyth leads as to other factories, having forty-two, mainly of plug tobacco, while Guilford and Wake come next each with twenty-one.

Civil Engineer M. O. Hankins, of the Richmond and Danville company, has been instructed to make three surveys for the extension of the road from Wilkesboro to Bristol, Tenn. Ashe and Alleghany counties are both making bids for it, and it is said that each have offered to vote \$100,000 if they can secure it.

It is now an assured fact that Rocky Mount has lost a tobacco market established in her borders. The season opened on the 22d of last August, and sales have taken place daily ever since. The sales of the two warehouses, Eagle and Farmers, average from five to ten thousand pounds.

The Cyclopedia Tale Mills of the Notia Consolidated Marble, Iron and Talc company, are running to their full capacity, and are producing the most superior quality of white talc ever known in this or any other country.—Murphy Bulletin.

The shipments of plug tobacco from Danville, the largest Virginia market, for the month of August amounted to 783,888 pounds while Winston's plug shipments alone amounted to 1,023,140 pounds.

A TERRIFIC COLLISION.

TWO TRAINS GOING AT FULL SPEED MET.

Only One Man Killed and Several Wounded—The Passengers Get a Disagreeable Shaking Up—No Cause Assigned for the Accident.

LOCKPORT, N. Y., Sept. 8.—At four o'clock this morning two North Shore trains, one going east, the other west, collided with terrific force on the Central track near the station in this city. The east-bound engine was telescoped by the engine of the western train and they now stand locked together with their smokestacks nearly touching.

By the force of the collision the tender of the engine of the east bound train was forced back over half its length into the Wagner baggage car and W. R. Fiedler, of New York city, was instantly killed. The tender of the other engine was also driven in a like manner into buffet car 413. The engineer of this engine, Edson Bradley, of Syracuse, sustained a compound fracture of both legs and the fireman and Wm. Houston, also of Syracuse, received bad flesh wounds.

No other injuries of any account are reported, although the passengers of both trains were badly shocked by the force of the collision. As these trains do not stop at this station, the passengers were only saved by the square interlocking of the engines. Had the collision occurred but two or three rods to the east one train would have cut the other in two and the loss of life would probably have been appalling.

No explanation of the cause of the collision is given.

CLERGY AND CHURCH.

Rev. W. B. Oliver, of the Baptist church, of Fayetteville, received a call to the pastorate of the First Baptist church at Greenville, S. C., with salary of \$1,400 and parsonage, but declined, much to the delight of his congregation.

The Wilmington Messenger says that Rev. L. C. Vass, D. D., of New Bern has accepted the call as Evangelist of Fayetteville Presbytery extended him some time since.

The Lutheran church, of Monroe, will be one of the handsomest buildings in the place. It is a brick building, well lighted and ventilated, and covered with slate, and is certainly a credit to the members.

The corner stone of the Methodist church at Reidsville has been laid. Rev. Dr. Dixon, of the Greensboro Female college, and Dr. Peterson, of Danville, delivered addresses. The sum of \$800 was collected.

AFFAIRS OF CONSEQUENCE.

HOME.

George William Brown, ex-Chief Justice of the supreme bench of Baltimore, 75 years old, died in Mohonk, N. Y.

Speaker Reed anticipates a majority of 1,000 in his district, although his friends feel confident that it will reach 1,500.

There have been 1,770 ballots taken in the democratic congressional convention at Memphis, Tenn. Balloting was resumed to-day.

At the Bangor, Me., state fair, the station Nelson lowered the world's trotting mile record over a half mile track by one-quarter second, going a mile in 2:15 1/4.

The president has been compelled to abandon the contemplated visit to Toledo, O., on the occasion of the exercises of the society of the army of the Cumberland.

The census office gives the total population of Vermont as 331,205, a decrease in ten years of 81. The population of Louisville, Ky., is 161,005, an increase of 37,247 in 10 years.

The Chicago Evening Journal says: "The Central Georgia and East Tennessee have purchased the Louisville, New Albany and Chicago road, the Monon route, and made it part of their great southeastern system." This President Inman denies.

Great Blondin and all other tight rope walkers were outdone Saturday afternoon by a man named Dixon, a resident of Toronto, who walked a cable seven-eighths of an inch in diameter stretched across Niagara gorge between the suspension and cantilever bridges. Dixon's apparent recklessness on the wire was such that women who were watching him faint.

Near Spokane Falls, Wash., Saturday, one blast of powder had been put in to blow up rock in the Northern Pacific freight yards in the eastern part of the city. In putting in the second charge it exploded and the iron set off the first blast. Between fifty and seventy-five men were at work and 25,000 cubic feet of rock was thrown upon them. Fifteen have been taken out dead, a large number injured, and 27 others are yet confined in the debris.

On the Denver and Rio Grande railroad, near Adole, Saturday, a train was running in two sections. The first section two day coaches loaded with laborers, became derailed some four miles below Florence. The second section dashed into them, completely mashing two coaches, injuring from thirty-five to forty men and killing a number outright. The bodies of five have been recovered and twelve men are still missing. All of the men were Italian laborers just from New York.

FOREIGN.

It is estimated that 45,000 persons in Prague have been rendered destitute by the flood and there are thousands more sufferers in the flooded districts.

Count Herr Bismarck has had a secret meeting with the emperor and promised to use his influence with his father to cease his revelations and return to friendship with his majesty. The emperor declared his readiness to resume friendly intercourse with the ex-chancellor.

The Statesville Landmark has this additional news regarding the "glutton" that is ravaging that district: "Uncle Curt confirmed in every particular the report in the Landmark last week about his estimable wife's adventure with this strange beast, and made this addition to it: that after she had jobbed it the fifth time with the white oak stick it ran out from under the house, waked its eyes at her and tuck down toward the branch. He says it may be a lion, as many suppose, but its track features a bear's track. Has seen bears in Tennessee." The governor ought to call out the militia—or the editor of the Wilson Mirror.

MISCELLANEOUS.

ANTIMIGRAINE.

—THE—

NEVER FAILING CURE FOR HEADACHE.

TRADE MARK REGISTERED.

ABSOLUTELY SAFE, PERFECTLY SURE AND ALWAYS SPEEDY.

Cures Every Variety of Headache AND NOTHING ELSE.

Has earned for itself the enviable reputation of being the finest, most effective and reliable article in the market for the speedy relief and cure of every variety of that common trouble, HEADACHE. The immense favor which has greeted it from all quarters, proves its true merits and acceptability to the public. It is something which almost everyone needs, and those who have once tried it, will never be without.

For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTIPIRINE, MORPHINE, CHLORAL AND COCAINE, Since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.

The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

DIRECTIONS FOR USE.

The dose for an adult is two teaspoonfuls in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of Headache, if taken when first feeling the premonitory symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.

For sale at
GRANT'S PHARMACY.
