Dr. John Hey Williams, Miss Mabel Reeves and Frederick Rutledge returned this morning from a trip to Morehead. They left here on July 1 with a party of Ashevilleans, taking a special sleeper through to Morehead City. Dr. Williams reports a delightful stay. The vacation was spent in sailing, trolling and in other ways to delay the pleasure seekers. The largest catch was 137 mackerel at one trip. The doctor says there are "no flies on Morehead," and mosquitoes are an unknown quantity. Altogether the trip was a very delightful one, and enjoyed hugely by the entire party. The remainder of the party went from Morehead to Nag's Head and Old Point Comfort.

WILL LEAVE THURSDAY.

T. C. McNeely to Go to His Old Superintendent.

T. C. McNeely, chief clerk in the office of the superintendent of the Western North Carolina railroad, will leave Asheville Thursday at 2 o'clock for Savannah, Ga. Mr. McNeely goes to Savannah to accept a position in the office of Capt. V. E. McBee, recently superintendent of the Western road, but now general superintendent of the Central railroad and banking company.

Thos. C. McNeely, or "Tom" as he is called by those familiar with him, was born in Salisbury, Rowan county, N. C., April 6, 1867. When 12 years of age he was employed in his uncle's store in that town. A year later, November 25, 1880, he entered the railroad service as messenger boy and record clerk under J. R. Macmurdo, then auditor of the Western North Carolina road, at a salary of \$5 a month. He had never received any education except what he gained at the common schools. He applied himself to the study of telegraphy.

By degrees Mr. McNeely advanced himself in the estimation of his superiors in office, and five years ago was made private secretary of Capt. McBee, at a salary of \$75 a month.

Since the beginning of his railroad experience Mr. McNeely has been off duty only nine months, six of which were spent at the State University at Chapel Hill. The other three months were spent at Eastman business college, Fough-keepsie, N. Y. At this college he devoted himself so diligently to his studies that he got through in the least possible number of days, and on each separate examination as well as his final examination he was graded at 100. He received a diploma from this college as master of accounts.

Mr. McNeely is an expert stenographer and typewriter, both of which he acquired by his own efforts, without teachers.

Mr. McNeely has been the secretary of the Asheville Park and hotel company, capitalized at \$1,000,000, and has been largely interested in real estate here. He conducted last year, the Prospect Park land sale, which attracted to him and his associates, Messrs. W. B. Gwynn, R. P. Foster and C. H. Speights, over \$50,000.

Mr. McNeely is a "far-heel" in the wool. His rise has been gradual, but steady and sure. Since coming to Asheville he has made many of his friends who will regret to learn of his departure, but who will also be glad to hear, as they expect, that "Tom" has climbed the ladder of success to the top rung. He has the true North Carolina metal in his composition, and if energy and talent will help him up Mr. McNeely is bound to succeed.

Mr. R. E. Boicreau, who is a native of Washington, D. C., takes the position of chief clerk under Superintendent R. R. Bridgers. Mr. Boicreau is a young man, and has been in the service six years, two of which he has spent as chief clerk to Capt. Bridgers in Raleigh. As a stenographer he is A. 1, and has the reputation of being one of the best superintendents' chief clerks in the R. & D.'s divisions.

A Sample of Moody & Belote's Gutter and Curb Stone.

A very pretty sample of artificial stone work has been put down in front of Advisor Scott's office on College street.

It is a curb and gutter combined, and was put down as a specimen of what Messrs. C. E. Moody and V. T. Belote, of Asheville, can do in that line. It is manufactured by adding chemicals to the ordinary cement, and is called silica-barytic stone. The surface is very smooth, and a gutter constructed of this material can in no way become choked by dirt or trash. Mr. T. K. McAnn, who is here representing a paving company of Washington, says this stone has been used in a number of the streets in New York and that it has proven a successful long ago, both as to appearance and durability. Mr. McAnn has no interest in this kind of work, and his opinion is that of a disinterested person.

