A BRILLIANT RING.
We are showing some of the daintiest novelties ever displayed in jewelry. It would be easier to tell you what we haven't got than what we have. If you haven't seen our elegant trifles in gold and in silver, there is a treat awaiting you, and, whether you have purchases in mind or not, you should not miss them. It is difficult to resist going into details—we are strongly tempted to describe some of the exquisite products of the season's art, some of which show that the caprices of fashion are apt to be wonderfully charming, but you'll get a much better idea if you come and look for yourself.

RAILROADING AT NIGHT.

WORK ON THE W. A. AND S. S. ROAD BEGUN.

President Carrier Puts a Force of Hands to Work at Midnight and Crosses the Asheville Company's Track.

Several months ago the West Asheville and Sulphur Springs railway company procured a privilege from the board of directors to extend its line from the passenger depot into the city, coming over Depot and Bartlett streets, French Broad and Patton avenues to Pennington's store on West College street.

Up to last night nothing had been done toward the extension of the road. Preparations had been going on for several days, however, and last night at 12 o'clock, President E. G. Carrier, and secretary J. D. Carrier, put a force of thirty or forty men to work.

To get into Bartlett street the company's line has to cross the track of the Asheville street railway company twice—once at the passenger depot and again at the intersection of Depot and Bartlett streets, about 200 yards from Glen Rock hotel.

It was expected that everything in the way of material had been prepared beforehand, but after the crossing at the depot had been put in it was found that some of the material ordered would not answer the purpose. This delayed the work, and when morning came there was only one crossing and about half of the track between the crossings completed.

The authorities of the Asheville railway company knew nothing of the important turn of affairs until this morning when they were informed by the men on the first car that went down.

At 9 o'clock a special car was run out on which were B. M. Jones, secretary and treasurer, and W. T. Gray, superintendent of motor power. When these officials arrived at the Glen Rock they saw a new railway, with one of the W. A. & S. S. company's handsome cars standing in front of the Glen Rock, and a force of hands, under Ed. Suddarth, working merrily along as though building a connecting line was an every night business.

The Asheville company's special car was run up to Bartlett street and stopped on the crossing, just where Mr. Carrier expects to cross. It is the intention of the company to keep the car standing there, hoping to balk Mr. Carrier in his attempt.

Mr. Carrier told THE CITIZEN that if all the material had been properly made he would have had both crossings in before daylight this morning.

The new line is expected to come over Bartlett street to French Broad avenue, then up that avenue to Patton avenue, from there running a parallel line with the Asheville company to the street which runs in rear of the government building, with that street to West College, and then with West College to North Main street.

The "blockade car" was taken off the Bartlett street crossing at noon today and the track is now clear.

Col. J. G. Martin, president of the Asheville street railway company, was asked this afternoon if his company would enjoin Mr. Carrier's company. He replied that he did not intend to do so, saying that Mr. Carrier could cross if he so desired.

Mr. Carrier's hands are now at work surfacing the track between the crossings. He says the Bartlett street crossing will be put in a week, and the road will be pushed as soon as the necessary material is received.

NEW COMPANY.
Asheville Will Have Two Military Companies Soon.
A meeting was held last night for the purpose of taking initiatory steps in the formation of another military company in Asheville. Col. J. G. Martin was chairman of the meeting. Nat. S. Rogers acted as secretary.
The names of the following gentlemen were enrolled as members of the company: Capt. O. W. Budd, C. S. Jordan, D. W. Furman, W. G. Smith, B. M. Jones, Roy Dennison, Clarence Sawyer, A. M. Smith, J. M. Hastie, Nat. L. Rogers, Capt. O. W. Budd was chosen as the captain of the new company. The secretary pro tem was instructed to procure from Adjutant General Glenn all the necessary papers for perfecting the company's organization.
Another meeting is to be held in Dr. C. S. Jordan's office next Monday night, at which time a permanent organization will be had.
B. M. Jones and W. G. Smith were appointed a committee to solicit members. There is splendid material in the new company and it will no doubt be one that will be a decided credit to the state guard.

