A NEW YEAR'S GREETING.

Now that the rush incident to the holiday trade has partially subsided, and the proprietors of the Crystal Palace have a short season in which to breathe; now that the heavy demands of Santa Claus have been fully met; now that the young, the middle aged and the old, as well as the already happy bride and groom have been made happier still by the reception of some handsome present purchased at the Crystal Palace; now that the people of Asheville have fully shown their appreciation of our efforts to place in their midst a first class china store in every detail, we take this occasion to thank each and every one of our friends and customers, and we wish for all a bright and happy New Year. Now, if well directed energy coupled with money can do it, we promise to make the Crystal Palace in 1891 second to no house of its kind in the South

GOV. FOWLE'S MESSAGE.

EXTRACTS OF INTEREST TO NEARLY EVERYBODY.

A Long List of Recommendations and Some Information of a Kind that should be Widely Known and Pondered On.

The following are extracts from Gov. Fowle's message:

North Carolina's debt is practically \$3,219,100.

As the state receives \$180,000 a year from the North Carolina railroad, after the payment of interest on the \$2,720,000 six per cent. bonds, I recommend that the residue be invested in these bonds.

The treasurer's receipts for 1888 were \$723,306.45, and expenditures were \$819,029.02. The receipts for 1890 were \$976,761.31, and disbursements were \$1,183,303.76.

The estimated value of the property in the state is \$227,000,000, being a gain of \$10,000,000 within the last two years. There will be no necessity of an increase of taxation, if we can obtain a fair valuation of lands on a cash basis.

As a new assessment is to be made this year, provision should be made for a board to equalize taxation. This might be done by an assessment by the county commissioners, which should be revised by a board consisting of the state treasurer and auditor and one state assessor appointed from each congressional district.

The legislature should compel the school to be kept open the whole term of four months, and a law should be passed allowing any township to increase its own taxation and maintain its schools even for a longer period. The school district or township that taxes itself should be credited in the state tax educational purposes with the amount it raised for that purpose.

The resources of the penitentiary have been \$113,069.98, and its assets and earnings \$202,300.46, there being a balance in favor of the institution of \$89,230.48.

The department of state has issued 1,453 grants, covering 134,000 acres of vacant public lands.

Swamp lands have been sold to the amount of \$56,000. In regard to the land titles I recommend the repeal of the provision exempting married women from the operation of the statute.

I recommend that insurance companies should make a deposit of our state bonds to secure their policy holders.

I recommend making an ample appropriation of not less than \$25,000 for an exhibit at the world's fair.

The children of school age number 586,688; the number enrolled is 332,533, and the average attendance 203,100.

I recommend that a committee be appointed by the legislature to visit the university and ascertain what is needed to make it efficient, and maintain it as an institution of the first order of excellence.

I urge the establishment of a training school for teachers.

The Agricultural and Mechanical college now needs an appropriation of \$25,000, and for 1892 an equal amount, and after that an appropriation of \$10,000. I recommend these appropriations.

I recommend that provision be made for the employment of the convict in making jute bagging, which will not bring their labor in competition with other labor, and will be of advantage to the farmers in lowering the cost of that article.

I recommend the establishment of a reformatory department, in connection with the penitentiary for young criminals.

A QUAY MAN.

And He Was of the Quay Kind of Things, Apparently.

PHILADELPHIA, Jan. 10.—A special from Meadville says: "G. W. Delemeter, late republican candidate for governor, was this afternoon summoned before Alderman Dougan, charged with embezzlement of \$30,000 of the county funds, having received as a banker deposits of the county treasurer while knowing himself to be insolvent.

A complaint was read and a plea of not guilty entered and a hearing was waived. Bond was given in \$10,000. Delemeter's liabilities are \$1,040,000, and the assets about \$300,000.

GREAT DAY FOR SPEECHES.

Parnell and His Followers on the Way to Limerick.

DUBLIN, Jan. 10.—Parnell, accompanied by several of his trusted lieutenants, has arrived here on the way to Limerick, where to-morrow they are expected to make one of the most memorable addresses in the history of Irish politics.

Over a dozen special trains will convey crowds of people to the meeting place at Limerick. Strong detachments of police are being sent there in anticipation of a disturbance of the place.

HEAVY SNOW STORM.

It's in Illinois and Benefits the Wheat Generally.

MONTICELLO, Ill., Jan. 10.—The heaviest snow storm of the season has been raging for the last twenty-four hours, and the fall of snow throughout Central Illinois will be the largest for years. The wheat crop will be greatly benefited. Telegrams show that the storm is general throughout a large portion of the state and that the benefit will be widespread.

AT WASHINGTON.

Congressman Fowler says he would accept the democratic nomination for governor of New York.

Senator Edmunds made an ineffectual attempt to rally the republican line in support of the force bill.

The two Idaho senators, who voted to "side-track" the force bill, are said to have been whipped into line.

A meeting of colored men was held in Washington and resolutions adopted demanding the passage of the federal election bill.

Naval officers regard Secretary Tracy's letter reprimanding Commander Reiter as an important definition of their duties and powers.

In the United States senate, after a long discussion it was decided to close general debate on the financial bill next Tuesday and to take a vote on the bill before adjournment on Wednesday.

NO HARVESTER COMBINE.

It Could Not Be Effected and so Prices Will Not Go Up.

CHICAGO, Jan. 10.—President McCormick furnishes the Associated Press with the following statements:

The American Harvester company, after securing the opinion of eminent counsel from different states, has been brought face to face with grave legal obstacles to the consummation of the enterprise for which it was formed. These are of such a character that the conclusion has been reached that the whole undertaking must be abandoned.

