This insures you perfectly fresh and wholesome goods at prices that we guarantee to be as low as they can be bought in any market.

Respectfully,
POWELL & SNIDER,
Cor. Patton Avenue and Main Street.

THE NEWS!

BY ASSOCIATED PRESS TO THE CITIZEN TO-DAY.

REPRESENTATIVE KENNEDY AT LAST BACKS DOWN.

"QUAY" AND "CRIMINAL" ARE STRICKEN OUT.

WASHINGTON, Sept. 15.—The speech of Representative Kennedy of Ohio, attacking the senate and Senator Quay, which created a sensation ten days ago, appeared in the Congressional Record yesterday morning, after having been revised by Mr. Kennedy. After declaring that Ohio has twice within a decade been disgraced by senators chosen "simply because they were able to outbid other contestants," there is this sentence: "Surely the cloak of senatorial courtesy has been used to hide the infamy and corruption which has dishonored and disgraced the body which was once the proudest in the land."

This is the only reference to the "cloak" of senatorial courtesy. The only changes made so far as Senator Quay is concerned, consist in the omission of the word "criminal," where it occurs in two places, and of the omission of all mention of Senator Quay by name.

In the house today Mr. McKinley, from the committee on ways and means, reported back the tariff bill, with the senate amendments, with the recommendation that the amendments be non-concurred in. Referred to the committee of the whole.

Mr. Enloe, of Tennessee, offered the following resolution:

"Resolved, That the clerk of the house of representatives be directed to communicate to the senate the fact that the house condemns the utterances of Hon. Robert P. Kennedy, delivered in the house September 3, reflecting upon the character and integrity of the senate as a body.

Mr. Dingley objected and at the suggestion of the speaker, Mr. Enloe withdrew his resolution for the present; and Mr. McKinley reported a resolution, for the immediate consideration of the tariff bill in the house.

The previous question on the resolution was ordered, yeas 116, nays 71.

Mr. Blount, of Georgia, protested against the resolution, contending that it was a purely an deliberation, and that the purpose of the order was to take the whole subject of taxation from the house.

HERE'S ANOTHER ONE.

Ex-Gov. W. E. Cameron Leaves the Republicans.

PETERSBURG, Va., Sept. 15.—The Index-Appeal has published an open letter from ex-Gov. William E. Cameron, of this city, addressed to W. S. Dashiell, of Richmond, Va., in which he says that he will no longer act with a party which is false to its promises, and is waging a crusade against the south.

GLORIOUS CLIMATE.

A Change of 65 Degrees in the Temperature in Wisconsin.

PALMYRA, Wis., Sept. 15.—The mercury indicates 65 degrees of a fall in the temperature within three days. There has been frost in this vicinity for the last two nights. Last week the heat was so severe that numbers of hogs in Sullivan township, a few miles north, died from sunstroke.

He Won't Suffer.

NASHVILLE, Sept. 15.—Frank M. Allen, under bond to appear in court on the charge of embezzling \$41,000 of the funds of the Capital City bank, of which institution he was teller, has succeeded in effecting a compromise of his shortage.

NO SMOKE.

Difference in Temperature Accounts for the "Phenomenon."

Gen. T. L. Clingman, who takes great interest in the mountains of western North Carolina, has been to see the smoking mountains discovered 11 miles east of this city. He returned Saturday. He says he spent Friday night and Saturday morning near the mountain and that Saturday, during the time the smoke is usually to be seen, he could see nothing of the kind. This was explained by some one living near the mountain, who said that a day after a rain no smoke could be seen. Gen. Clingman is at a loss to account for the reported unusual occurrence.

Col. J. D. Cameron also visited the mountain and ascended to the top. He says: "There was no appearance of smoke on this or any other peak. There is nothing whatever of a volcanic character in the phenomenon. The top of Watch Knob is crested with stratified gneiss rock, abounding in fissures extending probably to a considerable depth. The so-called smoke is nothing more than condensation of the escaping air at a different temperature. A test with a thermometer sunk in the earth failed to detect any rise of the mercury or to indicate any abnormal condition. There is no such excitement in the neighborhood as has been reported."