TWO ROADS.
The Difference Between Asheville's and Charlotte's.
The Charlotte News man has taken the figures given in the annual report of the Asheville street railway company's earnings and expenses, published in THE CITIZEN, and makes these comparisons: "The Charlotte electric road runs its line at a yearly expense of \$3,500 per car, while Asheville shows an expense per car of \$4,480 or a total excess over Charlotte of \$9,800. From which if the 'net loss' that town is reported as experiencing in its electric advantages, be deducted, it would show a profit to that of about \$9,500. This latter figure will be nearly reached by our electric line after paying interest on its bonds and increasing its rolling stock. It appears that Asheville's daily expenses average \$123 fixed charges and interest, while Charlotte's slightly exceeds \$50."

In the superior court in the case of J. R. Garren vs. J. G. Lindsey, action for debt, a verdict was rendered in favor of the plaintiff, allowing him \$27. Chas. A. Moore, represented the plaintiff and Jones & Webb the defendant.
The case of the Carolina Woodworking company vs. W. L. Shope, action of debt, is on trial today. W. W. Jones is attorney for plaintiff, and S. H. Reed for the defence.

COLORADO DEMOCRATS.

They Will Meet at Denver, May 20 to Choose Delegates.

DENVER, Col., March 22.—The democratic state central committee met here yesterday and named Denver as the place and May 25th the day for the meeting of the convention to select delegates for the national convention at Chicago. No district convention will be held as it was decided to elect all delegates at the above convention. The place and date for holding the democratic convention for the nomination of state officials will be decided upon at a convention to be held May 25th.

SHE APPLIED FOR DIVORCE

HER HUSBAND ATTEMPTED TO KILL HER.

He Poured Muratic Acid Into the Coffee and She Drank a Little of It—The Husband Arrested.

BRISTOL, Tenn., March 22.—A case of attempted wife poisoning most diabolical has just come to light.
Saturday night while Mrs. Marguerite Ferguson, a dress maker of the city, was out attending to business, her rascally husband, for some cause or other, poured a considerable amount of muratic acid in the coffee pot.

When she returned she soon finished supper and sat down with the other members of the family. She took a sup of coffee and in a moment her tongue was in burning blisters. On examination the acid was found. The coffee was full of it.

The wretch had by accident poured some on the sewing machine, and the officers were not notified until today. The cause of the deed is thought to be attributed to the wife's having applied for a divorce.

A LOSS OF \$258,000.

Cambridge, Mass., Has a Big Fire—Families Burned Out.

BOSTON, March 22.—Fire in Henderson brothers' carriage factory in Cambridge this morning destroyed the large four story main building of brick, two four story buildings and four two story buildings in the rear, and a large stable, and ruined three dwelling houses, the tenants of which saved most of their effects. In the carriage factory and ware and store rooms were 1,200 carriages, wagons and sleighs, all of which, except about one hundred carriages, were burned. Mr. John J. Henderson, of the firm, estimates the loss at about \$200,000 with about \$100,000 insurance. The firm's safe containing \$50,000 worth of losses and valuable papers is in the ruins. One hundred hands were employed. The other losses amount to about \$380,000.

HARD ON PEACHES.

A Storm of Wind, Snow and Sleet in Illinois.

MARENGO, Ill., March 22.—One of the worst storms of the season is raging here, consisting of snow, sleet and a heavy gale of wind.
ROCKFORD, Ill., March 22.—A heavy sleet and snow storm is raging here. Street railway traffic is at a standstill. The telephone and telegraph service is seriously interfered with.

YANDBLA, Ill., March 22.—Four inches of snow has fallen in this section. It will be of great benefit to the growing wheat. The severe weather of last week has, it is feared, destroyed what was left left of the wheat crop.

GOOD AS ELECTED.

Mills' Only Competitor Withdraws—His Reasons.

AUSTIN, Tex., March 22.—Horace Chilton has addressed a letter to a caucus of his friends announcing his withdrawal from the race for United States senator, thus leaving the field clear for R. Q. Mills to pass from the lower to the upper branch of congress.
Senator Chilton resigns as his only reason for withdrawing that he finds that the total vote of his friends in the legislature will not be sufficient to elect him and he doesn't want to embarrass those who would stand by him.

WOODS RESISTS OPPOSITION.

INDIANAPOLIS, March 19.—Judge Woods is very sore over the fight that was made against him, and says this about Senator Turpie: "If Senator Turpie is properly reported, he has played the part of a hypocrite. He had always borne himself toward me as a personal friend until he began his bitter fight against me in the United States senate. After the decision of the supreme court in the case of Coy and Herneimer for the tally sheet forgeries, Senator Turpie called on me to congratulate me on the fact that I had been upheld by the court of last resort."

SHOT DEAD IN HIS ROOM.

LONDON, March 22.—A despatch has been received from Granada, Spain, stating that Marquis of Coraselic has been found dead in his room. He had been shot with a pistol. Nothing is known as to the motive that prompted the assassination.

THE OAKLAND HEIGHTS SANATORIUM.

Has received the following very flattering and voluntary notice from the pen of Dr. Henry M. Field, in the New York Evangelist:
"A PLEASANT PLACE TO WINTER IN."
Though the winter has been mild thus far, there is no certainty that it will continue so, and many of our readers are doubtless planning to spend a few months in the south. Asheville, in Western North Carolina, is famed for beauty of situation and evenness of climate, and in Asheville the most delightful place of residence for the traveller is certainly the Oakland Heights Sanatorium. Everything is done in this house which can contribute to the comfort and cheerfulness of the visitor. No consumptives are admitted, and the visitor is therefore spared that spectacle which wrings the heart of the guest of almost every southern hotel, of men and women dying from the most dreadful of all diseases. On the other hand, the house is quiet, homelike, free from the excitements of a hotel, and therefore just the place for those who are nervous, or who are debilitated by influenza, or suffering from any sort of chronic ailment.

THE DEBATE ON SILVER.

GREAT INTEREST SHOWN IN THE HOUSE.

An Attempt to Head Off the Discussion Fails, the Speaker Ruling Against any Delay—Bland Opens the Ball.

WASHINGTON, March 22.—The interest in the question of the free coinage of silver was manifested in the house this morning by the increased attendance of the members, by the unusual activity of the corps of newspaper correspondents, and by the crowd that thronged the galleries. The diplomatic gallery which is generally empty, today added its quota of spectators.

On the floor the members clustered together in little groups and discussed the situation, the anti-silver men being apparently more active in their missionary work than the men in favor of free coinage. Tracy, of New York, Harter, of Ohio and Hoar, Massachusetts were ubiquitous. The leader of the silver forces, Bland, of Missouri, was not prompt in making his appearance, evidently confident that his able lieutenants would map out the work of the campaign without his personal supervision.

After the introduction of several bills, Mr. Bland, who had entered the hall, called up the special order, being the bill for the free coinage of gold and silver and for the issue of coin notes. The bill having been read in full, Mr. Bland took the floor, but was immediately taken over by the chair, who stated that the matter had been examined at the time of the report of the bill from the committee.

On motion of Bland a resolution was adopted, providing for evening sessions tonight and tomorrow night for general debate on the silver bill.

Wilson, of Georgia, wanted some time granted in the discussion to members of the third party. "We stand here" said he, "as the independent party."

"We are all independent on this question," retorted Bland, amid applause and laughter. Bland was then permitted to proceed with his speech.

RIVERS AND HARBORS.

The Bill Reported to the House—A Reduction.

