This insures you perfectly fresh and wholesome goods at prices that we guarantee to be as low as they can be bought in any market.

Respectfully,
POWELL & SNIDER,
Cor. Patton Avenue and Main Street.

THE NEWS!

BY ASSOCIATED PRESS TO THE CITIZEN TO-DAY.

WIND UP OF DEBATE ON THE TARIFF BILL.

REPUBLICANS VOTE A LITTLE WITH DEMOCRATS.

A RECIPROcity AMENDMENT ADOPTED.

WASHINGTON, Sept. 9.—In the senate to-day the house bill to extend for two years the redemption of school farms in Beaufort county, S. C., passed and the tariff bill was taken up—the pending question being on Senator Gibson's amendment to reduce the sugar tariff from 80 degrees by polariscope to 76 degrees. Senator Edmunds inquired whether the understanding made as to voting on the amendments without debate would prevent a senator in offering an amendment from stating, not to occupy more than two or three minutes, its object or whether it would prohibit the asking or the answering of a question.

The presiding officer (Senator Ingalls) said: "Unless the chair be otherwise instructed by the senate he will hold that the understanding is that, beginning with the consideration of the bill this morning the action of senate will be without debate; and that asking or answering an inquiry would be debate, and is therefore, inhibited."

Senator Edmunds: "I do not think that it ought to be that way, but I can bear it as well as the rest."

Senator Gibson offered two other amendments to the sugar section which were rejected.

Senator Carlisle moved to strike out of the sugar section all the paragraphs relating to a bounty. Rejected; yeas 23; nays 34—a party vote.

Senator Gibson moved to strike out of the sugar section and to substitute for it the sugar clauses of the Mills bill. Rejected; yeas 25; nays 35.

Senator Eustis moved to insert in the provisions in the sugar schedule that a bounty shall apply to all sugar produced in 1890. Rejected.

Senator Pasco moved to amend the paragraph relating to oranges by fixing special rates for oranges imported in December, January, February or March. Rejected.

Senator Pugh stated that he had been recorded erroneously in the vote on hides last Friday. He had voted in the negative, not in the affirmative.

Senator Gorman moved to reduce the duty on bicarbonate and chromate of potash from 3 to 2 1/2 cents per pound. Rejected.

Senator Aldrich moved to insert a proviso that imported merchandise deposited in any public or private bonded warehouse prior to August 1, 1890, may be withdrawn for consumption at any time prior to November 1, 1890, on payment of the duties in force prior to the passage of this act.

Senator Plumb as a substitute for Senator Aldrich's amendment the proviso that goods on hand at the time of the taking effect of this act may be withdrawn therefrom at any time within one year from that date on payment of the duties existing at the time of their importation. Rejected—yeas 28, nays 34.

Senator Gorman moved to insert in Senator Aldrich's amendment the 30th of September for the 1st of August. Rejected.

Senator Plumb moved to insert the 1st of January 1891 instead of the 1st of November 1890. Rejected.

Senator Aldrich's amendment was agreed to; yeas 32, nays 27.

Senator Edmunds moved on behalf of the committee, the reciprocity amendment proposed by him September 1, and accepted with a verbal modification of it suggested by Senator Hoar.

Senator Everts moved as a substitute for it an amendment proposed by him at last night's session and which merely directs the president to communicate the facts to congress. Rejected—yeas, 23; nays, 34. All the democrats voted in the affirmative as did also Senators Dolph, Everts and Sanders, republicans.

Senator Edmunds also moved a modification of Senator Aldrich's amendment in a similar sense and it was rejected—yeas, 6; nays, 59. The six affirmative votes were given by Senators Cameron, Davis, Edmunds, Frye, Paddock and Plumb.

Senator Edmunds moved to strike out of Senator Aldrich's amendment the section directing the president without further legislation to declare the ports of the United States free and open to all products of any country of the American hemisphere upon which no export duties are imposed, whenever, and so long as the government of such country admitted to parts thereof, free of all natural, provincial, municipal and other taxes, flour, corn meal, preserved meats, fish, vegetables, rice, lumber, agricultural implements, machinery, vessels, or boats of iron, steel or wood, products of the United States. Rejected by a party vote; yeas 26, nays 38.

Senator Aldrich's amendment was then adopted; yeas 37; nays 38. It reads that with a view to secure reciprocal trade with the countries producing the following articles, and for this purpose whenever the president shall be satisfied that the government of any country producing and exporting sugars, molasses, coffee, tea and hides, raw and un-cured, or any of such articles, imposes duties or other exactions upon the agricultural or other products of the United States which, in view of the free introduction of such sugar, molasses, coffee, tea and hides into the United States, he may deem to be reciprocally unequal and undesirable, he shall have power, and it shall be his duty to suspend, by proclamation to that effect, the provisions of this act relating to the free introduction of such sugar, molasses, coffee, tea and hides, the production of such country, for such time as he shall deem just, and in such case and during such suspension, the duties above mentioned shall be collected and paid upon the sugar, molasses, coffee, tea and hides, the product of, or exported from such designated country as follows, namely: All sugars not above No. 13, Dutch standard in color, shall pay a duty on their polariscope list as follows, namely: All su-

gars not above No. 18, Dutch standard in color, all tank bottoms, scraps of cane juice, of beet juice, melacha, concentrated melacha, concrete and concentrated molasses, testing by polariscope not above 75 degrees, sevenths of one cent per pound and for every additional degree or fraction of degree shown by polariscope test two hundredths of one cent per pound additional; sugars above thirteen Dutch standard in color shall be classified by such standard of color and pay duty as follows, namely: all sugar above No. 13 and not above No. 16, Dutch standard of color, one and three-eighths cents per pound; all sugar above No. 16 and not above No. 20, Dutch standard of color, one and five-eighths cents per pound; all sugars above 20, Dutch standard of color, two cents per pound; molasses listing above 50 degrees four cents per gallon, sugar draining and sugar sweepings shall be subject to a duty either as molasses or sugar as the case may be according to the polariscope test; coffee three cents per pound; on ten cents per pound; hides, raw or un-cured, whether dry, pickled or pickled, Angora goat skins raw without wool, unmanufactured asses' skins, raw or unmanufactured skins, excepting sheep skins with the wool on, one and one-half cents per pound.

The two democrats voted against Senator Aldrich's reciprocity amendment and only two republicans—Senators Edmunds and Everts. Senator Aldrich offered an additional section providing that the sugar schedule and bounty paragraphs shall take effect the first of March 1891 and that, prior to the 1st of February 1891, sugars may be refined in bond without payment of duty. Agreed to.

A DOUBLE BIGAMINT.

He Had Married in North Carolina, South Carolina and Georgia.

ATLANTA, Sept. 9.—The history of J. F. Hawley, a double bigamint, begins with his marriage into a respectable family in North Carolina. Hawley lived with this wife about one year then skipped.

The next chapter concerns his marriage to a very estimable young lady in South Carolina. He lived with this wife about a year then skipped again.

His next marriage was in DeWitt county in this state. This wife died suddenly and Hawley was suspected of having poisoned her. The evidence was not sufficient to convict him. The investigation brought out the fact, though, that Hawley had a living wife in South Carolina, and this in turn brought out the fact that he had a living wife in North Carolina. He was tried in Georgia and sentenced to four years for bigamy.

His time was up yesterday, and as soon as he was released he was arrested upon a warrant from South Carolina. The queerest part of the whole thing is that Hawley, anticipating no further trouble for his past misdeeds, had made his preparations by correspondence for another courtship and marriage. Just how the correspondence began does not appear.

Hawley was taken by an officer to Burlington, S. C., where he will be tried.

A CITY WARDEN KILLED.

Life Hood Spilled For a Disreputable Woman.

BIRMINGHAM, Ala., Sept. 9.—City Warden Thomas Bennett and William Hardeman, a locomotive engineer, got into a dispute about a disreputable woman, Fannie Corbett, yesterday. Bennett proposed they fight it out, and drew two pistols from his pocket and handed one of them to Hardeman. The next instant Bennett fired five times and Hardeman twice. His second ball struck Bennett's heart, killing him instantly. Hardeman was struck in the right arm by one of Bennett's shots, but is not seriously hurt.

Both men have entertained an enmity toward each other for some time. Bennett was a married man with several children, and Hardeman is an unmarried man about 30 years old. Bennett was a great favorite and quite a power in local politics, was a labor leader and had as large a following as any man in the city.

Hardeman is in jail. He is a member of a prominent family of the city, his father being the head of a large contracting firm. He has been wild for several years.

ASHEVILLE LEADS.

Knoxville Ladies Imitate their Sisters of North Carolina.

KNOXVILLE, Sept. 9.—The servant girl question is causing the housekeepers of Knoxville much trouble. A meeting was held yesterday afternoon to devise ways and means to remedy the evil. No definite decision was reached, but committees were appointed to correspond with the Castle Garden authorities and see if German, Swedish or Swiss girls could be had. Another meeting will be held next Monday.

HE'S NOT COME BACK.

A Plucky Passenger on a Robber's Trail.

AUBURN, Cal., Sept. 9.—The Georgetown stage was stopped yesterday near Greenwood while on its way to Auburn, by a masked highwayman and robbed. He secured the Wells-Fargo express box, but it is not known how much the box contained. One of the passengers, named Thomas Steven, borrowed a gun and started after the robber but with what result is not yet known.

Not To Be Killed That Way.

NEW YORK, Sept. 8.—A baby carriage which was being rolled by two boys on the roof of No. 203 South Fifth avenue, broke away, and with its two-year-old occupant, fell five stories this afternoon. The carriage remained upright and fell on a pile of rags in the street where it was shattered. The baby was bounced up and was caught in the arms of a young man standing near. It was not injured.

Not Much of a Fight.

DOVER, Del., Sept. 9.—The republican state convention met in the court house here today. The indications are that there will be no contestants and that H. A. Richardson, of Dover, will be nominated for Governor and Henry P. Cannon for congress by acclamation.

Once United States Senator.

LANSING, Mich., Sept. 8.—Judge Christman, ex-United States senator and minister to Peru is dead after a lingering illness.

THEY TRIED TO MURDER.

STILL ANOTHER ATTEMPT AT TRAIN WRECKING.

When the Flagman Tried to Remove the Obstructions He Was Shot At—Train Wreckers Arrested.

POUGHKEEPSIE, N. Y., Sept. 9.—A desperate attempt was made last night to wreck the fast St. Louis and Chicago express, which leaves New York on the Central railroad at 8 p. m.

The train was stopped for a danger signal south of Old Troy, which is 500 yards south of New Hamburg drawbridge.

Two minutes previous the flagman discovered several ties standing endways in a culvert near Old Troy, and when he took hold of one of them to remove it he was fired upon from the bushes on the east side of the track.

Knowing that the fast express was nearly due he ran southward and set the danger signal, which stopped the train. The flagman said the ties stuck above the rails and would have certainly thrown the train from the track.

The fast train was composed of seven or eight sleeping cars, all full, two ordinary passenger coaches and a baggage car. There were also two ties placed alongside of the rail toward the south so as to ditch the train.

ALBANY, N. Y., Sept. 9.—John Reed and John Kierman, the former a Central Hudson brakeman and John Cordial, a freight conductor, are under arrest, charged with being concerned in the wrecking of a Montreal express near Greenbush last week. Reed was arrested first, and indications go to show that he made some disclosures which led to the arrest of the others. All were strikers and all Knights of Labor.

Maine is Republican.

WASHINGTON, Sept. 9.—Dispatches to the republican national committee assert that the entire Maine delegation to congress is re-elected. Milliken's majority is considerably reduced. Reed's majority is put at 4,300 and still growing, as successive reports come to hand. The majority for the state ticket is stated at about 13,000.