A Special Meeting.

A special meeting of the board of aldermen was held to-day at 12 o'clock to consider the advisability of granting a franchise to the Asheville Natural Gas and Mining company to carry on its operations in the city. The entire board was present. Mr. H. B. Carter offered an ordinance granting the privilege and read the same to the board. Objection was made, and an amendment, requiring the company to begin operations within twelve months, was offered and inserted. It will be brought up for its second reading at the regular meeting on Friday night.

Mr. J. A. Tennent, city building inspector, was authorized to take charge of the erection of the new city hall and market house. The contract will be prepared by the city attorney and work will begin as soon as the necessary arrangements are completed. Mr. Tennent's estimate as to the cost of the building according to the plans, is \$21,000.

FARMER EWART.

In Town To-day Selling Potatoes, Law Fees and "Bitch."

Congressman—soon it will be ex-congressman—Ewart was in town to-day buzzing around among his white republican friends. His hands were horny from intense work at his law books—plow. THE CITIZEN should have said; his hair was full of hayseed; long straws that showed which way the wind blew adorned his person at frequent intervals; and his \$3 suit of blue jeans—worn here and there by contact with attorney's fees—no, hoc-hue-dies, straw rakes and the old fashioned scythe—proclaimed him every inch the alliance-at-law or attorney-at-alliance, that he has ever been. Mr. Ewart was thin from hard work among his ducks which, he informed THE CITIZEN, absolutely refuse to take to water this year; but his cheeks—some of them only—was bronzed from contact with the sun that beams with great harsh beams among Mr. Ewart's squashes and callipers (Mr. Ewart called 'em) at his farm in Washington, D. C.—or thereabouts.

Mr. Ewart told THE CITIZEN that he was on Mr. W. T. Crawford's trail and would be glad to have a joint debate with him. He (farmer Ewart) says he did not intimate to Mr. Crawford, as THE CITIZEN was informed, that "he was willing to have a joint debate, provided Mr. Crawford allows him to make the appointments," but that he forwarded to Mr. Crawford a list of places and dates as suggestions merely to be rearranged by Mr. Crawford and himself when the two meet, which will be soon.

It was planned to be seen that Mr. Ewart is fearing that an early frost may get down his attorney fees and cut them down to so small a crop that they will not pay to cure.

Contemplating his possible bonning from the alliance he thinks he joined, Mr. Ewart says, that if that is done he will create a fuss as big as a load of hay about it and make the canvass of his district with an air of injured innocence beautiful to behold. In conclusion, Mr. Ewart invited THE CITIZEN down to his Hendersonville law pastures to see his flock—he called them—of Hambletonians. He says they will each shear 20 pounds of Australian wool this year and that they are far ahead of Berkshire for wool.

YOUNG MEN'S CLUB.

A Meeting to be Held To-morrow Night.

Mr. H. B. Carter, president of the young men's democratic club of this city, has a call in to-day's CITIZEN for a meeting of the members of that club in the court house to-morrow evening at 8 o'clock. The meeting is for the purpose of re-organizing the club which did very effective work in 1888. The convention of the state democratic clubs will be held in Raleigh, September 24 and 25, and Asheville will doubtless be represented. Prominent speakers both from North Carolina and other states will be present. Senator Vance has promised to be there and to make an effort to bring with him either Grover Cleveland or David B. Hill, governor of New York.

The Servant Problem.

The meeting which the ladies who have organized the society for the purpose of solving the "servant girl question" were to hold at the V. M. C. A. rooms Saturday, was postponed because of the inclement weather. The next meeting of the society will be held at the same place next Saturday at 4 p. m.

Mrs. M. Fitch, M. D., president of the society, has had a number of letters from servants with good references who have heard of the society and wish to come to Asheville to work under the new order of things that it is hoped by those interested will be established. These letters come from New York, New Jersey and Florida. The president wishes to urge the ladies to be present next Saturday.

Should Have a Good Audience.

To-morrow evening at the Lyceum Col. J. D. Cameron delivers his long expected essay on "The Poets of North Carolina." Col. Cameron touches nothing in the literary way that he does not know and in the present instance he will be particularly interesting, as he has thoroughly informed himself on the subject and found more material than even one pretty well acquainted with North Carolina literature would expect. THE CITIZEN bespeaks for Col. Cameron a large audience to hear his essay which is certain to be scholarly and thorough.

John Boyd Discharged.

John Boyd, who was arrested Saturday, suspected of being implicated in the shooting of Dr. J. E. Rogers last Wednesday night, was given a preliminary hearing before Justice Summey this morning. Jones & Shuford appeared for the prisoner and Solicitor Carter for the State. After hearing the evidence, Esquire Summey discharged the accused as he did not consider the evidence sufficient to bind him over.

NORTH CAROLINA FOLKS.

D. M. Barringer, a Philadelphia club man, a native of North Carolina, with his cousin, Prof. P. B. Barringer, of the University of Virginia, swam from Smith's Island almost to Chester, Pa., and return, a course of twenty miles. This beats the amateur record, either for this country or Europe.—News and Observer.

Durham county, the Recorder thinks, is as healthy a climate as her progress is solid. Last Friday Mr. May, who lives nine miles in the country, rode to the city horseback. He has followed the plow all summer, and is in his 82d year.

Mr. Asa Knight, a prominent and well known farmer of Guilford College, was found by his wife, Friday evening, lying on the floor in his room paralyzed. Dr. Davis was at once summoned, but expressed little hopes of his recovery. Mr. Knight is about 67 years of age, and a very robust man.—Greensboro Patriot.

Miss Rachel Hlythe, a Cherokee Indian, will enter a business college at Raleigh to learn short hand, telegraphy, etc. She is a very intelligent young woman and was educated at the Oxford Orphan Asylum.

An energetic old man, John Z. Falls, the founder of Fallston, Cleveland county, celebrated a few days ago his seventy-ninth birthday. To the feast of good things, his two children, grand children and friends were invited. He is a stout and active man for one of his age.—Shelby Aurora.

IT DRAWS ATTENTION.

COMMENTS ON THE LADIES' UNION.

Some of Them are Valuable and Some are Only Funny, But All are Well Meant—Eight Nights Per Week.

From the Wilmington Messenger.

It is becoming more and more apparent that negro labor is degenerating—becoming less reliable. Too much politics, a little education and a natural love of fun and frolic, with an inborn tendency to idleness, are making a certain proportion of the labor unsatisfactory.

The movement in Asheville among the householders to have an improved method of dealing with house servants and cooks is a necessary and important action, and we hope will lead to satisfactory results there, and thus prove a good example to other towns and communities. Year by year good cooks are disappearing, and reliable nurses are more difficult to find. Tidy and competent house servants will in a few years be a thing of the past if steps are not taken to improve labor and secure trained servants.

We notice that the Asheville movement among the women to secure better servants is attracting the attention of northern newspapers. Even the New York Tribune, the organ of radicalism, sees the necessity of such a step, and says it will meet with "widespread popular sympathy." It says:

"The servant girl problem is one of the vexing questions that modern civilization has thus far been unable to grapple with successfully. There is surely something to be gained by cooperation among the employers of servants, and the members of this class in Asheville have clearly taken one step in the right direction. The trouble with servants there, as in New York and elsewhere, is 'general incompetency and untrustworthiness.' The union of housekeepers formed in Asheville proposes to secure good servants and to fix schedules of wages. The long suffering housekeepers of the rest of the country will await with impatience the news of the progress of the experiment just begun in North Carolina."

If Asheville secures the end sought then other communities will be prompt to resort to the same measures of redress.

From the Winston Republican.