WASHINGTON, March 22.—After an almost continuous session for more than two months, the house committee on rivers and harbors has completed consideration of the regular river and harbor appropriation bill and reported it to the house. The bill appropriates \$20,700,000, which is about \$300,000 less than the amount carried by the bill reported by the committee in the last congress, and nearly \$4,000,000 less than the amount of the bill which became a law in the last congress.

Here is North Carolina's share: Inland waterway between New River and Swansboro, \$10,000; Northeast (Cape Fear) river, \$15,000; Pasquotank, \$15,000; Cape Fear (above Wilmington), \$100,000; Contentnea Creek, N. W., \$10,000; Pamlico and Tar, \$15,000; Fishing creek, \$9,000.

The greatest feature of the bill is the extent to which the committee enlarges the policy adopted in the last congress, of placing some of the most important projects under contract system, by means of which work can be undertaken with the amount appropriated for a year, covered by the bill and contracts entered into for completion of the work and its continuance without serious interruption, as has sometimes happened when the continuance of the work was entirely dependent upon the river and harbor appropriations of each congress before the work could again be pushed.

The contract as opposed to the dribble system has been found to be so economical that the committee adopted it generally this year. In the last bill, by means of which work can be undertaken with the amount appropriated for a year, covered by the bill and contracts entered into for completion of the work and its continuance without serious interruption, as has sometimes happened when the continuance of the work was entirely dependent upon the river and harbor appropriations of each congress before the work could again be pushed.

EMPEROR WILLIAM'S TROUBLE.

LONDON, March 22.—The Telegraph's Berlin correspondent says: "Dr. Bergmann proposed a slight operation to relieve Emperor William of his aural affection, but the emperor's physician declined to consent, believing that the operation would only result in transferring the locality of the malady, which is his quiet. It is not true that there is anything serious in the matter with the emperor's health."

BURNED TO DEATH.

ST. PAUL, Minn., March 22.—Near Springfield last night, the house of a man named Leahy took fire and was destroyed. Five of his children were burned to death, and Leahy himself is probably fatally burned. His son, aged fourteen, pulled him out of the flames.

A NEW EXTRADITION TREATY.

PARIS, March 22.—At a meeting of the cabinet held today M. Ribot, minister of foreign affairs, and M. Ricard, minister of justice, submitted the text of the extradition treaty with the United States.

CONFIRMED.

WASHINGTON, March 22.—The senate has confirmed the nominations of Chas. H. Aldrich, of Illinois, to be solicitor general of the department of justice, and J. J. Perkins, postmaster at Greenville, N. C.

TO SUCCEED COOLEY.

WASHINGTON, March 22.—William R. Morrison was today elected chairman of the inter-state commerce commission vice Cooley.

BISMARCK BETTER.

BERLIN, March 26.—Prince Bismarck is recovering from a sudden illness with which he was attacked yesterday.

ONE BOTTLE OF

Buncombe Sarsaparilla

Will convince the most skeptical of its real value. By its use you can save yourself from the suffering caused by the eruptions and ulcers sores through which the system strives to rid itself of impurities. It purifies the blood, giving it renewed vitality and force.

Being an alterative it changes the action of the system, imparting fresh strength and vigorous health. The concentrated pure and curative virtues of Buncombe Sarsaparilla render it the most reliable blood purifier that can be used, while it is entirely safe for patients of all ages. For sale only at

GRANT'S PHARMACY.

The general tendency of Buncombe Sarsaparilla is laxative, but in a number of cases it is not enough so—hence we have had many demands for a good vegetable pill.

BUNCOMBE LIVER PILLS are mild, yet efficient; do not cause pain or gripe, and act upon the liver and bowels.

They are especially valuable as after dinner pills, and readily cure constipation and costiveness, nausea, distress in the stomach, etc.

They are purely vegetable and we believe they are the best family pill yet prepared and offer them with perfect confidence, believing that whenever used it will be with the happiest results.

Try them and judge for yourself. For sale only at