A STATE'S TWO GOVERNORS

NEBRASKA HAS ONE OFFICIAL TOO MANY.

A Clash of Authority Results of Course and the Results May Be Serious—A Cold Day for Thayer.

LINCOLN, Neb., Jan. 10.—Ex-Governor Thayer applied to the supreme court for a quo warranto, restraining Governor Boyd from exercising the functions of his office. Judge Maxwell stated that he believed Boyd to be governor and refused the writ.

Governor Boyd's first official act was to approve the bonds of the newly elected state officers.

This afternoon, telegrams were received stating that an Insular outbreak would take place in the northern part of the state to-morrow, and asking that the militia be placed at the front to repel the attack. Governor Boyd ordered Adjutant General Cole to make preparations for the outbreak, but Cole refused to obey, stating he would take orders from Governor Thayer only.

The office of adjutant-general was then declared vacant, and soon after Gov. Boyd appointed Gen. Victor Vilquinain to the position. The state forces on the frontier now have two commanders, and it is impossible to tell which they will obey.

The janitors of the state house have gone over to Gov. Boyd and it is said that the gas and steam will be turned off in Gov. Thayer's office.

Gov. Boyd says he has been legally elected and qualified and intends to act at all hazards. He issued a requisition for a prisoner to-day and performed other official acts.

A DEMOCRAT NAMED.

Wonders Will Never Cease Under Harrison's Administration.

WASHINGTON, Jan. 10.—The secretary of war has appointed Gen. Chas. W. Field to the place made vacant in the war records office by the recent death of Gen. C. M. Wilcox. Gen. Field was a distinguished major-general under Robt. E. Lee, in the army of Northern Virginia throughout the war. For a long while Mr. Field was the democratic door-keeper of the cotton.

King Cotton's Report.

NEW YORK, Jan. 10.—Total visible supply of cotton for the world is 3,446,662 bales, of which 2,942,862 are American, against 3,210,826 and 2,784,426 respectively last year. Receipts at all interior towns, 106,924 bales; receipts at plantations 104,884; crop in sight 3,052,392 bales.

A \$950,000 Extension.

WASHINGTON, Jan. 10.—Senator Stanford has introduced a bill providing for an extension of the executive mansion in accordance with the plans suggested by Mrs. Harrison at a cost not to exceed \$950,000.

Isolating Consumptives.

EDITOR THE CITIZEN.—Your excellent editorial about the propriety of isolating consumptives and thereby preventing a spread of the disease, is to the point, and if the liability of consumption from infection is as great as some people think, the isolation of tubercular patients should be demanded promptly. Dr. Leaming, a lung specialist of long experience in New York, says he never knew of a case of consumption either among nurses or others from contagion. While Dr. von Ruck, of Asheville, expresses his belief that the disease is infectious under certain conditions, the occurrence by infection is rare. On the other hand, the writer has personal knowledge of a case of consumption which was clearly acquired by infection pure and simple right in the city limits of Asheville.

A SNOWY, COLD OLD WORLD

THE SEVENTH WEEK OF FROST IN ENGLAND.

Italy Covered With Snow and Much Suffering Caused—Hospitality Filled—People Starving—Ten Thousand Workmen Out of Employment.

LONDON, Jan. 10.—It is now the seventh week of the prevalence of frost throughout the United Kingdom, with no signs of the abatement of the severity of the weather. From John O'Groat's house to Lanes End the country is wrapped in snow, and canals and streams are ice bound. Numerous deaths have resulted from the extreme cold, several of them at the very gates of workhouses, where groups of poor people were waiting for shelter. The Midland newspapers declare that thousands of persons in that region are in a condition of semi-starvation.

In northern Italy snow began to fall Wednesday and did not cease till to-day. The inhabitants of that region are suffering acutely, such weather being entirely unknown to them.

At Marseilles the hospitals are filled with sufferers from various affections caused by the cold weather.

The coasts of Belgium, Holland and North Germany are blocked with ice.

At Antwerp ten thousand workmen have been thrown out of employment, owing to the unusually severe weather.

JUMPED FROM A TRAIN.

Horace Condrey, While Under the Influence of Liquor, is Killed.

Horace Condrey, of Old Fort, was killed by a fall from a train on the Western North Carolina railroad yesterday afternoon.

Condrey was in the second class coach of the east bound passenger train No. 12, on his way to Old Fort. He was under the influence of liquor, and in some manner his hat fell from the window of the car.

The train at the time was near Mud Cat, and running at a rate of about twenty-five miles a hour. Condrey at once ran to the door of the car, got onto the platform and without speaking to anyone jumped from the train. He alighted on his head, and it is supposed his neck was broken. The wheels of the cars did not touch him. He was dead when the trainmen went to him, which they did as soon as the train could be stopped. The body was taken to Old Fort.

The Sugar Trust.

NEW YORK, Jan. 10.—Judge Pratt this morning vacated the order appointing a receiver for the sugar trust, and directed that the company be handed over to the reorganization committee.

THIS MEANS BUSINESS.

Webster Herald: Mr. Ashbaugh, a manufacturer of crockery ware, is here for a northern syndicate to investigate the quality and quantity of our kaolin properties with a view to locating works for the manufacture of crockery ware in Western North Carolina should his report be favorable.

Statesville Landmark: The company organized under the laws of the state and under the name of "The Statesville land development and manufacturing company." The articles of incorporation were filed and the organization took its place among those agencies which are already at work for the development and advancement of the interests of Statesville and the surrounding country. The officers are as follows: President, B. F. Long; vice president, I. P. Caldwell; treasurer, Wm. Wallace.