Messrs. Moody and Belote will make a bid for curbing and guttering Asheville's streets on Wednesday, the 15th.

Another Row at Lane's.

Robert Carter Gives Will McElrath a Serious Wound.

There was a festival down at "Dumps" Lane's restaurant last night. A large crowd of colored people gathered.

Some time during the night Robert Carter and Will McElrath, both colored, became engaged in a difficulty in which Robert Carter drew an ugly looking knife and stabbed McElrath in the back. The wounded man was taken to Dr. R. H. Bryant's office, where the wound was examined. It is serious, but not dangerous.

Carter was arrested and before Recorder Miller had a hearing this morning. He was remanded to await the result of McElrath's wounds.

He Stopped the Horse.

A runaway occurred yesterday afternoon about 6 o'clock on Patton avenue. A horse attached to a wagon started running near Slagle's hotel, and when just east of the hotel ran the wagon against a post in the sidewalk.

The horse kept on running at full speed, with only the front wheels of the wagon following him. The frightened animal turned into Church street and slowed up. A colored man ran after him, and catching up stooped down to get hold of the lines which were dragging on the ground. But the ground was wet and slippery, and as the man got a grip on the lines, his feet deserted him, and he measured his length in the mud. The incident furnished a laugh for the crowd which had gathered, but the mud-covered colored man had stopped the horse, just the same.

Recorder's Court.

Before Recorder Miller this morning, E. W. Vaughan, for fighting, forfeited \$4; two drunks \$8.50; Rufus Greenlee, for striking Mahala Goodwin, \$5; Mahala Goodwin, for cursing, \$1; Dennis Moore and Geo. Johnston, disorderly, dismissed; Robert Carter, for cutting Will McElrath, sent to jail. Elias Vernon, for carrying a razor, was fined \$30, but after court it was brought to Mr. Miller's attention that Vernon had been arrested in his possession on a warrant charging him with selling whisky. On being searched in the jail the razor was found, and a warrant sworn out. Taking into consideration the fact that he was in his own shop, Mr. Miller revoked his decision, and Vernon was acquitted of the charge.

DO IT.

Go down Patton avenue on the north side unless you are sure-footed—the hole in the sidewalk is dangerous.

Come down town wearing a toothpick in your teeth—it is not the thing.

Worry about the railroad proposition—it will carry it if you come out and vote.

Post any more bills on the court house bulletin until the board has been reported.

Chide the Richmond committee about that report—it was published in THE CITIZEN the day after they came home, that is, nearly all of it.

Be afraid the Chinamen are going to take the town—they always come out in the wash.

Forget to look in at Field's jewelry store and see that watch and pin.

The wonderful success we have had in the private sale of lots since making our last announcement, has induced us to withdraw the public sale heretofore advertised. A large number of lots intended to be sold at that time have already been sold, and we have only to say that Asheville marching at the head of the procession to the tune of \$500,000 just appropriated for street paving, and \$100,000 for extending her sewerage system, has attracted the attention of capitalists all over the country to this rapidly growing and plucky town. One year ago the Asheville, Loan, Construction and Improvement Company with the following officers: GEO. S. POWELL, President and Gen. Manager, W. W. BARNARD, Treasurer, Richmond Pearson, J. E. Rankin, T. H. Cobb, J. S. Adams, Geo. S. Powell, Directors, foresaw what was coming and went to work developing their six hundred acres, embracing the finest building and manufacturing sites in the city. This property is now laid out with broad avenues, paved gutters and shade trees on each side. Water, sewer and electric street railway running through the property. Park and lake sites have been left at convenient distances through the property and a complete water and sewer plan has been adopted so as to give the very best sanitary results. Some of the views to be had from points on this property are:

Unsurpassed in Western North Carolina, and that almost means the world.

The demand for this property has been unprecedented in the history of Asheville real estate, and its success as the popular resident part of the city has already been assured, there now being over \$125,000 worth of buildings completed and under contract to be finished by 1st October next.
