### EVER CHANGING.

**OUR STOCK OF GROCERIES**

IS LIKE A RUNNING STREAM.

**Hundreds Take From It,**

Yet it is never diminished.  
This, of course, is because there is a never failing spring of supply that feeds the stream. Sluggish streams stagnate, so do sluggish groceries. They become musty, sour and stale and unfit for use. The movement here is quick; new things coming and going. We use modern methods and buy what we can sell before getting stale and pride ourselves in having a fresh stock to select from at all times.

### HOW TO MAKE MONEY.

The way to make money is to save it. And the way to save it is to have your prescriptions filled at Carmichael's drug store, and you will find by doing so you will save from 25 to 30 per cent. on every prescription. We do not take goods that the people know the price and mark down to cost, and then charge two prices for a prescription to make up the loss. You know clerk hire and house rent must be paid and the profits must be averaged some way. A hint to the wise is sufficient. A full line of De-Vault Flavoring Extracts in stock. Mr. J. ### THE VIRGINIA ALLIANCE.

**FARMERS OF THAT STATE MEET AT RICHMOND.**

They were called to order and then went into secret session—Extracts From President Page's Address.

RICHMOND, August 18.—The fourth annual session of the Farmers' Alliance met here today at noon and was called to order by President Mann Page, of Prince George county, after which the doors were closed.  
There were ninety odd delegates present. President Page delivered his annual address in which he said:  
"While we are staunch advocates of individual liberty we have been forced to band ourselves together as an organization of offense and defense against the combines and trusts which under the sanction of law have sprung up in the last twenty-five years, forcibly absorbing individual enterprises and depriving the producing classes of a market for the sale of their produce except at prices below the cost of production. We are told when we complain of prices being under the cost of production that the cause is over-production. Yet, ex-Senator Ingalls, who, by the chastening hand of the Kansas Alliance now poses as a statesman without a job and who for many years assisted in the enactment of laws which now oppress us," says from the year 1860 to 1890 wealth has been accumulated to the amount of one hundred billions of dollars; yet there are ten million of people who never have enough to eat from one year's end to the other. I pause to ask why it is that with this accumulation of billions of wealth and with an increase of thirty-eight millions of people, there should now be five hundred and two millions less money in circulation. The chief cause, in my opinion is attributable to the act passed by congress establishing the national banks, for through the influence of these banks the act demonetizing silver was adopted. I passed that Senate and representatives have since declared that they were ignorant of the provisions of that act and President Grant was not aware of them when he signed the bill.

### THE ORPHANS' CONCERT.

A Delighted Audience at Old Opera House Last Night.

He would indeed be cold and unappreciative who could fail to enjoy the entertainment given at the old opera hall in the court house last night by a chapter of orphans from the Oxford, N. C., asylum.  
Although very little in the way of advertising the concert had been done beforehand, almost every seat in the hall was filled, and never by an audience more sympathetic or appreciative.  
The concert began shortly after 8 o'clock, at the conclusion of a speech of introduction on behalf of the children by Col. A. T. Davidson. This short talk was made in Col. Davidson's best style, and pleased everyone, and prepared them somewhat for the program which followed.

There are twelve of the students of the orphan asylum in the chapter now traveling in the western part of the state, and which gave the concert last night. Ten of these are girls and two boys, led by Miss Katie W. Marsh, the teacher in charge.

The names of the little people who had places in the program last night are: Edna Bell, Annie Strickland, Mamie Horton, L. Pittman, L. Greig, Maggie Hays, L. Wood, Hattie Williams, Blanche Fowler, Ben Brown and Carter Koonce. The children are all between the ages of five and fifteen years. They all sing well, and the voices of several of them are remarkable for their strength and sweetness. Especially was this noticeable in the singing of Hattie Williams, Blanche Fowler and Annie Strickland. The latter a bright-eyed little miss of perhaps ten years, completely captured all present by her singing of "Marguerite." No less praiseworthy was the vocal work of Hattie Williams and Blanche Fowler, in the duet, "Hark, my mother's voice, I hear it." "The Orphan's Prayer," a recitation by Mamie Horton was very touching, while the duet and chorus, "Bringing flowers to strew on mother's grave," was so well rendered by the class that it was repeated near the close of the entertainment.

Taken piece by piece, or as a whole, the entertainment was one of which older heads could well be proud, and reflected credit upon those instructors who have the children in charge. The little people knew they were before an appreciative audience and did their very best.

Just before the singing of "Good night" by the class Grand Master H. A. Gudger made a short talk, thinking of the orphanage at that time, and asked all who had anything to contribute to the support of the institution or the comfort of any of its inmates, to send their contributions to the trustees office up to Wednesday night, where a box of articles donated is being made up. Anything in the way of money, clothing, shoes, etc., would be gladly accepted, and Mr. Gudger hoped to see a huge boxful of things donated by the good people of the city.

After the program was finished Rev. W. S. Black, superintendent of the asylum, was introduced by Mr. Gudger. Mr. Black made a short address of thanks, expressing gratification at having stopped here and getting out so large a crowd.

The orphans went over to Waynesville this morning, and will give a concert there tonight.

### BUNCOMBE'S CENTENNIAL.

In accordance with a call by a number of citizens of Buncombe county a meeting was held in Asheville today and proceeded to organize for the purpose of celebrating the one hundredth anniversary of the foundation of Buncombe county. ### PROMISING OUTLOOK FOR THE NEXT SESSION.

CHAPEL HILL, N. C., Aug. 17. [Special.] The outlook for the opening of the university is more promising than at any time since the re-opening in 1875. There will almost certainly be a hundred in the freshman class and every assurance of an increased attendance over that of last year. There is more enthusiasm in this section of the state than for years at this time.

