The Mississippi River Rising at an Alarming Rate.

New Orleans, March 2 .- Concerning the condition of the levees and the uneasy feeling produced along the lower Mississippi by the continued rising of water, information has been received to the effect that the present condition of the Mississippi river and tributaries of the state board of medical examiners, threaten a disastrous overflow from Memphis to New Orleans. The main cured in Asheville and other places, river, as well as tributaries, are higher than at this date last year. The greatest apprehension is felt by all living in the Mississippi valley. The hard fight of 1890 is now being repeated with rivers higher than last year and still rising at an alarming rate.

The river above the town is seven miles wide and below the town in places the water covers the country in one grand lake over fifty miles across. Along the valley fortwenty miles every

thing is in desolation. Costly houses and parns have been washed away like playthings, leaving the country as bare as a lesert. NEW YORK, March 2.- The committ of four from the Staten Island Schutzen orps, appointed to carry out the reques of Henry Meyer, proprietor of Puck hotel at Port Richmond, that his remains be scattered to the winds from the top of the statue of liberty on Bedloe's Island, fulfilled their mission Sunday,

When the top of the pedestal was reached by the committee the metal urn that contained the ashes of Meyer was opened and each committeeman put a portion of the contents, which weighed about four pounds into a paper bag. The delegates then climbed the staircase leading to the crown of the statue, where a brief address was made by the master of ceremonies, after which the four committeemen, each holding one of the bags containing the ashes in the right hand, pronounced these words together: "Here goes the last of Puck Meyer. Happy days," and then scattered the ashes to the four winds. The ceremony was concluded by opening two bottles of champague and drinking to the memory of "Puck"
