THE BRIDE IS AN AMERICAN GIRL.

she Stood by Her Lover, Even if He Did Cheat at Baccarat-The Prince of Wales Not at the Wed-

LONDON, June 10.-Sir Wm. Gordon Cumming was married at 11 o'clock this morning in the fashionable Holy Trinity church, at Chelsea, to Miss Florence Garner, daughter of the late Commodore Wm. Garner, of New York clay: Lord Thurlow gave the bride away. Major Vesey Dawson, of the Coldstream guards, was best man. Rev. R. Eyton

The marriage was practically a secret marriage. Only twelve people were present at the ceremonies at Holy Trinity. The bride looked charmingly happy and Sir William was proud looking, cool and entirely self possessed. There was no trace in his personal appearance of depression or emotion resulting from vesterday's verdict in the court of the

jucen's bench. Lady and Sir William Gordon-Cum ming left this city shortly after the cere mony for the bridegroom's estate in Scotland, where they will spend the

In an interview Sir William Gordon cumming said that he had nothing to add to what he had said in the witness box. Popular opinion of the verdict, he said, was shown by the demonstrations i court. Sir William refused to say anything in regard to comments of the newspapers upon the case just decided, saying that the newspapers were at perfect liberty to

say what they pleased. When the verdict was pronounced against him Sir William offered to cancel his engagement to Miss Garner, but that lady believing in his innocence, insisted that the marriage take place today. It is expected Sir William and his wife will visit the United States in the autum Lady Gordon-Cumming is the oldest daughter of the late Commodore William Garner, of New York, who was drowned in July, 1876, with his wife, through the enpsizing of Garner's yacht Mohawk. Echoes of the baccarat scandal suit still fill the air. Solicitor General Sir Ed-

ward Clarke, who so ably argued the case, is ill and thoroughly exhausted to-day. He has entirely lost the use of his voice, and is obliged to retire from an important case in which he was retained for today. The denunciation of the Prince of Wales by the newspaper press, especially his denunciation by the tory press, has caused a tremendous sensation ly asserted that the revelations made peril monarchy than any event which has taken place for many years in Eng-

A BERLIN SENSATION.

It Will Cause Little Loss of Sleep

BERLIN, June 10 - A sensation has been caused by the publication, in the "Life of Duncker," of a letter from the late Empeor Frederick to Duncker, his political adviser, dated June 14, 1863, at which time the confict between the king and the Prussian parliament was at its beight, and about a week after Freder ick's famous speech at Dantzic. In this letter he publicly refused to be identified with the then recent acts of the ministry. The letter repudiates the suggestion that his action was on account of a secret al-

liance with the progressist party.

Frederick says in the letter that he does not fear the publication of the correspondence with his father, which the Progressists threaten because he alone had possession of the letters, unless—and this would not surprise him—a system of "Bismarckian espionage" had secured copies. He declares his poweriessnes to prevent any party claiming him. He has no desire to be an opposition leader, and he has no community with the Waldeck party, but he has strong sympathy with the Freisinnige party.

KILL THE CUR DOG.

Or Else You May Die the Most Frightful of Deaths.

KANSAS CITY, Mo., June 10 .- The fourth of the Vandevere family at Atchison Kan., has been taken with hydrophobia The father was stricken yesterday and his death is momentarily expected. One member of the family died Saturday and two others cannot recover.

The cases are the most remarkable ever heard of in the west. There are six brothers and one sister in the family, and there is considerable apprehension lest nore of teem should be stricken. Dr King says that there is no doubt that the disease was transmitted to the boys when they skinned a calf that was bitten

by a dog nine years ago.
Jacob Vandevere, a 15 year old boy has not taken any nourishment since he was attacked by the rabies Saturday The peculiarity of the disease in him is i its centering at the muscles of the throat completely preventing him from swallow-ing. The sight of anything that suggests swallowing throws him into most horrible convulsions.

RALEIGH, N. C., June 10.-[Special.]-It is announced that the Rey. Baylus Cade, editor of the Progressive Farmer, is to retire, to be succeeded by Mr. P. F. Duffy, now editor of the Wilmington Star. The cause of the change is not publicly known. Some surmise it to be the unsatisfactory position of Mr. Cade in relation to the third party; others that it grows out of the controversy originating with the adoption by the legi islature of temperance books for the pub-

Mr. Duffy first appeared as a North Carolina editor at the head of the Greens-boro Patriot. He was afterwards with the Charlotte Observer; and for the past two years with the Star. He is a writer of ability, and has always been accounted a good, unflinching democrat. If so his appearance on the Farmer may reconcile many difficulties.

COTTON.

Unfavorable Reports from Nearly

the Whole Belt. WASHINGTON, June 10,-The report of he statistician of the department of agiculture for June makes the acreage in cotton 97.7 per cent, of area of 1890 and average condition 85.7. The reduction of area is attributed in some districts to oncerted contraction on account of low prices, but it is evident that it is mainly lue to unfavorable conditions for plant ing and germination. The record of the planting in the May report is a quite accurate history of the crops to present time. The planting was delayed by early rains, drought in the latter half of April, followed by continued drought in May. Germination arrested, replanting active, defective stands corrected, are features of the record frequently and almost universally re-ported. These conditions were less genral and controling in Texas than in any

ther state. The areas as compared with these of ast year are given as follows: Virginia, 96; North Carolina, 94; South Carolina, 96; Georgia, 95; Florida, 99; Alabama, 96; Mississippi, 85; Louisiana, 96; Texas, 105; Arkansas, 96; Tennessee, 95. The general condition is the lowest for some though favorable later conditions.

ginia, 78; North Carolina, 75; South Car-olina, 80; Georgia, 80; Florida, 90; Alabama, 89; Mississippi, 88; Louisiana, 88; Texas, 91; Arkansas, 89, Tennessee The temperature of May was quite too low for cotton, the cool nights checking germination and retarding growth. Of course these conditions make the crops late in development, in some places a few days, in others a week or two. There is

frequent mention of bad stands, but con stant replanting will reduce the vacan-

lynching of A. J. Hunt by soldiers, April ig with the adoption by the leg 25, has made a report to the superior court. The report says in part: "We KNICKERBOCKER found a true bill against only seven en listed men of the Fourth United States cavalry, yet we are satisfied there are a number of soldiers against whom suffi cient evidence has not been procurable to warrant an indictment, that are equally Men, Women and Children. guilty with those indicted. There is no doubt that Col. Compton did not be lieve his troops would make an at tack upon the county jail, although the prosecuting attorney and sheriff interviewed him regarding the reports which reached them of the premeditated lynch ing of Hunt. But the attack on the sheriff and the prisoner, Hunt, on the night before the lynching, and the open defiance of the commissioners, supported by the guard, should have been a suffi cient warning to him of what might be expected, and that negligence existed in not taking ample precaution to keep his

men under direct control. "We are also of the opinion that the sheriff was taken by surprise and was not prepared for defence, but we believe that if the sheriff had made proper resistince, a general alarm could have been ounded and, in all probability, the mob would have dispersed without gaining their objects. We suggest that the board of county commissioners prepare a statement of the expenses which the county has incurred and will incur or secount of the outrage, and present the same as a claim against the United States government.

"Since relations must continue vermuch strained between the enlistened men at Fort Walla Walla and our citi ens, we are of the opinion that it w e wise and proper that troops of this fort be exchanged.
