## HAVING A VERY GOOD TIME

## THE DOCTORS MIXING PLEASURE AND BUSINESS.

An Enjoyable Experience at the Oakland Heights Yesterday and an Excursion to Hot Springs This Afternoon.

The doctors were taken in carriages from the convention hall to Oakland Heights Sanatorium yesterday after the close of the morning session and dined as the guests of the institution. Owing to the illness of Miss Emille Vaughan and Doctor P. W. Neffus, the managers, the duty of welcoming the guests devolved upon Major Steadman, who was ably assisted by Mr. James Neffus, Mr. Asa Loomis and Mr. A. E. Reading. The register had been adorned with the autographs of about seventy-five members of the profession when the announcement was made for dinner. The menu was in the recherche style for which the house is so noted, and to which the gentlemen did full justice.

Two very interesting features of the extensive institution were visited after dinner, and there were continuous expressions of approval—especially so at the explanation of the workings of the admirable system of baths. After an hour's enjoyment of the picturesque scenery of the surrounding mountains from the galleries and sky parlor was indulged in, the return trip to the city was made, and another mark had been added to the record of our citizens for their handsome treatment of appreciative visitors.

## SECOND DAY—AFTERNOON SESSION.

President Lewis found upon calling the State Medical society to order for the afternoon session yesterday, that, notwithstanding it was 3:30, there were not enough members present to begin business. This led Dr. Lewis to remark that Asheville's hospital did not seem to comport with the transaction of business, and therefore the society would have to await the arrival of delegates from Oakland Heights Sanatorium, where they were invited to dine.

Upon motion of Dr. Hays, the election of officers was made the special order for this morning's session, under the head of new business.

Dr. S. D. Booth read a paper on some recent experience he had had in "uterine pregnancy," instead of one upon "intra-uterine phlegmasia," as announced in the program.

Dr. W. H. Harrell read the report of the chairman of section on practice.

Dr. J. Howell Way, of Wayneville, read a paper which was highly complimented, entitled "A plea for the use of Chloroform in cases of Labor."

Dr. W. P. Whittington read a paper upon "Inflammation of the Uterine Appendages."

The chair announced the following committees:

On Nominations—Dr. J. F. Beall, Dr. J. W. Long, Dr. D. N. Dalton, Dr. W. P. Mercer, Dr. Dr. Hill.

On Pittman Prize—Dr. J. H. Tucker, Dr. T. S. Burbank, Dr. N. B. Herring.

The Pittman prize is \$100 for the best paper read before the society at its annual meetings.

Dr. Albert Anderson read the report of the chairman of section on Pathology and Microscopy.

## SECOND DAY—EVENING SESSION.

Dr. T. E. Anderson read the annual essay upon the subject of "The Evolution of Surgery."

Dr. W. C. Galloway opened the annual debate, and a number of delegates participated.

## THIRD DAY—MORNING SESSION.

The first business of the society this morning was the election of officers for the ensuing year, under the new rule as adopted in yesterday's session.

The following were chosen by acclamation:

For President—Dr. W. T. Cheatham, of Henderson.

The four vice-presidents were chosen in the following order—1st, Dr. J. S. Burbank, of Wilmington; 2nd, Dr. J. W. Long, of Randolph; 3rd, Dr. W. H. Cobb, of Goldsboro; 4th, Dr. W. D. Hilliard, of Asheville.

## PREVENTED A LYNCHING.

A Man With a Record for Doing That.

KNOXVILLE, Tenn., May 28.—The negro, now known to be one Patterson, who shot two negroes, held up two white men and then shot Fred Carpenter on Sunday, was this morning lodged in jail. It was on the cards last night to lynch him, but Maj. D. A. Carpenter, father of the wounded man, heard of it and immediately set to work to prevent it. The names of the lynching party were known to him and by personal appeal and by a letter to the chief of police, in which he asked that every precaution be taken to detect the attempt and urged the police to do their duty if the attempt should be made, he broke the backbone of the plan.

Major Carpenter in on record in this particular, as he has broken up several mobs since the war.

## WHERE'S THE ITATA.

The Charleston Has Been Found—A Surmise.

WASHINGTON, May 28.—The navy department today received its first news from the Charleston since she left Acapulco, Mexico, in continued pursuit of the Itata. The port at which the Charleston announced her arrival is at Callao, Peru. Captain Kemy, the commander, reported that he had seen nothing of the Itata on his cruise down the coast. The Charleston will join the squadron under Admiral McCann in Chilean waters and it is surmised that the report will at no very distant day come thence announcing the peaceful surrender by the insurgents of the elusive craft, which the United States government will libel and perhaps forfeit for violation of our neutrality laws.
