Bonding and Paving.

The proposition made by Mr. Lewis Maddux as to the paying of streets away from the centre of the city at the expens to the taxpayers of one-half its cost, the city paying the other half, is not amcommon elsewhere. In our experience, how ever, the whole of the first cost was borne in full by the abutting propert owners, the city thereafter keeping the street repaired. In such cases no paying is done unless a majority of the interested property owners petition to that effect This plan, like every other one planner by finite beings, is likely to: be almsed "Repairs" are sometimes held to mean an entire new pavement, at the general expense of the city, except six inches : so on each side; and there are other

The matter of establishing a grade of the different streets, reterred to by Mr R. R. Rawls in vesterday's CITOEN, is also important. Some fine residence are to-day going up in Asheville, the value of which will be greatly resented in a grade is sometime established where t should be. The matter has been men lected too long already.

THE CETZEN believes that a great to jority of the taxpayers would taxbonding the city for a good round sur if assured that they were to get the lan fit of it, as Mr. Graham suggests, with three years, and it also they were as sured that these much needed improve ments were going to be done on an inteligent plan that would show that the money lead been indicionsly extended. dab of paying here, some curbing there good sidewalk semi-accionantly do no form a plan of improvement that true economy could recommend; but it o about what there is now to show for

In 1888, Mr. L. Knott, of Vance county, bought 600 acres of land near here in Nash for \$3,600. It was all, or nearly, virgin fresh. His first year's to-baceo crop—from 30 acres—more than paid for the whole purchase besides paying all expenses for making the same. This year his profits on less that fifty acres will be over \$10,000. This is not overdrawn, and the information comes from Mr. Knott himself. Better tobaceo lands even than this already cleared and in three miles of the depot on the Wilmington and Weldon main line, can be had for \$10 an acre at least.—Rocky Mount correspondent News and Observer.

Theodore Child's series of papers on South America, now being published in Harper's Magazine, is attracting wide attention not only on account of the freshness and timeliness of the articles, but also because of the valuable character of the information which they contain, and the evident good judgment which controlled the writer while making and recording his observations. The second article, which appears in the Magazine for October, is entitled "Agricultural Chili," It contains an account of a visit to the agricultural provinces of that country, describes the Chilians' methods of farming, irrigation, wine culture, etc., and states some interesting ture, etc., and states some interesting facts regarding immigration, labor, and wages. First. The democrats of the severa

townships are carnestly requested to meet at the usual voting place of the township not later than 10 o'clock on the morning of Saturday, the 27th of this month. The democratic executive committee will select two good democrats to act as judges of, and to conduct, the election. In the absence of the executive committee or a failure to act on their part so, soon on the morning of the said election as six democrats shall arrive they shall proceed of the said election. at once to elect the two judges provided for, whose duty it shall be to provide a box or other means for voting. After the box or other means shall have been provided, each and every democrat or other voter pledging himself to sup-port the nominees of the democratic party, shall be allowed to east one vot for a candidate for each of the county offices and one vote each for two candi-dates for the legislature. The votes may

be either written or printed on one piece of paper or separately as the judges may determine before the voting begins.

Second. The polls should be kept open from 10 o'clock a. m. till 5 o'clock p. m., or later if the judges think it advisable. or necessary, to give every voter in the township who desires to do so an oportunity to vote. Third. While the election of candidates

for the various offices is being proceeded with each voter shall also be allowed to vote for delegates to the county conven-tion who shall be in number one delegate for every twenty-five democratic votes and fractions of fifteen or over cast for Governor Fowle in the last preceding election. The several townships and pre-cincts will therefore be entitled to select following number of delegates re s; cctively:
