Advices from Naples report the death of two persons from cold. The Italian rivers are encumbered with ice. The roof of a school for boys at San Demitro gave way beneath its burden of snow and the whole mass went crashing into the school room below. Twenty-two pupils were more or less seriously injured. On the frontier near Geneva a man was frozen to death. Several vessels have been wrecked in the bay of Biscay and a number of lives lost.

The gales throughout Europe are the severest in thirty years. PARIS, Jan. 19.—During Saturday and yesterday the most intense cold of the winter was experienced throughout Prance. A woman was found frozen to death in her bed at Epinal, where the thermometer indicated four degrees be low zero. Slight snow falls are reported from the Riviera.

This is one of what are known as the "dressed beet cases" arising out of state legislation having for its object the re-striction of the sale of meats by firms loated outside the state in which the neats are offered for sale. The statutes of Virginia make it an offence to offer for sale fresh meat slaughtered more than one hundred miles from the place of sale unless first inspected, a provision for which is made on petition of not less than twenty persons, the compensation to the inspector to be one cent per pound. It was contended that this law was an interference with interstate commerce and therefore uncon-stitutional and yold.

The court, in the opinion of Justice Harlan, sustains this contention and affirms the judgment of the lower court ordering Rebman's release.
