THE FARMER'S WORST ENEMY.

he Scheme of Taxation That Robs the Agriculturalist.

No; for there is no tax. The duty on cheese was imposed, as theduties on eggs and wheat are imposed, simply to delude the former. We make cheese cheaper here than it can be imported for; so with wheat, so with cotton. A tax of \$1 a pound on cotton would not increase the orice one cent, for we are exporters, not importers, of wheat, cotton and cheese, These taxes are palpable frauds, meant to deceive the farmer. It is a buneo game, rotten from end to end. The purpose is to get the farmer to vote for pro-tection. If the protectionists really mean to protect cheese, wheat and cotton, let hem pay bounty on all we export.

If farm wealth had increased as rapidly ander a high tariff from 1860 to 1880 as it increased under a low tariff from 1850 to 1860, farmers would have owned twenty thousand million dollars that somebody else owned in 1880, and their wealth would have been CONDUCTOR OF THE GARRATT ORCHESTRA thirty-two billion instead of twelve

> The Ohio board of equalization meets every ten years. Its report is just out, showing that, in the past ten years, agricultural property in Ohio has decreased \$108,000,000, while the value of city, town and village property has increased \$155,000,000. Yet all this time our ex-ports have exceeded our imports, and the country has been prosperous. Four ourselves, we denounce any scheme of taxation that makes prosperity for the cities, towns and villages at the expense of the farmers. The tariff does this, and we trust the farmers will fight against it continually as against their worst

Unless all signs fail, there will be a comof te display of the election returns at The Citizen" office tonight.
