FALL RIVER, MASS., June 22 .- All the alarms from two of the three border city mills called a large portion of the fire department to a big blaze in cotton and cloth this morning. The fire broke out at the southeast corner of a store house containing \$150,000 worth of cotton and fancy cloths. The flames spread with unusual rapidity, and when the department arrived, great volumes of smoke en-circled No. 3 mill, closely adjoining the fire. The storehouse was of wood, and the firemen tore down the sides at once. After a fight of about an hour and the smouldering masswill be extinguished.

Three firemen were slightly injured by the falling walls of the building, and a number of firemen were partially overcome by the smoke. It is impossible to give an accurate estimate of the damage. Treasurer Anthony states that a large amount of the cloth burned was virtually owned by commission houses, and it was stored awaiting shipment. It is said 2,000 bales of cotton were in the building.