A classical high school has been established in the town which will directly prepare students for the university. Mr. Caskel Ellis has been chosen headmaster. Tuition per term is \$20.

The south building has been thoroughly repaired and refurnished. The rooms have new ceiling and new floors, new windows and mantels and cannot be surpassed in comfort. The first floors of all the other buildings which needed repairs had badly are also being repaired and will be ready for the students on September 3.

In addition to these repairs, the floor has been taken out and a new one put in. The doors on the side of the chapel are to be closed and new ones put in the end. Chairs have been ordered for it, as well as carpets, which will be put in the autumn. The faculty and trustees have decided to make attendance upon prayers compulsory and no excuse will be accepted for absence unless a reasonable one.

### FRANCE IMPROVING HER STANDING AMONG THE EARTH'S NATIONS.

PARIS, Aug. 18.—King Alexander, of Serbia, and his father, ex-King Milan, are guests of President Carnot, at Fontainebleau.

At the election for presidents of the French council, General M. Rouvier, M. Ferry and many others made speeches in which they referred to the visit of the French fleet to Cronstadt, the firm position France is gaining in Europe, her stability at home and the renewal of respect for her from foreign nations.

### GRAIN MARKET IS LOWER

**THE SITUATION HAS BEEN EXAGGERATED.**

**The German Soldiers to Feed on Wheat Instead of Rye—The Recent Rapid Advances Are Not Warranted.**

BERLIN, Aug. 18.—The grain market here closed flat last night, but at the opening this morning there was a decline in prices and the market was excited. August rye which closed yesterday at 257 marks opened at a decline of 10 marks, 50 penning, being quoted at 246 marks, 50 penning. The decline in prices was caused chiefly by news of the government's action in ordering the substitution of wheat meal for rye in making of bread for the army.

There is a growing belief that the situation has been exaggerated and that the recent rapid advance in prices was not warranted by facts. The liberal press continues, with increasing vehemence, its protests in regard to corn duties, pointing in the darkest colors dangers attendant upon further hesitation upon the part of the government. The same newspapers declare that industries of the country are decaying in amount on all sides.

### WHEAT WENT RITING.

**December Reaches \$1.13, But Drops Back Somewhat.**

CHICAGO, 10:05 a. m., Aug. 17.—The exciting scenes in the wheat and corn pits were renewed at the opening of the board of trade this morning. The trading was just as wildly nervous as it was on Saturday. Traders were inflamed with the prospect of higher prices as the result of the excitedly higher cables. Liverpool was up the equivalent of three cents per bushel, and the Paris country markets were up the equivalent of two cents.

When the bell tapped for the opening of business, the pit at once became a pandemonium out of which came figures for December ranging from 109 1/2 to 113. This was the top figure on the early bulletin. Then the price began to weaken and with feeble rallies sank away, and is now quoted at 107 1/2, the lowest price of the day. September corn is now 66 1/2.

NEW YORK, Aug. 18.—Stocks, active and strong. Money, easy at 1 1/2%; Exchange, 4 1/2%; family, \$4.80; \$5.25. Wheat, unselected spot, month and Sept. 1.00; 1.01; 0.95; southern white, Fall 1.00; 1.00; 1.00; 1.00; 1.00. Corn, southern, white, steady at 70c; yellow, firmer at 72c; 73c.

### AFFAIRS OF CONSEQUENCE.

**FOREIGN.**  
The reports of the actual signing of a Franco-Russian alliance are not believed in Berlin.

The German cabinet Saturday decided not to reduce the corn duties until absolutely compelled to do so. The ministers rely on America to supply the deficiency in the crops.

Services in memory of the late James Russell Lowell were held Saturday in Westminster Abbey, London, at which Canon Farrar delivered an oration praising Mr. Lowell's character as a man, a scholar and an orator.

**HOME.**  
New York's two Chinese lepers have been put on North Brothers Island in a pest tent.

W. M. S. Leases, the Charleston county (S. C.) treasurer, died very suddenly of apoplexy.

A. C. Cooper, of Richmond, Va., is in favor of trying Chinese coolie labor in the southern states.

S. R. Hull, of Petersburg, Va., says Gen. Wm. Mahone will urge the farmers' alliance to elect members of the Virginia legislature.

Mr. Frank D. Palmer, formerly of Alabama, now a fruit raiser of Los Angeles, Cal., thinks it would be a good plan to take the colored people from the south to California.

T. J. Casey, a Philadelphia baker, rescued his four children from a burning building, by dropping them out of a third story window in the arms of men who were standing below. His wife would not be located in that way, so Casey tossed out a mattress and then pitched his wife on top of it. She and the children escaped injury.

At Midland, Texas, today Professor Rosell, chemist, and Professors Meyer and Custallar, balloonists, will endeavor to make rain fall. About fifty balloons inflated with explosive gas, as many kites, with dynamite tails, and on terra firma mortars of rim rock, will be discharged, not simultaneously, but in rapid succession, while scientific observations will be taken by balloonists in midair and Professor Dyerholt and staff on earth, connected by telephone.

Geo. Mueller, who issued the alliance wheat circular, says: "We have received replies from the secretaries of alliances in Southern Minnesota, South Dakota, Wisconsin and Kansas, telling us of alliances having voted favorably on the suggestion. My opinion is that the farmers will allow their grain to remain in the stack, and go on with their fall work, and do the threshing afterward. This, of itself, will result in a large percentage of the crop being held for a time at all events."