Big Distillery Burned.

LOUISVILLE, Ky., Sept. 9.—The Roach grain distillery at Uniontown, Ky., was burned yesterday with several thousand gallons of whiskey. Loss \$80,000; insured for \$45,000.

Against the McKinley Bill.

NEW YORK, Sept. 9.—The Tobacco Leaf Board of Trade has passed a resolution protesting against the McKinley bill, which they claim will have the effect of ruining their business.

ODD BUT READABLE.

There is a faithful hen at Taylor's Bridge that is fifteen years old, and is now hatching another brood of chickens.

The editor attended the district conference at Rabun Gap from Friday to Monday and as a natural consequence will not be fit for editorial work for a few days.—Franklin Press.

We have recently seen a turtle with a beautiful and variegated back in tints and colors. Lengthwise across it are the figures 333, surrounded by figures on the border resembling those of ladies.—Laurinburg Exchange.

Mr. J. E. Fortune, of South Clinton, killed a coachwhip snake last week that measured six feet and four inches. The platted portion of its tail was over three feet, says the Caucasian. Now what is the platted portion of a coachwhip snake's tail?

Messrs. Daniel Collins and Edgar Ferguson, while piling fence rails some few days ago, ran into a den of fifty-five snakes, three old ones and fifty-two young ones. They say like the Irishman: "One at a time my Lord.—Mingo correspondence Clinton Caucasian.

Mr. Lewis N. Isely, one of Guilford's best tobacco growers, has a double leaf of nice tobacco—that is two perfectly developed leaves on one stem, each leaf having an inside and an outside, and only separated from the stem about two inches from the point.—Greensboro State.

Mr. O. M. Fillyaw, the Market street grocer, showed us a curiosity in the shape of three hen eggs which had evidently been broken into and had grown together again. They were broken by the same hen and were all broken nearly around in the same place.—Wilmington Messenger.

The Greensboro Workman says Dr. Hatch Albright, of Chatham county, has a four-legged chicken. Two of the legs grow out from the back and do not touch the ground. The doctor bought the chicken from a neighbor and is to give a year's medical services in the man's family for the chicken.

Rev. J. R. Folsom brought into the office of the Mecklenburg Journal a curiosity in the shape of a corn cob fashioned like a perfect hand. The editor says the ear of pop corn was plucked at Bingham the last season, and when the corn was shelled from the cob there was revealed the perfect form of a child's hand, fingers and thumb complete. Another feature of interest in connection with this is that the thumb shows to be double-pointed, an exact counterpart of left hand of the little girl living on the place where the corn grew.

Mr. Charles Harris, of No. 2 township, brought to this office a cotton stalk, the boll of which, that is open, having only three bolls, are no more than an average size. There is not a trace of lint about the seed.—Concord Standard. Speaking of a like plant found in South Carolina a dispatch says: "The appearance of the plant is precisely the same as its lint-bearing fellows. Experienced planters say there can be no doubt that this growth can be developed into a distinct variety, and next year experiments will be made on a large scale. If these expectations are realized, the cultivation of cotton from the seed alone will be very profitable, and the cotton seed oil business will be revolutionized."

ANTIMIGRAINE.

—THE— NEVER FAILING CURE FOR HEADACHE.

TRADE MARK REGISTERED.

ABSOLUTELY SAFE, PERFECTLY SURE AND ALWAYS SPEEDY.

Cures Every Variety of Headache AND NOTHING ELSE.

ANTIMIGRAINE Has earned for itself the enviable reputation of being the finest, most effective and reliable article in the market for the speedy relief and cure of every variety of that common trouble, HEADACHE. The immense favor which has greeted it from all quarters, proves its true merits and acceptability to the public. It is something which almost everyone needs, and those who have once tried it, will never be without.

For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTIPIRYNE, MORPHINE, CHLORAL AND COCAINE.

Since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.

The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

DIRECTIONS FOR USE.
The dose for an adult is two teaspoonfuls in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of headache, if taken when first feeling the premonitory symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.
