M'KINLEY'S TARIFF BILL ATTEMPTS MAKING TO TEST ITS VALIDITY.

The Supreme Court of the United States Appealed to-Power Delegated Which Belongs Exclusive ly to Congress.

Washington, March 3.-Four motions vere made in the United States supreme ourt yesterday to advance the cases intended to test the validity and constiationality of the customs administration and the McKinley tariff laws.

The first of these motions comes here on appeal from the circuit court of the United States for the northern district of wain cable.

When the house met Mr. Cutcheon, of Michigan, submitted a conference report on the bill to increase the number of the board of managers of the national home for disabled volunteers, Agreed to—yeas 124, nays 123, the speaker casting the deciding vote. Kinley tariff act is unconstitutional. First, because the bill signed by the president was not the bill that passed both houses of congress, a section having been omitted in its engrossment, second, that it contains provisions for bounties to sugar producers in this country, which, under the constitution, congress had no power to enact; and third, that section 3 of the act assumes to delegate to the president power to im-

pose taxes upon imports, which power is vested exclusively in congress and cannot be delegated. Motions to advance are based principally upon the very great impe tance of the question involved and the interest of trade and commerce and o the government in having the question speedily settled.

Attorney-General Miller stated that the government was willing to have the cases advanced, but it desired to have the cases made up so as to fairly present the issues involved, which one of the cases, at least, did not do in his opinion. At his suggestion, the matter went over for a week in order that the government might examine the cases.
