PHIA VESTERDAY.

The marriage took place at 1 o'clock at Willing's residence, 511 South Broad street, and only the immediate family of Mr. Astor and Miss Willing and a few intimate personal friends were present. A few moments before the hour set for the ceremony Rev. Dr. Wm. Neilson Mc Vickar, rector of the Protestant Episco pal church of the Holy Trinity, this city entered the drawing room, taking his place before the floral Chancel. Immediately after Dr. McVickar bad taken his place, Astor and his best man, Lispenard Stewart, preceded by the ushers entered

The ushers ranged themselves in front of the improvised chancel and formed the passage way with silken cord. Then, proceeded by her six bridesmaids, Miss Willing, leaning on the arm of her father entered the room. Miss Willing wore a white satin dress and from her head flowed a long veil of ex

Her other ornaments were diamonds most of which were gifts of the Astor family and of almost priceless value. procity With the United States. TORONTO, Ont., Feb. 18, 1891.-Th Mail has made inquiries in nearly ever constituency in Ontario with the view of eliciting impartial opinions as to the probable result of the elections in that province. From one conservative count comes the statement that the prospects are good for the government; from an-

other, that "there is no desire to change flags," and from a third that "Sir John will no doubt hold the fort," Doubtful constituencies send in reports like these: "A great many thoughtful people think the government will suffer heavy losses;" "the government majority will be greatl Possibly the most significant summar

of the situation is contained in thes "Unless Sir John Macdonald can giv the people some more positive assurance intends to adopt more liberal relations with the United States, he is almost certain to lose the country, which has always gone with bim."

This is a keynote of a great many of the responses. The tendency of the replies, taking them as a whole, is decidedly favorable to the liberals.

THE BAD AND THE GOOD.

in Legislation. WASHINGTON, Feb. 18 .- There is going to be a grand struggle for recognition during the last six days in the house. Under the rules the last six days of the present Congress are devoted to consider-ation of bills under a suspension of the rules. Every member has one or more measures he is anxious to get through Some of them are meritorious and others are not, but as a general rule combina-tions are made so that the bad and the good have to go hand in hand to secure successful action. Those members who are to go into retirement after the 4th of March are especially anxious to get action on pet measures they have worked upon for many years. They realize that this will be their last chance, and some teel that if their bills are not fairly con-sidered they will block the passage of ri-

MONEY FOR OUR STREETS. THE AMENDMENT TO THE CITY'S CHARTER.

To Submit to the People the Ques tion of Appropriating \$640,000 for the Improvement of Streets Schools, Sewers, Water, Etc.

\$640,000 That's what Asheville voters will pas m at the May election.

J. M. Campbell has returned from Raleigh, where he went in company with Mayor Blanton and J. B. Bostic, of this city, to appear before the house commi tee on corporations in the interest of the bill for the amendment of th city charter, which that committee wa considering. These gentlemen were as sisted in their arguments by Messrs. C M. Stedman, H. A. Gudger and S. R. Kepler, of Asheville, who were also

Raleigh. From Mr. Campbell THE CITIZEN has scertained the most important features of the bill, which the house committee has reported favorably. The bill is ong one, covering twenty pages of type

writing.
The most important feature is to allow the people to vote on an appropriation of \$500,000 for street improvements. The city, if the proposition is carried, will pave the streets and the owners of abutting property will pay for two thirds of the work, while the city will pay one-third. The street railway com panies will be required to pave between the rails and eighteen inches on either side. The property owners are given from one to six years in which to pa their proportion of the cost of this paring. In the provisions of the bill the four banks of the city, the National bank of Asheville, the First National, the Western Carolina and the Battery Park bank, are made trustees of the fund. Another appropriation to be voted for at the same time is \$100,000 for enlarging the water and sewer systems. The water supply, it is thought, will soon be inadequate and will have to

enlarged.
Then there is an appropriation of \$20. 000 for the completion of the new man ket house.

And last, but by no means least im portant, is an appropriation of \$20,000 for the enlargement and perfection of the ity school system.
There are several other amendments to

the charter, among them one to preven the holding by a member of the board of aldermen of the office of city clerk, which s now being held by Mr. Miller. These questions are to be decided at the election in May, at the same time the may or and aldermen are voted for. The bill has been drawn with the greatest care. Mr Campbell says, and every possible said guard has been thrown around the inter