The ladies of Asheville have formed a housekeepers' union. The next thing in order will be an organization by the cooks. Then Greek will meet Greek and as a result, a tug of war regarding the kitchens.

From the Detroit Journal.

THE ASHEVILLE (N. C.) CITIZEN is not a new paper, but it has recently undergone a change of ownership and a change of heart as well, and it has begun a crusade that will land its editor in the home of the soul or place his name beside that of the world's greatest liberators. THE CITIZEN'S scheme is to settle the servant girl question for all time, and already one of the 33 articles would like THE CITIZEN to settle one matter: How can the average girl get out eight nights a week under the present system of reckoning time?

[That's an easy one. She goes out once every night; that's seven times. She goes out twice on, say, Sunday night—that's eight in all.—En. CITIZEN.]

For the Next Legislature.

EDITOR THE CITIZEN: Will you permit the friends of J. R. Dabuse and P. H. Folsom to ask them if they will accept the nomination of the democratic county convention, soon to convene in Asheville, as candidates for the next legislature? They will please answer through THE CITIZEN.

Respectfully,
LOWER HOMINY.
Acton, Sept. 9, 1890.

Attention, Democrats!

The members of the Young Men's Democratic Club of Asheville township are hereby requested to meet in the court house in Asheville at 8 o'clock, Tuesday evening, Sept. 15, 1890, for the purpose of re-organizing the club and making preparation for effective work in the pending campaign. Every member of the club and all other democrats are earnestly requested to be present.

H. B. CARTER,
President.
Sept. 15, 1890.

AFFAIRS OF CONSEQUENCE.

FOREIGN.

In the city of Valencia, Spain, there were thirty deaths from cholera Saturday.

Dr. Koch, the German physician, who claims that he has discovered a method of curing consumption by inoculation, is about to commence experiments on human patients who are suffering from tuberculosis.

HOME.

New York importers are executing the McKinley tariff bill.

The population of Nevada has decreased by 17,935 since 1880.

The friends of Governor Hill are said to be pleased at the trouble of printing the official ballots, Governor Hill having specially opposed that feature of the new ballot law.

Ex-President Andrew D. White, of Cornell University, was married in Philadelphia to Miss Helen Magill, daughter of ex-President Magill, of Swarthmore college.

Joseph Bell, aged 77 years, died suddenly of apoplexy in Cincinnati. He was distinguished as a builder of machinery and for being the first to take a steamboat across the Gulf of Mexico. He introduced steamers in the rivers of Mexico.

Among the New Yorkers who went to Far Rockaway to see the first trial of the new ballot law were many politicians, but no ballot reformers. The new voting system worked well, notwithstanding the illiteracy of the laymen and fishermen, who comprise a large proportion of the voters.

It is a risky thing to receive into the bosom of the family a long lost son who has no straw-bermy mark to identify him. A Pennsylvania farmer has been victimized by a clever sharper, who personated the returned prodigal long enough to eat the fattened calf and secure \$5,000 in cash. Then he lost himself again.

MISCELLANEOUS.

ANTIMIGRAINE.

—THE—
NEVER FAILING CURE FOR
HEADACHE.

TRADE MARK REGISTERED.

ABSOLUTELY SAFE, PERFECTLY SURE AND ALWAYS SPEEDY.

Cures Every Variety of Headache AND NOTHING ELSE.

ANTIMIGRAINE Has earned for itself the enviable reputation of being the finest, most effective and reliable article in the market for the speedy relief and cure of every variety of that common trouble, HEADACHE. The immense favor which has greeted it from all quarters, proves its true merits and acceptability to the public. It is something which almost everyone needs, and those who have once tried it, will never be without.

For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTI-PYRINE, MORPHINE, CHLORAL AND COCAINE, Since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.

The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

DIRECTIONS FOR USE.
The dose for an adult is two teaspoonfuls in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of Headache, if taken when first feeling the preliminary symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.

For sale at
GRANT'S PHARMACY.

WHITLOCK'S,
